ANY of the largest users of seeds in New England—market-gardeners, farmers, florists and private estates—have been our customers for many years. Our largely increasing business is evidence of the superiority of our seeds, the larger portion of which are grown for us on contract by special growers, from our own stock, and in locations best suited for their development. Others are secured from strictly reliable sources, and constant effort is made to secure only the best.

We, however, give no warranty, express or implied, as to quality, description, productiveness, or any other matter of any Seeds, Bulbs or Plants we send out, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they must be at once returned.

We do not send out seeds to be sold on commission. Much disappointment can be avoided by refusing to buy the ordinary cheap seeds, sent out to sell in this way.

EARLY ORDERS.—It is essential that customers send us their orders as soon as possible after receiving this Catalogue, and thus avoid the rush incidental to the planting season. It frequently happens that some varieties or articles are not in store when orders are received. In such cases we forward such as are ready, and the balance as soon as possible.

ORDERS FROM NEW CUSTOMERS, to insure prompt attention, must be accompanied by remittance, or by satisfactory reference to some responsible house or person; otherwise we must send by express, C. O. D.

REMITTANCES may be made at our risk by draft, P. O. money order, express money order, or cash by express or in registered letter. Postage stamps may be sent for moderate amounts.

PLANTS AND SHRUBS cannot be sent C. O. D. unless we receive a remittance on account to guarantee acceptance.

FREE DELIVERY.—We send to any part of the United States all vegetable and flower seeds quoted in this Catalogue at packet, ounce, quarter-pound, half-pound and pound rates free of expense to the purchaser, by mail or express (at our option). All heavy seeds, including peas, beans, corn, clover seeds, seed grain, roots, etc., are quoted at net prices at our store. Purchasers desiring these by mail are requested to remit an additional amount sufficient to cover postage, at the rate of 8 cents per pound or 15 cents per quart. Particular attention is invited to this, as, when omitted, the cost of postage will be deducted from the amount received.

We deliver free by mail in Canada all vegetable or flower seeds ordered at packet, ounce, or quarter-pound rates. For seeds in larger quantities, customers should remit 16 cents per pound for postage.

The large express companies now take shipments of seeds to points where the merchandise rate is over 50 cents per 100 pounds at a discount of 20 per cent from regular rates, charges prepaid or guaranteed.

ORDER SHEET.—In ordering, please use the order sheet which we send with each Catalogue—other order sheets will be furnished if desired.

BAGS are charged for at cost as follows:—\(\frac{1}{4}\)-bushel and \(\frac{1}{2}\)-bushel at 10 cents each; 1-bushel at 15 cents each; 2-bushel at 20 cents each.

NAME, ADDRESS, ETC.—Please be particular to give on each order your name and full address very plainly, giving your express and freight office, if different from post office; also state the mode of conveyance you prefer, whether express, mail or freight. In the absence of instructions, we shall select what we consider the most desirable way, but can assume no responsibility.

SITUATIONS FOR GARDENERS AND FARMERS. We have on our books the names of reliable men, experienced in all branches of gardening. Also, men for second places and general work. If, at any time, our customers or others are in want of such men, they would do well to call upon or write us. No fees are ever charged.

SCHLEGEI & FOTTLER CO.
The Schlegel & Fottler Co. give no warranty, express or implied, as to description, quality, productive-
ness, or any other matter of any seeds, bulbs or plants they send out, and will not be in any way responsible
for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.
SCHLEGER & FOTTTLER CO.'S Specialties for 1909

We include in this list some new introductions, some varieties of special merit not mentioned in our general list and a few of OUR OWN SPECIALITIES.

BEAN, FORDHOOI: BUSH LIMÁ. This new Bush Lima is of uniformly erect bush habit, branching freely but with all the branches held upright. It bears tremendous crops and sets pods freely even in a cool, wet season. The plump, well-filled pods are twice as large as those of the Dreer Bush Lima, and beans are also twice as large. Pkt. 15 cts., pt. 35 cts., qt. 60 cts., pk. $3.50.

BEAN, Sutton's Dwarf Sugar (New). This variety produces a heavy crop of long, succulent pods, entirely stringless, and very brittle, even when well advanced in growth. Delicious quality and quite early. Pt. $1.50.

BEAN, Sutton's Evergreen. One of the earliest dwarf Beans, bearing a great profusion of medium-sized pods. The characteristic which distinguishes it from all others is the unusual period during which the foliage remains green, enabling the plants to mature pods from the later blossoms. A really profitable Bean of fine quality. Pt. $1.50.

BEAN, Sutton's Perfection (Stringless). The pods of this variety are extremely fleshy and succulent, being almost round, and they remain in excellent condition long after ordinary Beans become dry and tough. Of branching habit, which prolongs the time of bearing and the pods are produced in great profusion. Pt. $1.50.

BRUSSELS SPROUTS, Orient Special. A remarkably prolific variety and one which rarely fails to produce a satisfactory crop. Pkt. 15 cts., oz. $1.

CORN, Early Golden. We believe this variety excels all others in quality, being exceedingly sweet and delicious. It is early and has the admirable quality of remaining a long time in a tender condition without becoming hard or maturing. The color is a clear yellow, and while this may to some seem to be an objection at first, it ceases to be so upon the first trial. Ears 10 cts. each, pkt. 10 cts., pt. 15c., qt. 30c., pk. $1.75.

LETTUCE, Sutton's Little Gem Cos. An entirely distinct Cos Lettuce, and a most valuable dwarf, compact variety. Very dark green, small, solid, crisp, slow in running to seed and of delicious quality. Pkt. 25 cts., ½ oz. $1.

MEON, Burrell Gem. Reddish orange, flesh very thick, fine-grained and spicy, shape somewhat elongated. Rind thin, tough and finely netted. Pkt. 10 cts., oz. 25 cts.

MUSKMELON, Fordhook. Very early and extremely prolific. The flesh is very thick, of deep salmon color and surpassingly sweet and luscious to the rind. Remarkably uniform in size, weighing 1½ to 2 pounds each, and roughly netted. Pkt. 10 cts., oz. 30 cts., ¼ lb. 85 cts.

ONION, Ailsa Craig. Grows to a very large size, often weighing 3 pounds and over, of mild flavor. Valuable for exhibition purposes. Pkt. 15 cts., oz. 50 cts.

PEA, Early Prize. A new dwarf variety, very prolific and of superior quality. Pods produced in pairs are 3 to 3½ inches long, slightly pointed and well filled with six or seven delicious peas. Pkt. 10 cts., pt. 20 cts., qt. 35 cts., ¼ lb. 82 cts.

PEA, Sutton's King Edward. Wonderfully robust, bearing abundantly mostly in pairs, pods of the largest size, containing six, seven or eight beautiful peas of the finest marrow flavor. Pt. $1.50.

PEA, Sutton's Masterpiece. A superb main-crop Pea, with very large pods, measuring in many cases over 6 inches. Flavor excellent. Pt. $1.50.

PEA, Golden King. The introducer says of this Pea, "It is not only new, but a really good thing, for apart from its beautiful appearance, it belongs to the highest type of present-day wrinkled Peas. The plant is 4 feet high and perfectly even, healthy and vigorous of growth. The pods are of a uniform shiny deep golden yellow color, with the characteristic mark of a sharply-defined bright green line along the seam. They are fully as large as the Telephone Pea and contain eight to nine large wrinkled peas of that superior flavor belonging to the Telephone and Duke of Albany type." Pkt. 25 cts., 5 pkts. $1.

SPINACH, Triumph. A distinctively long season variety being very slow to run to seed. It forms a dense mass of deep green crumpled leaves, which retain their freshness a long time after cutting. Valuable as an all-season variety. Oz. 10 cts., ¼ lb. 25 cts., lb. 60 cts.

TOMATO, Comet. This is doubtless the best Tomato thus far introduced or foraging. It is not only very attractive but is of excellent shape, color and quality and of medium size. Pkt. 15 cts., oz. $1, ¼ lb. $3.
Flower Seed Novelties and Specialties for 1909

Descriptions by the Introducer. See pages 40 to 73 for Standard Sorts

234 ALYSSUM compactum, Little Dorrit. A perfect gem for beds or borders, forming a perfect little bush, with miniature white rocket flowers. Very sweet and great improvement over Little Gem. Pkt. 10 cts.

488 AQUILEGIA, Long-Spurred Rose Queen. One of the long-spurred hybrids, producing in great profusion long slender stalks of graceful long-spurred flowers of light to dark rose, with white center and yellow anthers. Most delicate and beautiful. Pkt. 25 cts.

675 ASTER, Branching, Crimson King. Extra-large, intensely double flowers of a rich rosy crimson. Pkt. 25 cts., oz. $6.

720 ASTER, Cactus, Rosy Carmine. Early flowered class of pyramidal habit, with from 20 to 25 extremely double flowers, with long florets slightly bent and twisted at tips. Pkt. 25 cts.

768 ASTER, Mammoth Mauve Queen. Very large and very double flowers of the Comet class, on long stalks and of a rich mauve color. Pkt. 25 cts., 3/4 oz. $1.

820 ASTER, Early Wonder, Pink. This is certainly the earliest Aster, and most profitable for market-growing. It is of comet form and a beautiful bright clear pink color, large and double. Pkt. 10 cts., oz. $3.

823 ASTER, Early Wonder, Pure White. Like preceding, except in color. Pkt. 10 cts., oz. $1.

827 ASTER, Hercules’ White. New branching class, 1 1/2 to 2 feet high, producing on strong stems enormously large, long-petaled flowers, 6 inches or more across, which resemble the finest show flowers of the Japanese chrysanthemums. Pkt. 25 cts.

855 ASTER, Invincible. Light crimson A fine color of this superior type. Pkt. 10 cts., oz. $3.

874 ASTER, Vick’s Mikado Pink. Of fine branching habit, with very large flowers of an exquisite shade of shell-pink, the petals are long, narrow and twisted, like the Comet. Pkt. 25 cts.

1001 ASTER Unicum, Pure White. Grand variety about 2 feet high, and of a branching habit. The flowers are very large, with long, narrowly channeled petals, gracefully curled and twisted. Pkt. 15 cts.

1084 ASTER Victoria, Carmen. Fine new variety with faultless very double flowers of a peculiar coloring, a dark salmony rose veiled with white. Pkt. 25 cts.
1157 ASTER, Amellus Roseus. A pretty perennial variety; 2 feet high; flowers 1½ inches across of a pleasing light pink color and freely produced. Pkt. 25 cts.

1450 CALANDRINIA chromantha. Free-flowering plants from South America, about 4 feet high and best compared to the Gypsophila, so numerous are the flower-stalks and the pretty pink flowers and buds which are followed by small orange-colored berries which remain on for a long time. Treated as an annual if planted early it will bloom in June. After blooming they can be cut back and a new growth and crop of flowers be had. Pkt. 25 cts.

1571 CAMPANULA longistyla. Very attractive hardy sort with lovely violet-blue drooping flowers; height about 3 feet, with numerous branches. Pkt. 25 cts.

1836 CELOSIA, Thompsonii magnifica nana. This new dwarf race only 1 foot high, with its beautiful feathery plumes, contains all the bright shining colors of the tall-growing sort. Pkt. 25 cts.

2033 CHRYSANTHEMUM inodorum, Bridal Robe. Featherly foliage and extra-double pure white flowers. Excellent for bedding and growing in pots. 10 inches high. Pkt. 10 cts.

2047 CHRYSANTHEMUM Segetum Gloria (Morning Star). Large single primrose, with golden yellow center; fine for cutting. Pkt. 10 cts.

2136 CLARKIA elegans fl. pl., Brilliant. Extremely double flowers of a very brilliant salmony scarlet, an effective color hitherto unknown in this race, distinct and valuable for cutting. Pkt. 25 cts.

2271 COREOPSIS, Tom Thumb Beauty. Annual sort. 6 to 8 inches high, covered with showy golden yellow flowers with crimson center. Pkt. 10 cts.

2496 DAHLIA, Colossal Mixed. Enormous single and semi-double flowers often 8 inches and over in diameter. The flowers have the appearance of single Chinese peonies. Pkt. 15 cts.

2512 DAHLIA, Double Giant Peony - Flowered Mixed. The flowers of this grand and distinct novelty are of enormous size, much resembling the bloom of a double tree Peony. Pkt. 25 cts.

2731 DIANTHUS laciniatus, Snowdrift. Beautifully fringed, very double flowers, 3 inches and over in diameter; purest snow-white. Pkt. 15 cts.

2732 DIANTHUS laciniatus Vesuvius. Double fringed flowers of an intense orange-scarlet, a new and distinct color. Pkt. 10 cts.

2745 DIANTHUS latifolius, Double Mixed. Annual Pink, like the Sweet William in habit, but the foliage is broader and the flowers double the size in rose, crimson, maroon, etc. Pkt. 10 cts.

2803 DIANTHUS, Giant Marguerite Carnation, Violet. Very large double, violet-colored flowers on long stems. Seed sown in March will bloom in August. Pkt. 25 cts.

2898 DIMORPHOTHECA Aurantiaca. Very beautiful and free-flowering annual from South Africa, of easy culture, forming bushy plants a foot high covered with flowers 3 inches across, of a rich glossy orange-yellow color with black center, very effective for pots and edgings, blooming continuously. Pkt. 25 cts.

3022 ESCHSCHOLTZIA, Burbank's Crimson. This variety is decidedly a new addition to the list, the intense brilliant crimson color is very striking. Pkt. 10 cts.

3191 GAILLARDIA grandiflora sanguinea. New perennial sort with large blood-red flowers tipped with golden yellow. Pkt. 25 cts.
3252 **GERBERA Jamesoni** (Barberton, or Transvaal Daisy). This beautiful Daisy from the Transvaal, produces flowers 3 inches across, of a brilliant orange-vermilion color, borne on long, straight stems, it will bloom almost the whole year if given the protection of conservatory or greenhouse during cold weather. The flowers when cut will keep fresh from one to two weeks. Pkt. 50 cts.

3438 **GYPSOPHILA venusta**. A fine hardy perennial 4 to 5 feet high, with rather large rosy white flowers with a red tinge at the base. Pkt. 15 cts.

3527 **HELIANTHUS, Golden Nigger**. Medium-sized flower, deep golden, black eye, dark stems and foliage, very striking. Pkt. 10 cts., oz. 40 cts.

4468 **MYOSOTIS, Ruth Fischer**. Recommended as the largest and finest flowered Forget-me-not, single flowers measure from 3/8 to 1/2 inch in diameter and of a lovely sky-blue, of great value for forcing, pot culture or spring bedding. Pkt. 25c.

5196 **POPPY, Admiral**. Single peony-flowered Poppy, Pure white, with a broad band of brilliant scarlet around the top. Pkt. 10 cts.

CELOSIA THOMPSONI MAGNIFICA NANA

POPPY ADMIRAL

MYOSOTIS RUTH FISCHER

IMAGES OF CELOSIA AND PETUNIA

DIMORPHOTHECA AURANTIACA (see page 3)
5785 PRIMULA Kewensis. From the Royal gardens at Kew. Flowers in whorls, bright yellow and sweet-scented flower-stems 10 to 12 inches high, foliage bright green. This is one of the finest greenhouse Primroses. Pkt. 75 cts.

6152 SAPONARIA Vaccaria. Beautiful pink hardy annual, very striking for cut bloom, tall and feathery; 2 feet. Pkt. 10 cts.

6153 SAPONARIA Vaccaria alba. New pure white form of above, a market flower. Pkt. 10 cts.

6261 SENECIO Clivorum. Fine hardy perennial from southern China, with large foliage and rich orange-yellow flowers, suitable for margins of ponds as well as herbaceous borders. Pkt. 25c.

6270 SHAMROCK, True Irish Variety. Pkt. 15 cts., 1/2 oz. 50 cts.

6382 STOCKS, German 10 Weeks, Special Snow White. A special strain of the finest quality, about 1 foot high, with several large flower-spikes of pure white and coming about 90 per cent double. Pkt. 15 cts., 1/2 oz. 75 cts.

6713 SWEET PEA, Phenomenal. White shaded and edged with lilac, very large, hooded form, delicate and wavy, the lower blossom on the stem is usually double. Pkt. 10 cts., oz. 25 cts.

NEW SPENCER SWEET PEA

In this type we have the perfection of this popular favorite, the flowers are of immense size on long stems, wavy, beautiful and seldom have less than four flowers to a stem, and have a longer season of bloom than any other.

6698 Mrs. Routzahn Spencer. A blending of soft rose, buff and primrose with a decided rose edge. Pkt. 25 seeds 25c.

6792 White Spencer. The acme of perfection in pure white. Pkt. 10 cts., oz. 50 cts.

TRIUMPH EXHIBITION SWEET PEAS, THE NEW GIANT ORCHID-FLOWERING

Unquestionably the finest type of this most popular flower that has ever been introduced, and is bound to supplant the older type as fast as the colors can be secured.

The long stemmed, wavy, fragrant flowers are of immense size, usually two inches or more across and four flowers to a stem. The season of bloom is much longer than the old type, but they are shy seeders, consequently the price will be higher. Pkt. 10 cts., oz. 25 cts., ¼ lb. 75 cts., lb. $2.50.

6837 SWEET WILLIAM, Double Rose. Large heads of handsome rose-colored flowers. Pkt. 20 cts.

7070 VISCARIA, Oculata Candida. This new variety is highly recommended, being very useful for cutting and lasting a long time in water, flowers pure white, 1½ inches in diameter, plant 15 to 18 inches high. Pkt. 25 cts.

NEW CLEMATIS, INA

This new Clematis is in bloom from the first to the last of August, a time when there is no other vine in flower that can compare with it in beauty. The flowers, two inches in diameter, are white shading to a delicate lavendar on the edges and tips of the petals, are produced in marvelous profusion. They are gracefully poised on long, strong branching stems with 25 to 30 deliciously fragrant beautiful flowers to each stem and two flower stems are produced at each joint, while the joints are only 4 or 5 inches apart. The vine is a strong grower, with handsome foliage and thickly covers whatever it is grown upon, it is especially pleasing running over the ground or climbing on trellises, walls and arbors. Awarded first-class certificate by Massachusetts Horticulture Society. Large plants 75 cts., small plants 50 cts.
**BELFAST**

The New Christmas-Flowering Chrysanthemum

Of the largest size and a light pink color shading to cream. Can be brought into bloom from Thanksgiving to Easter but is at its best about Christmas and New Year's. Easily grown and claimed to be for the commercial grower the most profitable variety ever introduced. It comes into bloom after every other variety is through, is a great keeper and can be held on the plants for four weeks after they are in a salable condition, and always brings the highest price. The originator follows his early sorts with this variety and has them for his Easter trade. Last spring he cut the last blooms April 11. 2½-inch pots 50c., $1 per doz.; rooted cuttings $2.50 per doz., $18 per 100.

**NEW CARNATION, BAY STATE**

Considered the finest variegated sort ever put on the market, the color is white with carmine markings and it is certainly a beautiful and noble flower. It has been exhibited at all the recent Carnation shows and has attracted great attention. Plants from 2½-inch pots $3 per doz.

Plants of above sorts, except Afterglow, from 3½-inch pots, $12 per doz., $12 per 100. Plants of Afterglow from 3½-inch pots, $2.50 per doz., $15 per 100

**CANNA, TARRYTOWN**

Without question the finest and most brilliant crimson dwarf Cannas ever offered, while it is not strictly a new sort, it could only be had in a limited way and is eagerly sought for by those who have once grown it. Pot-grown plants, $3 per doz.

**LAWN SEED, FRANKLIN PARK** *(See page 35)*

This mixture, made of heavy, recleaned seed only, weighing 32 lbs. to the bushel (1 lb. to the quart), gives excellent satisfaction wherever used. We think it not only the best, but the cheapest, reliable mixture obtainable. Lb. 30c., 4 lbs. $1, 16 lbs. $4, 32 lbs. $7.50. If by mail, add 8 cents per lb.
Schlegel & Fottler Co.'s

CHOICE VEGETABLE SEEDS

FREE DELIVERY We send to any part of the United States all Vegetable and Flower Seeds quoted in this Catalogue at packet, ounce, quarter-pound, half-pound and pound rates, free of expense to purchaser, by mail or express (at our option). All heavy seeds, including peas, beans, corn, clover seeds, seed grain, roots, etc., are quoted at net prices at our store. Purchasers desiring these by mail are requested to remit an additional amount sufficient to cover postage, at the rate of 2 cts. per lb. or 15 cts. per qt. Particular attention is invited to this, as, when omitted, the cost of postage will be deducted from the amount received.

We deliver free by mail in Canada all Vegetable or Flower Seeds ordered, at packet, ounce or quarter-pound rates. For seeds in larger quantities, customers should remit 16 cts. per lb. for postage.

The large express companies now take shipments of seeds to points where the merchandise rate is over 50 cts. per 100 pounds, at a discount of 20 per cent from regular rates, charges prepaid or guaranteed.

We endeavor to execute all orders carefully and promptly (usually the day they are received or the day following), and in the press of business, errors may occur, although we try to guard against them; in such cases we should be notified, when we will make prompt and satisfactory correction.

ARTICHOKE

Artichoke (Cynara scolymus)

The seed can be sown in April, in a good soil, in drills 10 to 12 inches apart, and about one inch deep. Protect the plants from freezing during the winter, and the following spring separate and transplant, setting them 3 feet apart in moist soil. Upon the approach of cold weather the stems and leaves should be cut away and the bed covered so as to prevent freezing. The plant is perennial, growing 3 to 4 feet high, with numerous branches. Artichokes can also be cultivated as annuals by sowing seeds in hotbed in February, and producing strong, vigorous plants, which should be transplanted into moist, rich soil in May. Just before the flower is ready to open, the head is in condition to cook.

JERUSALEM ARTICHOKE

Jerusalem Artichoke (Helianthus tuberosus)

A species of sunflower. A tuber that thrives well upon light, dry soil, and is cultivated for feeding to sheep and swine. The tops also being sometimes cut and cured as a dry fodder. The tubers are also used for pickles. Qt. 20 cts., pk. $1.

ASPARAGUS

Asparagus (Asparagus officinalis)

One ounce to 60 feet of drill

Asparagus roots may be purchased in the spring, or may be grown from seed sown in April or May, in good soil, in drills 12 to 14 inches apart. The permanent bed should be made very rich with well-rotted manure, and thoroughly worked over to a depth of nearly 2 feet. The Asparagus roots (either one or two years old) are to be transplanted into this bed, setting them in rows 3 or 4 feet apart, leaving about 18 inches between the plants in the row. Lay the roots flat in trenches, spreading them well, and using care to have all the crowns placed in the same direction, to keep the roots from running together. Cover lightly at first, gradually filling the trenches as the plants begin to start; the crowns of the roots should be about 6 inches below the level of the bed. Avoid location near trees, particularly large trees, or their roots will soon take possession of the ground. All difference in varieties of Asparagus is probably the result of care in selection and natural adaptation of soils.

Pkt. Oz. 1/4 lb.

Columbian Mammoth White. Pure white stalks. Large. $0.05 $0.10 $0.20 $0.30

Conover's Colossal. Large and prolific. 0.05 0.10 0.20

Early Giant Argenteuil. An early large variety from France. 0.05 0.10 0.20

Moore's Giant Purple-top. Uniform and large. 0.05 0.10 0.25

Palmetto. Earlier than other sorts and less subject to blight. 0.05 0.10 0.25

ASPARAGUS ROOTS

Conover's Colossal and Palmetto. Strong 2-year-old plants. Each, $1 per 100, $7 per 1,000; if by mail, add 40 cts. per 100. Special quotations will be given for roots in large quantities.
BEANS

ENGLISH (Grosse Englische Bohnen)

If by mail, add 15 cts. per quart to cover postage

English Broad Beans are very hardy and should be planted in the spring as early as the ground will permit. Plant sparingly, in rows 2 feet apart, in good soil, and cultivate only in fair weather, and when the foliage is dry. As the pods get formed top the plants, thus avoiding too much running to vine.

DWARF, or BUSH

(Bush Bohnen)

One quart will plant 100 feet of drill; ½ bushel will plant one acre

If by mail, add 15 cts. per quart to cover postage. We furnish 10 cent packets of all Beans, except where noted.

Plant in rows 2 or 3 feet apart, dropping the beans 3 inches apart and covering 2 inches. They thrive upon light soils, which should be carefully prepared and manured lightly. Being tender, they should not be planted until frosts are past, as warm soil is needed for their germination. For succession, make plantings every two weeks until September.

GREEN-PODDED VARIETIES

Blue-podded Butter. One of the best Snap Beans—entirely stringless and prolific ........................................ $0 20 $0 30 $1 75

Bountiful. Extra-early; very prolific; flat green pods, tender and stringless ..................................................... 15 30 1 50

**BEANS, POLE or RUNNING**  
(Stangen Bohnen)

If by mail, add 15 cts. per quart to cover postage

The planting of the various sorts of Pole Beans should be delayed a week or more after the first planting of the early dwarf sorts. The Limas and Sievas, being very tender, will do better if not planted in the open ground before the last of May. Plant in hills about 3 feet apart and 1 to 2 inches deep, using five or six seeds to each hill, and set a pole firmly in the center. Manure liberally in the hill with well-composted fertilizer. Thin the plants, leaving three in each hill. Many cultivators consider it best, in planting Limas and other flat Beans, to place the eye down, claiming that in this way that they will germinate more quickly.

**BEETS (Rothe Hübe)**

A rather light soil, well enriched, is best suited to the cultivation of the various Beets. The mangels and sugar-beets in particular require very liberal manuring. For an early crop of table Beets, sow the seed as early as the ground is in condition to work; light frosts will not injure the young plants. For a main crop, sow the first of May; and for winter Beets, during the first two weeks in June. Sow in drills, 12 to 15 inches apart, and about one inch deep, pressing the earth firmly upon the seed,—a very important matter. Use about six pounds of seed per acre. Thin out when the plants are large enough. The varieties for table use should be left 4 or 5 inches apart, while the mangels and sugar-beets should stand 10 to 12 inches apart in the row.

**Arlington Favorite.** A variety closely resembling the Dewing's as originally introduced; of medium size and dark rich color, of excellent quality.

**Bastian's Early.** Very early; of quick growth; fine turnip form, and bright red color. Excellent quality.

**Crimson Globe.** A second-early variety, somewhat oblong in shape, with smooth skin and very dark flesh. Good quality.

**Crosby's Egyptian.** This variety is as early as the original Egyptian, but by careful selection has been made thicker and of better quality. For early use, either for market or for family gardens, this variety easily takes the lead. It is very popular among market-gardeners.

**Detroit Dark Red Turnip.** An excellent Beet for bunching for market; tops exceptionally small and upright; roots turnip-shaped with small tap-root. Color of skin dark blood-red; flesh bright red. Quality is of the best; sweet and tender. One of the best varieties for the market-gardener and the home garden.

**Dewing's Early.** Of deep red color, smooth and of fine form. One of the leading varieties both for market and for family use.

**Early Eclipse.** Very early; dark red color; small top, and free from fibrous roots; will grow without thinning the plants.

**Edmand's Turnip Blood.** Seed grown from originator's choice stock. This variety is thoroughly fixed and uniform in type. The flesh is deep blood-red in color, and exceedingly sweet and tender. It is round, smooth, of good market size, and does not grow large.:

**Long Smooth Blood.** A prolific variety; very dark in color; stands drought better than the turnip varieties.

**Swiss Chard, or Silver Sea Kale Beet.** The leaves are used as greens in the same manner as spinach and the stems and midribs are often cooked and served as asparagus. Plants should be thinned to about one foot apart in the row. They continue growing until frost, furnishing a supply of the most delicious greens the entire season.
BEETS GROWN FOR FEEDING STOCK

Sow in April or May, using 8 to 12 pounds to the acre

BORAGOE

Plant early in light soil, and when plants are well started transplant in drills one foot apart. Sowing should be made at intervals, as the leaves are good only when young. Used as a salad or may be boiled like spinach. Pkt. 5 cts., oz. 20 cts., 1/4 lb. 60 cts.

BROCCOLI (Spinage Kohl)

This plant is very closely allied to the cauliflower, the variation being very slight. It is generally considered rather more hardy, however. In growing Broccoli, a seed-bed should be prepared, and the seed sown in May. The plants will be ready to transplant late in June, or early in July, and should be set in very rich, mellow ground, in rows about 2½ feet apart, leaving 18 inches between the plants. In cool, moist fall weather it thrives well.

BRUSSELS SPROUTS (Spinat Kohl)

A species of the cabbage family, which produces miniature heads from the sides of this stalk. These heads are a great delicacy, boiled in the same way as cauliflower. The seeds should be sown about the middle of May, in a seed-bed, and the plants afterward set in rows 2 feet or more apart, and cultivated like cabbage. This vegetable does not require extremely high cultivation, however. It is ready for use late in autumn, after the early frosts.

</tr>
</tbody>
</table>

Witloof, or French Endive. Plant in May or June in drills. Thin to 6 inches apart. Early in the fall the roots should be removed, the tops cut off to within an inch and a half of the neck, the roots made of uniform length of 8 to 10 inches. They should then be planted in trenches somewhat below the level of the ground. The trenches should be filled with light soil or, if a quick growth is desired, should be covered with horse manure several inches deep. In about four weeks the leaves will be ready for use.
CABBAGE (Kopfnuss)

One ounce of seed produces about 3,000 plants

Early varieties are grown from seed sown in hotbeds in February or March, only moderate bottom-heat being required. Transplant into other frames, without much, if any, bottom-heat, as soon as the plants show the fourth leaf. In April, or as soon as the ground can be easily worked, set out in rows 3 feet apart, and about 18 inches between the plants. The ground should be thoroughly stirred with cultivator and hoed every week till the plants cover the ground. For a fall crop, sow in the open ground in May, in hills the proper distance apart, using a liberal quantity of manure in the hill, besides that which is plowed in; thin out to one good plant in each hill. In the same way crops may be grown to lay in for the winter use, planting seed as late as July 1. Seeds can also be sown in shallow drills, and, when the plants are large enough, can be transplanted, setting the plants in rows 3 feet apart and 2 feet apart in the row. If the young plants are troubled with the Cabbage fly, sprinkle them with tobacco dust, air-sinked lime, slugs hot, or wood ashes, while the dew is on them. To keep off the Cabbage worm, sprinkle with Dalmatian insect powder or slugshot.

</table>

For extra early and hard-heading varieties, the seed should be sown in February, at least 4 weeks before the last killing frost, and the seedlings set out in a nursery bed and hardened off for 2 weeks in the open ground, before transplanting them to their permanent place. For a hardy sort, the seed should be sown in May 8 or May 23. The young plants may be set about the middle of June 23, in rows 3 feet apart and 2 feet apart in the row. They should be planted at least 2 inches deep. In four weeks the heads will be big enough to be pulled for use; the earlier the season the earlier the heads will be ready. The heads may be kept for a long time in good condition in a cool place, if they are well wrapped in newspapers and placed in a paper bag in the cold chamber.
CABBAGE, continued

- **Premium Flat Dutch.** A standard variety of drumhead; much used in the South and West. $0.05 10 0 Oz. 0.5 lb.
- **Red Drumhead (Buxton).** For solidity, deep red color, certainty of heading, and dwarf habit of growth, this has no equal. 05 25 75 oz.
- **Savoy, Drumhead Curled.** Rather larger, and not so finely curled as Globe Curled Savoy. 05 25 75 oz.
- **Savoy, English Curled.** Used only to sow early in the spring for greens, and generally considered a profitable crop for market. 05 10 25 lb.
- **Savoy, Globe Curled.** A variety with finely curled leaves, and of more delicate flavor than any of the other varieties; used for a fall crop or for winter. 05 30 100 oz.
- **Succession.** A second-early sort, with large solid heads. Valuable also for a late crop. 05 25 75 oz.
- **Winnigstadt.** An improvement on the old strain of Stone-Mason; a strictly reliable variety, rounder in shape and very solid. 05 30 100 oz.
- **Volga.** A new variety from Russia. Remarkable for uniformity and solidity; weighing from 10 to 15 pounds each. Very quick grower, maturing fully two weeks earlier than our late-growing sorts. The heads are perfectly solid, and the flesh exceedingly firm, tender and white. 10 30 100 lb.

CARROT

*One ounce will sow 100 feet of drill. Three pounds will sow an acre*

A rather light, sandy loam, deeply tilled, is the best, and upon such soil, if it has been liberally fertilized the previous year, a good crop may be grown without much, if any, additional manure. Make the surface smooth, and sow in drills about 14 inches apart, and about half an inch deep. Thinning the plants, when large enough, so as to stand about 3 or 4 inches apart. April or May is the proper time to sow, varying the time accordingly as an early or late crop is wanted. Good crops have been grown from sowings as late as the tenth of June. Early weeding is very important.

- **Chantenay Half-Long Stump-rooted.** Similar to Nantes, with broader shoulder. 05 10 30 1 oz.
- **Danvers Half-Long.** The best variety for general crop; is of rich color, and a good keeper; yields largely, and is easily harvested. 05 10 30 1 oz.
- **Early Scarlet Forcing.** A small round variety, used only for early forcing. 05 10 30 1 oz.
- **Early Scarlet Horn.** A medium-sized root, half-long, of fine color, and much used for cooking; grown for early use, and to sell in bunches; bears close planting. 05 10 30 1 oz.
- **Guernande, or Oxheart.** More oval in form than Early Scarlet Horn, and larger. Fine grain; deep orange color; excellent sort. 05 10 30 1 oz.
- **Half-Long Stump-rooted Luc.** Useful main-crop variety of fine color and resembling the Danvers. 05 1 oz.
- **Half-Long Scarlet Nantes.** A stump-rooted variety, of fine color. 05 10 30 1 oz.
- **Large White Belgium.** This variety grows about one third out of the ground; roots white, green above ground, grown extensively for feeding stock. 05 10 25 0.
- **Long Orange.** A large, long-rooted variety, much used for main crop; yields large crops. 05 10 30 1 oz.

CHIVES

Chives are used for salads and for soups. Being milder than onions, they are preferred by many. They thrive in any good soil and can be produced by division of the clumps or from seed.

- Plants (clumps), each 13cts. (by mail 25 cts.); doz. $1.25. Seed: $0.15 $0.75 $2.50

CRESS

*Used for salads and for garnishings*

- **Curled, or Pepper Grass.** The sort most generally grown. Seeds should be sown in April in rows a foot apart. Successive sowings should be made every two weeks, as it runs quickly to seed. $0.05 $0.10 $0.25
- **Water.** A hardly perennial aquatic plant, growing in water along the margins of streams. It is easily introduced by setting roots, or by sowing seeds about midsummer, in beds prepared at the edge of slow-running water. 10 40 1 25 lb.
CAULIFLOWER

One ounce of seed produces about 3,000 plants

Cauliflowers require very high cultivation, even more so than cabbage, and plenty of moisture. There is no more delicious vegetable grown. Coldframe plants are probably the best and hardest for early crops; the frames, however, need rather more protection during cold nights than is required for cabbage plants. Seed sown in hotbeds in February will produce plants that are not inferior to coldframe plants. They should be transplanted once before setting in the open ground, and also should be gradually hardened by exposure; in this way they may be in condition to set out as early in April as the ground will permit. Set the early sorts about 2 feet by 15 inches, and cultivate the same as cabbage. Where irrigation is practicable, great advantage is thus obtained during a drought. For late Cauliflowers, sow seed in open ground, from the middle of May to the middle of June, in hills the same as directed for late cabbages. When the heads are forming, tie the leaves together at the top, thus avoiding the discoloration by exposure to the sun.

Danish Giant. An excellent dry-weather variety. Head solid, pure white and very large. Pkt. 20 ets., oz. $3.

Fottler's Champion Erfurt. We have sold this strain of Cauliflower for many years, and it has invariably proved satisfactory. The heads are uniformly large, compact, white and well formed. We know of no variety that is its superior, and our largely increased sales from year to year are evidence that it is found to be reliable by our customers, many of whom use it in large quantities. Pkt. 25 ets., oz. $3.

Fottler's Early Snowball. A superior strain of this well-known sort. Excellent for forcing under glass or for field culture. A sure-header. Pkt. 20 oz. $0.20 $0.30

S. & F. Co.'s Earliest. An excellent, reliable, very early, short-leaved variety for forcing. Pkt. 25 oz. $0.30

Lenormand's Short-Stemmed. A large late variety. Should be planted early. Pkt. 10 oz. $1.00

Veitch's Autumn Giant. A large late sort of vigorous growth. Pkt. 10 oz. $1.50

Cauliflower Plants. Ready in June. Doz. 25 ets., 100 $1.50.

CELERY

One ounce will produce about 4,000 plants

The proper time to sow is early in April, transplanting about the first of June. Set in rows 3 feet apart, and about 12 inches between plants in the row. Some gardeners trim off the tops a little, while the plants are small, to make them more stocky. Keep down all weeds, and, as fall approaches, draw earth up to the plants, keeping the stalks well together. This earthing-up is continued at intervals, until only the leaves appear above the soil. When well blanched, it is usually placed in frames and covered with earth and litter, or stored in cool cellars. Comparatively few soils are suited to Celery culture. Rich, mellow soils of a sandy nature are best, while soils that settle and become hard after rain are unsuitable. The seed, being very small, should be covered very lightly, and the earth firmly pressed down upon it.

Boston Market. The dwarf, branching variety grown so extensively about Boston. It is unequalled by any other sort, being solid, crisp and of excellent flavor; its compact, dwarf habit allows closer planting and requires less earthing-up than taller sorts. Pkt. 15 oz., oz. 60 oz., 1/4 lb. $2.
CELEY, continued

**Fin de Siecle.** A large, solid, crisp winter variety. Keeps well. ........................@$ 0 10 $0 30 $0 60

**Giant Pascal.** Of a fine, nutty flavor, entirely free from any bitter taste. It grows about 2 feet high; the stalks are very broad, thick and crisp. It blanches with but slight earthing-up and very quickly. A valuable variety, for both second-early and midwinter use .................. 05 25 60

**Henderson’s White Plume.** The stalks and portion of inner leaves and hearts are naturally white; needs very little earthing-up; crisp and of pleasing nutty flavor, while its white feather-like foliage is very ornamental ........... 05 25 60

**Paris Golden Yellow** (Self-blanching). This Celery has become a standard variety. Its fine dwarf form, rapid growth, extreme earliness, superior flavor and keeping qualities, rich golden color and slight trouble in blanching, all recommend it. It has shown no signs of blight or rust where all others were more or less affected .............. 10 50 1 50

**Pink Plume.** Similar to White Plume, except that the stalks are delicately marked with pink. It also has the rich, nutty flavor of the red Celeries ........................................ 05 25 60

**Rose-ribbed Golden Self-blanching.** A sport from the Paris Golden Yellow. Very solid, with rose-tinted ribs. 10 35 1 00

Besides the above varieties, we offer the following at a uniform price of

**New Rose, Winter Queen, Evans’ Triumph, Golden Heart**

Celery Plants. Ready in June and July. Paris Golden Yellow, Giant Pascal, Boston Market. 100, 75 cts.; 1,000, $6.

**CELERIAC** (Knoll Sellerie)

**TURNIP-ROOTED CELERY**

A variety of Celery with roots of turnip shape. It is grown in the same manner as ordinary Celery, but may be set closer—about 18 inches by 6 inches. But little earthing-up is required. Can be kept in winter in the same way as other celery. It is eaten as a salad, the roots being boiled and sliced and used with vinegar.

**Erfurt Giant.** The best sort. Pkt. 5 cts., oz. 20 cts., 3/4lb. 60 cts.

**CORN, Sweet or Sugar**

(3under Maië)

One quart will plant about 200 hills. Ten quarts to the acre

Plant in any good soil, in hills 3 or 4 feet apart each way, covering early plantings one inch, and later plantings 1½ to 2 inches. For early use, plant about the middle of May, and follow with successive plantings till July. Use manure plowed in, or in the hill, or both.

If by mail, add 15 cts. per quart for postage

For Indian, or Flint Corn, see page 33
MEDIUM EARLY CORN

Early Crosby. We offer the true Josiah Crosby stock only. Very dwarf, with ears set very low; ears twelve-to-sixteen-rowed, of good size, with white kernels. Sweeter and of excellent flavor. This has been for years the standard sort for the Boston market. Pkt. 10 cts., qt. 30 cts., pk. $1.75.

Fottler's Early. As early as Crosby, but grows taller and has larger ears. Twelve-rowed; very productive, sweet and tender. Pkt. 10 cts., qt. 30 cts., pk. $1.75.

Moore's Concord. Rather taller, and with larger ears than Early Crosby, also a little later; a good sort for general use; twelve-rowed. Pkt. 10 cts., qt. 25 cts., pk. $1.50.

Potter's Excelsior (Quantum). Medium late; grows to good height, and yields numerous ears; sweetest Corn in list; twelve-rowed ears of moderate size; requires liberal seeding, as it is delicate as to germinating. Pkt. 10 cts., qt. 25 cts., pk. $1.50.

Washington. A medium-early variety; ears large, with sixteen to eighteen irregular rows; kernels deep, rich and tender. Pkt. 10 cts., qt. 30 cts., pk. $1.75.

GENERAL CROP

Black Mexican. Ears of a bluish black color when dry, but when in a green state the color is not so prominent; an extremely sweet variety; ears eight-rowed. Pkt. 10 cts., qt. 25 cts., pk. $1.50.

Country Gentleman. Cob small; kernels deep, sweet and delicate. Medium-early and productive, averaging three ears to the stalk. Pkt. 10 cts., qt. 30 cts., pk. $1.75.

Mammoth Sweet. A late variety, with ears of the largest size; twelve- to sixteen-rowed, and of fine flavor. Pkt. 10 cts., qt. 30 cts., pk. $1.75.

Stowell's Evergreen. One of the latest and tallest-growing sorts; large ears, twelve- to sixteen-rowed, with very deep kernels; sweet, and remains long in a green state. The stalks are valuable for fodder, as they are rich in sugar. Pkt. 10 cts., qt. 25 cts., pk. $1.50.

Sweet Corn for Fodder. Stowell's Evergreen, specially for fodder. Pk. 75 cts.

CORN SALAD, or FETTICUS

(Salivia latifolia)

One ounce will sow 100 feet of drill

Grown for use as salad. Sow very early in the spring, in rows a foot or more apart. In six or eight weeks it is ready for use. Large-seeded, pkt. 5 cts., oz. 10 cts., ¼ lb. 30 cts.

CUCUMBER

To obtain early Cucumbers, and at the same time avoid most of the annoyance of the striped bug, it is a good plan to plant the seeds about the first of May in frames, without much bottom heat. Small sods turned over may be placed close together in the frames, and upon these the seeds may be planted; or small pots may be plunged into the soil in the frames, and a few seeds placed in each. In three or four weeks these may be transplanted into open ground. Set, without disturbing the plants, each piece of sod into hills made 3 or 4 feet apart each way. When the plants have become well started, thin out, leaving four of the strongest in each hill. Pick all Cucumbers when large enough for use, whether needed or not, for if left on the vine to ripen they will cease to be productive. The seeds may be planted in the hills late in May, making the crop somewhat later. Use dry plaster or an infusion of powdered white hellebore in water, to destroy the striped bug. For pickles, plant during the last two weeks in June.

Arlington Extra White-spined. A strain of white-spined which has been improved through many years of careful selection, with a view to use for forcing in hothouses and frames. Our stock produces very handsome dark-colored Cucumbers, which excel in crispness and flavor ... $0 10 $0 40 $1 25

Boston Pickling. Yields large crops, and makes the best short, straight, dark green pickles ... 05 15 50

Cool and Crisp. Early and prolific, continuing to produce during the entire season. Quality excellent, and especially valuable for pickles ... 05 15 50

Cumberland. A prolific sort, specially valuable for pickles. Unlike other sorts, it is thickly covered with fine spines, except on the stem end ... 05 15 50

**ENGLISH FRAME VARIETIES**

The following varieties are best for forcing for private use. They attain a length of from 15 to 30 inches, and are very tender and delicate. **Rollison's Telegraph, Carter's Model, Tender and True, Rochford's Market.** Packets containing ten seeds, each, 25 cts.

**DANDELION (Löwenzahn)**

One ounce will sow 200 feet of drill. Two pounds will sow an acre

Extensively used as early spring greens, and considered very healthful. Sow seed in May or June, in any good soil, in drills 15 inches apart, upon beds made smooth with the rake. Cover very lightly, and press the earth firmly upon the seed. Cultivate during the summer to keep down the weeds. Cover with litter upon the approach of severe weather, and remove the covering early in spring.

**Thick-leaved French.** The best variety. Pkt. 10 cts., oz. 50 cts., 1/4lb. $1.75.

**ENDIVE, or CHICORY (Enbivien)**

One ounce will sow 150 feet of drill

For early use, sow in April or May; but, as it is mostly used quite late in autumn, it will be in time if not sown before June or July.

Any good soil will suit Endive, and it does not require much manure. When large enough, transplant into rows 15 inches apart, setting the plants 8 or 10 inches apart. As it is not much used, except as a salad, it needs to be thoroughly blanched. When of full size, tie all the leaves into a bunch at the extreme top; in a few weeks it will be ready for use. It can be blanched more quickly and thoroughly by placing boards so as to exclude the light from it.

**Green Curled.** One of the best varieties; nicely curled.

**Moss Curled.** More finely curled, and a heavier and more dense plant than Green Curled.

**Broad-leaved Batavian (Escarole).** A looser-growing sort, sometimes used in soup; not as desirable for blanching as the other varieties.

Mr. A. P. Meredith, gardener to Nathaniel Thayer, Esq., writes us under date of September 19, 1907 as follows: "The bulk of your seeds took first premium again at Worcester East Fair, September 11, 12 and 13."
EGGPLANT (Solanum)

One ounce will produce about 1,000 plants

Eggplants require a light, warm soil, and, being very delicate and tender, must not be set out too early. They require a high temperature at all times. Sow in a hotbed about the first of April, with a good steady bottom-heat, and delay planting out until such time in June as is necessary to avoid a temperature much below 70°. Set 2 to 3 feet apart each way, according to the nature of the soil, more room being needed if the soil is very fertile; a delicious vegetable when properly cooked.

Black Pekin. A globe-shaped variety, of superior excellence; deep glossy black fruit; solid and quite early. Pkt. 10 cts., oz. 40 cts., ¼ lb. $1.25.

Early Long Purple. An early variety, of longer shape than any other; color deep purple; some lighter, with occasional stripes of yellowish white. Pkt. 10 cts., oz. 25 cts., ¼ lb. 75 cts.

New York Improved Oval Purple. The best sort for general culture, and the leading market variety; fruit large, oval or heart-shaped. Pkt. 10 cts., oz. 40 cts., ¼ lb. $1.25.

KALE, or BORECOLE (Brassica oleracea)

One ounce will sow about 200 feet of drill

For fall use sow early in May, in a prepared bed, and transplant in June, setting the plants and cultivating in the same manner as for cabbage. A strong soil, well manured, is required. There are many varieties and all are good—more delicate than cabbage, when boiled, the quality being improved after a light frost. They should receive more general attention.

Dwarf Green-curved Scotch. Very dwarf, with numerous leaves which are long, deep green in color and very much curled. An excellent variety for spring sowing. Pkt. 5 cts., oz. 10 cts., lb. $1.

Dwarf Purple-curved, or Brown-curved. Similar to the green-curved, except in color. Pkt. 5 cts., oz. 10 cts., lb. $1.

Emerald Isle. A beautifully curled variety; of rich emerald-green. The most attractive variety grown. Pkt. 5 cts., oz. 10 cts., lb. $1.

Large-seeded Spring. This variety is cultivated only for early greens, therefore should be sown as early as possible, in rows about 15 inches apart, in good rich soil. Pkt. 5 cts., oz. 10 cts., lb. 30 cts.

Winter, or German Greens (Sprouts). Should be sown in August or early in September, in rows a foot apart, and treated the same as spinach. It makes excellent spring greens. We offer a very choice strain of this variety. Pkt. 5 cts., oz. 15 cts., lb. 80 cts.

KOHLRABI (Brassica oleracea)

One ounce will sow about 200 feet of drill

Sow in May or June, in rows about 18 inches apart, and thin out the plants to about 12 inches apart in the row. Ordinary soil, with a moderate fertilizing, is all that is required for growing Kohlrabi. Use the hoe frequently to keep down weeds. This vegetable appears to be intermediate between turnip and cabbage, and has to a certain extent the flavor of both. The bulb that forms upon the stem just above the ground is fit to use when about half grown; when mature it becomes hard and fibrous. It is boiled and served like turnips. An excellent vegetable and should be grown in every garden.

Early White Vienna. The variety most in demand; greenish white outside, with clear white flesh. Pkt. 5 cts., oz. 25 cts., ¼ lb. 60 cts.

Early Purple Vienna. Does not vary from the Early White, except in color. Pkt. 5 cts., oz. 25 cts., ¼ lb. 60 cts.

We deliver free to any part of the United States all Flower and Vegetable Seeds quoted in this Catalogue at pkt., oz., ¼ lb., ½ lb., and lb. rates.
LEEK (Lactuca)

One ounce will sow about 100 feet of drill

Leeks require a very rich, mellow soil, and a liberal dressing of well-composted manure. Sow the seed in April in rows a foot apart, and transplant in July. Land that has borne an early crop of peas, cabbages, etc., may thus be made use of for a second crop; but additional manure should be applied before setting out the Leeks. They should be set quite deep, and in rows 15 inches apart, with 6 inches between the plants. Later in the season, draw earth up around the plants to blanch them.

**Giant Carentan.** An extra large variety. Pkt. 5 cts., oz. 20 cts., 1/4 lb. 75 cts.

**Large Rouen.** Leaves dark green, broad and thick; remains a long time in good condition; it is also best for forcing. Pkt. 5 cts., oz. 20 cts., 1/4 lb. 75 cts.

**Long Winter.** A large sort; grows quite long; best for general use. Pkt. 5 cts., oz. 15 cts., 1/4 lb. 50 cts.

---

LETTUCE (Lattich Salat)

One ounce will produce about 4,000 plants

Lettuce is a plant of most simple culture when grown in the open air. It requires rich soil, plenty of well-rotted manure, and abundant moisture. With these conditions its growth is vigorous and rapid, and, to be crisp and tender, it should be grown quickly. Seed may be sown in a frame in February and March, not much bottom heat being required. The plants may be set out as early as the ground can be worked, as light frosts will not injure them. Set in rows about 18 inches apart, having 8 or 10 inches space between plants. For successive crops, sow every two weeks up to August.

---

**WATERMELON** *(Wassermelonen)*

One ounce will plant about 20 hills. Four pounds will plant an acre.

Melons of all sorts should be planted on rather a light, sandy loam, a gentle slope toward the South being desirable. Make hills about 8 feet apart each way, and put in each a good shovelful of well-composted manure; press it down and cover with earth. Upon each hill plant six or eight seeds about half an inch deep. The middle of May is early enough for planting in open ground; but the crop may be forwarded by planting in frames, as directed for cucumbers. Three plants should be left to grow in each hill. Destroy bugs and cultivate in same manner as for cucumbers.

RED OR SALMON-FLESHED MUSKMELONS

Early Christiana. One of the best first early sorts, very short and deeply ribbed; flesh salmon color; splye and delicious. Pkt. 5 cts., oz. 25 cts., 1/4 lb. 75 cts.

Fordhook. (Burpee,) Small; very early, of vigorous growth and surpassingly sweet. Pkt. 10 cts., oz. 30 cts., 1/4 lb. 85 cts.

Miller's Cream. (Improved Orange.) Medium-sized. oval, slightly ribbed, dark green, somewhat netted; flesh salmon color, very thick and sweet. Pkt. 5 cts., oz. 15 cts., 1/4 lb. 40 cts.

Petoskey, or Paul Rose. Nearly oval, slightly ribbed, netted; flesh thick and orange color. Pkt. 5 cts., oz. 15 cts., 1/4 lb. 40 cts.

Surprise. Early, oblong, with rich orange flesh, of good quality. Pkt. 5 cts., oz. 15 cts. 1/4 lb. 40 cts.

ENGLISH FRAME MELONS. IMPORTED VARIETIES

Blenheim Orange, Sutton’s Invincible, A-1, Invicta and Triumph. Scarlet flesh.................. $0.25
Sutton’s Superb, Perfection, Best of All, Royal Favorite and Royal Sovereign. Green flesh........ $0.25

MARTYNYA (Gemsenbärtner)

Proboscidea. The seed-pods, when young and tender, make very acceptable pickles. Plant in May Pkt. Oz. 1/4 lb. or June, in hills about a foot apart .................. $0.05 $0.40 $1.25

MUSTARD (Senf)

One ounce will sow 40 feet of drill

Cultivated to use as greens; often used mixed with cress. Sow in any ordinary soil in rows a foot apart, using plenty of seed. Successive sowings may be made from April to July; or, at any time during cold weather, it can be easily grown in frames.

Chinese. Leaves nearly twice as large as the White. Flavor sweet and pungent. Best for salads.................. $0.10 $1.00

White, or Yellow. Used largely for salads. The seed is also much in use to mix with pickles, in preserving cider, etc. .................. $0.05 $0.25

MUSHROOM (Champignon-Brut)

One pound English spawn will spawn about 6 square feet. One brick of pure culture will spawn 10 square feet

If ordered by mail, add 8 cents per pound or 10 cents per brick for postage

Mushrooms may be grown in a great variety of situations,—a dark room, cellar, stable or elsewhere. Any place in which an even temperature of about 50° or 60° can be kept, is suitable. For materials for the bed, use fresh horse-manure, free from straw or chips, and good loamy soil. Some growers use the manure unmixed with loam, after having well fermented it by alternately piling up and mixing for a few weeks; but it is undoubtedly better not to allow the manure to heat much before forming the bed. Use one-fourth to one-third loam; the rest manure. Mix very thoroughly and upon a dry, firm bottom make the bed of this mixture, about four feet wide, and of any desired length. Build it up evenly, pressing it down very firmly, and leave it about a foot high. It will shortly begin to heat. Use a thermometer to thrust into the bed, and note the temperature. When the heat has partially subsided, leaving a temperature of 70° to 80°, put in the spawn. Pieces from the size of walnuts to that of eggs are placed in the bed about a foot apart, deep enough to cover them well, and the manure is pressed down. Let it remain thus ten or twelve days; then cover with two inches of fresh loam, and make this moderately firm. The bed is finished by covering all with 4 or 5 inches of straw or other litter. Watering is not necessary, unless the surface of the bed gets very dry; in this event, moisten freely with water at a temperature of about 80°. In gathering the crop do not cut, but twist them off carefully, filling up the holes with loam to keep insects from the roots. In six or eight weeks from spawning the beds, Mushrooms should appear.
To those wishing to more thoroughly investigate the subject of mushroom growing, we can recommend “How to Grow Mushrooms,” by Falconer. $1 postpaid; and “Mushroom Culture” by Robinson. 50 cts. postpaid.

**English Spawn.** (Bricks). Lb. 15 cts., 8 lbs. $1, 25 lbs. $2.50, 100 lbs. $9.

**French Virgin Spawn.** Raised from the spores of a superior strain of mushrooms. (Tablets) each 15 cts., doz. $1.50.

**Lambert’s Pure Culture Spawn.** Produced under the new, selective method, is received absolutely fresh at frequent intervals from the manufacturer. This spawn will produce mushrooms of a specific variety, selected with special reference to their size, color and prolificness, to the exclusion of other and inferior fungi. It absolutely eliminates all danger of raising poisonous mushrooms. We keep on hand the cream white, brown and pure white varieties. Each brick weighs from 1 ¼ to 1 ½ lbs., and will spawn ten square feet of beds. Bricks are of two kinds, Standard and Direct. Standard bricks are inoculated from a pure culture transfer; Direct bricks are inoculated directly from the original laboratory culture. They are positively the most vigorous spawn in the market. Sold by the brick. Per Standard brick 25 cts., postpaid 35 cts.; 5 bricks by express $1.10 bricks $2, 25 bricks $4.25, 50 bricks $8, 100 bricks $15. For Direct bricks add 3 cts. per brick to the above prices.

Illustrated book on Mushroom Culture and Pure Culture Spawn, containing the latest methods of raising, preserving and cooking mushrooms, 15 cts. per copy postpaid, or free with each order of 50 bricks or more.

**ONION** (Zwiebeln)

An ounce will sow 100 feet of drill. Four to five pounds to the acre

Select a clean, rich piece of land, where Onions were grown the previous year, if possible. Scatter broadcast a heavy dressing of well-rotted manure, and plough 6 or 7 inches deep as early in the spring as the ground can be worked; harrow and rake down to a fine even surface. Sow about four pounds of seed per acre, in drills a foot apart, and a quarter of an inch deep. If a seed-drill is used, it should be provided with a good roller to press the earth firmly upon the seed, particularly if the soil is very dry. Sow as early as possible. A few days’ delay often makes a marked difference in the crop. Unless the plants stand very thick together, they need not be thinned out much, if any, as Onions will crowd each other, and find room to grow. Never allow the weeds to get ahead of the young plants. The weeds must receive early attention. Use a seede or wheel-hoe between the rows and pull out the weeds not reached by the hoe. When the tops are all down, and the Onions well formed, they may be pulled, and left on the ground for a fortnight or longer to dry (unless the weather be unfavorable), turning them occasionally with a wooden rake.

ONIONS, continued

Southport White Globe. Quality similar to the White Portugal, but of globe shape, and rather Pkt. Oz. $\frac{1}{2}$lb. larger, also later ........................................ $\frac{1}{2}$ 10 8 0 3 0 4 0

Southport Yellow Globe. A fine large variety somewhat later than the Danvers .................. 0 5 2 5 7 5

White Portugal, or Silver Skin. Very early; rather flat in shape; mild-flavored; does not keep as well as the yellow and red varieties ................................................................. 0 5 2 5 7 5

Yellow Cracker. The quality of this Onion recommends it especially for family gardens. While it yields somewhat less than the globe varieties it is far superior in quality. It is very mild flavored and an excellent keeper ................................................................. 1 0 3 0 1 0 0

Yellow Globe Danvers. Extra Stock. The variety most extensively grown around Boston, and in many other sections; an early round variety, with very small neck; ripens early, and very uniformly; yields large crops, and keeps well ................................................................. 1 0 2 5 7 5

ONION SETS Market Variable

Plant as early in spring as convenient to obtain early green onions; but they may be set any time up to June 1. Set in rows a foot apart, and 3 or 4 inches between them in the row. Any good soil will suit them. When grown in quantity, high cultivation is given in order to forward the crop for an early market. They are ready for use as soon as the bulbs begin to be of fair size; those not used in a green condition will ripen early in July, and make nice Onions. Potato Onions and Top Onions are grown from bulbs only, growing in clusters, which are separated when planted.

Egyptian, or Perennial Tree Onions. These are perfectly hardy. Being once planted they continue to be productive year after year. The old bulbs divide, making several irregular Onions. The young sets are produced on the top of the stalks and are set out in the fall ......... $\frac{1}{2}$ 2 5 1 2 5

Potato Onion Sets. Sometimes called "Hill Onions," or "Multipliers;" a good safe sort to use; sure crop and early ................................................................. 2 5 1 5 0

Shallots. Somewhat resembling the last named sort, but smaller; much used in soups, stews, salads, etc.; very mild flavor ................................................................. 3 0 1 5 0

White Potato, or Multiplier. These are of a pure silvery white color; very productive; of excellent quality and size for bunching green. Their keeping qualities are remarkable, being kept perfectly sound for a year. They are extremely early, being ready for market from three to four weeks ahead of any other kind ................................................................. 3 0 1 5 0

White Sets. The best for general use; mild flavor ................................................................. 3 0 2 0 0

Yellow Sets. Not as mild in flavor as the white variety, otherwise as good ................................................................. 2 5 1 5 0

YELLOW GLOBE DANVERS
OKRA, or GUMBO (Gumbo)

One ounce will sow 40 feet of drill

Sow in May in drills, about 2 feet apart and 2 inches deep. Thin the plants to 10 or 15 inches apart. It is of the easiest culture. Ordinary soil and manuring only are required. The young pods are used in soups and stews; a plant very generally grown in the South.

Dwarf Green. More productive than the other sort, and better suited to northern cultivation. Pkt. 5 cts., oz. 10 cts., ¼ lb. 30 cts.

White Velvet, or Creole. Pods smooth, of large size, and a creamy white color. A favorite in the South. Pkt. 5 cts., oz. 15 cts., ¼ lb. 30 cts.

PARSLEY (Petersilie)

One ounce will sow 150 feet of drill

Parsley seed germinates very slowly, taking two to four weeks to come up; hence, if wanted early, no time should be lost by delaying the sowing. Make the rows 12 to 14 inches apart. Thin to 3 or 4 inches apart, or transplant at this distance. Can be sown in hotbeds in February, or later in open ground. Late in autumn place frames over some of the plants to lengthen out the season of cutting. For garnishing purposes nothing equals Parsley; it is also used in salads, soups, etc. Any good soil will suit for growing this plant.

Champion Moss Curled. A most elegantly curled variety; rather dwarf, and of the richest green; very ornamental. Pkt. 5 cts., oz. 10 cts., ¼ lb. 30 cts.

Double Curled. A fine variety, well curled. Pkt. 5 cts., oz. 10 cts., ¼ lb. 30 cts.

Hamburg, or Rooted. A rooted variety, of which the roots are the portion used; good in flavoring soups and stews. Pkt. 5 cts., oz. 10 cts.; ¼ lb. 30 cts.

New Fern-Leaved. Exquisite in form, and admirably suited for mixing with dwarf ornamental foliage plants in the flower garden, also for table decorations. Pkt. 5 cts., oz. 10 cts., ¼ lb. 30 cts.

Plain-Leaved. Much used in soups, etc.; rather stronger in flavor than the other sorts. Pkt. 5 cts., oz. 10 cts., ¼ lb. 30 cts.

PARSLEY (Petersilie)

One ounce will sow 150 feet of drill. Five to six pounds to the acre

Sow in April, or early in May, as Parsnips require a long season to mature. Their cultivation is otherwise the same as directed for carrots. They may be dug in the autumn, and stored for winter use; but if left in the ground till the following spring, they are very much improved in flavor. Sow a liberal quantity of seed, as from its nature it does not always come up well.

Abbott's Improved. Very smooth and of good quality............................... $0.05 $0.10 $0.25

Arlington Long White. The best variety for general use; long, smooth, and free from coarse roots. 05 15 35

Early Round. The earliest variety, quality good.................................................. 05 10 25

Guernsey's Improved. Flesh fine grained and of excellent quality. Not so long as the Arlington 'but thicker and more easily gathered.................................................. 05 10 25

Hollow Crown. One of the best for general use.................................................. 05 10 20

PUMPKIN (Fürbîş)

One ounce will plant 20 hills

Pumpkins are grown chiefly as food for stock. The usual method of planting is to scatter a few seeds at intervals in the hills when planting Indian corn; in this way good crops of Pumpkins are secured with slight labor and expense, and make a valuable addition to the season's crops.

Connecticut Field. The common yellow Pumpkin, grown chiefly for feeding stock.................. $0.05 $0.10 $0.15 $0.30

Nantucket, or Negro. Small, dark warded shell. Best for pies................................. 05 10 30

Mammoth Tours. Grows to a very large size. Not valuable for cooking........................... 05 20 60 2 00

Winter Luxury. Flesh thick, sweet and excellent for pies........................................... 05 10 25 00
The cultivation of Peas requires only ordinary attention; the dwarf varieties require a rich soil and liberal manuring; the other sorts need only ordinary cultivation. Peas are very hardy and succeed best under low temperature. The early, round smooth varieties should be sown as early as possible in spring, while the more tender, wrinkled sorts will do better if planted after the ground has become warmer. Sow in drills 2 to 3 feet apart according to the variety, and cover early sowings about two inches—late sowings should be covered 3 to 4 inches. A plot will plant about 50 feet of row. Make the drills deep enough to allow room for the manure, which is usually scattered along the bottom of the drill. It is safer not to have the seed in direct contact with the manure; to avoid this draw in a little earth before sowing the Peas. It is better to use well-rotted compost than fresh stable manure. Successive plantings may be made up to the middle of May; if planted later in this latitude, they suffer from the heat and become mildewed. Some of the dwarf sorts yield good crops if sown about the middle of August. The taller sorts should be supported with strong brush, firmly planted along the drill, before the Peas make much vine; in field culture this is usually omitted, however.

**EXTRA-EARLY VARIETIES**

**Alaska (Earliest of All, or Clipper).** A superior blue-seeded variety; very early, productive and of excellent quality. Extensively grown for early market. Pt. 20 cts., qt. 30 cts., pk. $1.50.

**American Wonder, Bliss**. One of the earliest and best dwarf wrinkled peas known. Vine vigorous and branching, growing about 9 inches high, well filled with pods containing six to eight large, sweet peas. Requires good, rich soil. Pt. 20 cts., qt. 35 cts., pk. $2.

**British Wonder.** Similar to American Wonder, but of more vigorous growth. Pt. 20 cts., qt. 40 cts., pk. $2.25.

**Early Prize.** A prolific dwarf variety of excellent quality. Pods 3 to 3 1/2 inches long. Pt. 20 cts., qt. 35 cts., pk. $2.

**Extra-Early Premium Gem.** Pods long and of a dark green color; very prolific, and one of the earliest. Quality good. Vine about 18 inches high. Pt. 20 cts., qt. 30 cts., pk. $1.50.

**Gradus (Prosperity).** An extra-early wrinkled Pea of superior quality; only two or three days later than Alaska. Pods uniformly large, from 4 to 4 1/2 inches long and well filled. Pt. 20 cts., qt. 30 cts., pk. $1.

**Gregory’s Surprise.** As early as the early round varieties, with the delicious sweetness of the wrinkled sorts. Pt. 20 cts., qt. 30 cts., pk. $1.75.

**Maud S.** Very early and productive, ripening its crop very evenly. Pods of good size. Pt. 20 cts., qt. 30 cts., pk. $1.50.

**Nott’s Excelsior.** An early wrinkled Pea of great value, growing a little larger and more vigorous than American Wonder, with larger pods and more of them. Pt. 20 cts., qt. 30 cts., pk. $1.50.

**Sutton’s Excelsior.** An early dwarf, wrinkled Pea, with larger pods than any of its class. Pt. 20 cts., qt. 30 cts., pk. $1.50.

**Thomas Laxton.** Only a day or two later than Earliest of All, with pods nearly double in size. A wrinkled marrow equally valuable for family use and market-gardeners. Pt. 20 cts., qt. 30 cts., pk. $1.50.

**SECOND-EARLY AND LATER VARIETIES**

**Abundance, Bliss.** A wrinkled medium-early Pea of excellent quality; of branching habit and about 2 feet high. Pods of good length and well filled. Pt. 20 cts., qt. 30 cts., pk. $1.

**Black-eyed Marrow.** Used for a late crop; an old and popular Pea. Pt. 20 cts., qt. 30 cts., pk. $1.

**Champion of England.** One of the best known of the older varieties; quality unsurpassed. Pt. 20 cts., qt. 30 cts., pk. $1.

**Dwarf Defiance (Sutton).** Pods long, dark green, straight and well filled with large Peas of excellent flavor. Very productive. Pt. 20 cts., qt. 30 cts., pk. $1.

**Dwarf Telephone (Carter’s Daisy).** Similar to the tall Telephone except in the height of the vine, which is only about 2 feet. Pt. 20 cts., qt. 30 cts., pk. $1.

**Dwarf White Marrow.** A good late sort; not so sweet as the green wrinkled varieties. Pt. 20 cts., qt. 30 cts., pk. $1.
SECOND-EARLY AND LATER PEAS, continued

| Variety                      | Description                                                                 | Pt  | Qt \| Pk |
|------------------------------|-----------------------------------------------------------------------------|-----|------|-----|
| Everbearing, Bliss'          | This variety has proved a favorite for general use; branches considerably if not too thickly planted; large, well-filled pods | $0 15 | $0 30 | $1 50 |
| French Canner (Petit Pois)   | Pods long, slim, with small Peas of fine quality                            | 15  | 30   | 1 75 |
| Heroine.                    | A medium early, green wrinkled Pea, growing uniformly 2 to 2 1/4 feet high, coming in between McLean's Advance and Champion of England, and bearing a profusion of large, long, slightly curved pointed pods | 15  | 30   | 1 75 |
| Horsford's Market Garden     | A wrinkled variety, coming in at about the same time as McLean's Advance. In habit of growth quite distinct. Vines 2 feet high | 15  | 30   | 1 50 |
| Juno.                       | One of the best late wrinkled varieties, with long straight pods and large Peas of delicious quality | 15  | 30   | 1 50 |
| Mammoth Melting Sugar        | Best of all the edible-podded Peas. Pods straight, smooth, brittle and delicious | 20  | 40   | 1 75 |
| McLean's Advance             | A favorite green wrinkled marrow; vine 2 feet. Pods well filled; best quality. Largely used by market-gardeners and canners | 20  | 35   | 1 75 |
| New Dwarf Champion.          | Possesses all the merits of the reliable Champion of England. A Hardy, robust grower, producing dark green pods of good size, and in great abundance. Quality excellent. | 15  | 30   | 1 50 |
| Pride of the Market.         | A very productive, Dwarf-growing main-crop variety; dark green pods, large and well filled. | 15  | 30   | 1 50 |
| Queen.                      | One of the best main-crop sorts. Pods large, dark green and well filled. Excellent quality. Vine 2 1/2 feet | 15  | 30   | 1 50 |

Stratagem Improved. A good variety for medium and late use. Its pods are about double the length of other varieties in its class, besides being well filled, and with remarkably large Peas, and these of the richest flavor. | 20  | 40   | 2 50 |

Telephone. A strong grower, and about 4 feet high. Bears remarkably long pods | 20  | 35   | 2 25 |

Yorkshire Hero. An excellent late dwarf, wrinkled marrow; good pods; Peas large; flavor excellent; vine 2 1/2 feet | 15  | 25   | 1 50 |

PEPPER (Pfeffer)

One ounce will produce about 2,000 plants

Sow in March or April in a hotbed, and transplant into open ground late in May or early in June, when the weather has become well settled, as the plants are quite tender. Set in rows about 2 feet apart, and 15 inches apart in the row. A warm, sandy loam is best suited to their growth.

Pepper Plants, ready in May and June. Doz. 25 cts.
POTATOES

Eight bushels of cut tubers are sufficient to plant one acre.

Special quotations on large lots. Prices subject to variations of the market.

Any good soil will produce Potatoes. When grown upon a good sandy loam, however, their quality is usually much better than that of those produced upon heavy soils. Make furrows of good depth, 3 feet apart; scatter a liberal dressing of fertilizer along the drill, and upon this set the seed potatoes, about 8 or 10 inches apart. One or two pieces of Potatoes, containing one or more eyes in each piece, are put in each hill. Cover a couple of inches, and, when the sprouts appear, cultivate and hoe to keep the soil free and clear of weeds. As the vines increase, draw earth around them, forming a slight ridge.

Bovine. Early and productive. Fine quality; flesh white and dry. Pk. 60 cts., bus. $2, bbl. $4.50.

Carman No. 3. One of the best late, large, handsome tubers. Pk. 60 cts., bus. $2, bbl. $4.50.

Delaware. Tubers large, smooth and of best quality. White and yields well. Pk. 60 cts., bus. $2, bbl. $4.50.

Early Rose. The standard variety for general use. Maine-grown. Pk. 60 cts., bus. $2, bbl. $4.50.

Early Norther. Resembles Early Rose in shape and color. Excellent quality. Pk. 60 cts., bus. $2, bbl. $4.50.

Gold Coin. Tubers oblong; skin white. Quality excellent and a large yielder. Pk. 75 cts., bus. $2.25, bbl. $3.

Green Mountain. Medium early; white, round or oval smooth-skinned. Pk. 60 cts., bus. $2, bbl. $4.50.

Irish Cobbler. Cream-white color and of excellent quality. A vigorous grower, early, ripens uniformly and keeps well. Pk. 60 cts., bus. $2, bbl. $4.50.

Noroton Beauty. New. Early, productive and of excellent quality. Shape uniformly round; flesh Pk. 60 cts., bus. $2, bbl. $4.50.

Rural New Yorker No. 2. Very few and shallow eyes; pure white skin and flesh; unexcelled table quality; immense yielder. Pk. 60 cts., bus. $2, bbl. $4.50.

Sir Walter Raleigh. A good main-crop variety. Flesh white, quality good. Pk. 60 cts., bus. $2, bbl. $4.50.

Uncle Sam. Medium late, good size, large yielder and cooks white and dry. Pk. 60 cts., bus. $2, bbl. $4.50.

We can furnish other sorts not listed above, if desired.

RHUBARB

This plant is mostly propagated by division of the roots. The best time to set out the plants is early in the spring, although it is sometimes done in autumn. Make furrows of good depth, 3 to 4 feet apart, according to the variety planted; across these furrows, at right angles, make others the same distance apart; at each intersection put three or four shovelfuls of good manure, and upon this set the plants. Any good soil will suit Rhubarb; but to obtain heavy crops, good soil well manured is indispensable. A piece of root with a single bud, or eye, is enough for each hill. Cultivate during summer, but do not pull any stalks the first year. Late in autumn cover each plant with a good shovelful of manure, and plough a furrow against each side of the rows; this protection will assist the earliness of the crop. In early spring level the ground, working in the manure with a fork. Plants can be obtained from seed, which may be sown in a hotbed in March, and the plants set out about the middle of May. It takes longer, however, to obtain a crop from seedling plants than from roots.

Linnaeus. The earliest and best for garden use; not so coarse and fibrous as the larger sorts. Pkt. $0.05, OZ. $0.30, LB. $0.75.

Victoria. The variety in general use for the market; yields immense crops. Pkt. $0.05, OZ. $0.30, LB. $0.75.

Rhubarb Roots. (buyer paying for transit); each 20 cts., per doz. $2.

SCHLEGEL & FOTTTLER CO.

Gentlemen:—I will say just a word in favor of your Franklin Park Lawn Seed. I have used it for the grounds of the late Hon. John Hay for the past three years and it has proven satisfactory in every way. I have given it a test that very likely no other person has; I have sown it broadcast over old grass ground that had not been fertilized nor had anything done to it for thirty years. I sowed it, as I said, broadcast, and then I used the phosphate which you sent to us, raking it in well, and today not one gardener in a thousand would know but what that piece of grass ground had been plowed and brought to a high state of cultivation before sowing the seed. So much for Schlegel & Fottler Co.'s Franklin Park Lawn Seed.

Respectfully,

W. J. Grout, Gardener to the late Hon. John Hay.
RADISH (Raphis und Rettig)

One ounce will sow 100 feet of drill

Radishes should be grown on light, sandy loam, and, to be crisp and tender, they should make a rapid growth. If the soil is moderately rich, very little, if any, fertilizer is necessary. For very early use, begin sowing in frames in January, and continue successive sowings every two weeks. Early in May the seed may be sown in open ground; but for such early sowing a warm, well-sheltered situation should be selected; later sowings may follow every two or three weeks throughout the summer, using the varieties best adapted to the different stages of the season. Sow broadcast in narrow beds or in drills. Many Radishes are grown to good advantage drilled in with other crops. For winter Radishes, sow the seed about midsummer, and keep the roots during winter in a cool cellar, covered with earth, or in well-covered pits out-of-doors. Winter Radishes should be placed in cold water an hour or so before using.

Beckert's Chartier. Large size; clear rose-color with white tips; grows fast; crisp and tender. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 20 cts.

Crimson Giant Forcing. Grows to a large size without becoming pithy. Excellent for forcing. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 25 cts.

Early French Breakfast. Similar to the Early Scarlet olive shaped variety in form; color a handsome scarlet, with a white tip. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 25 cts.

Early Long Scarlet. Short tip. The standard variety of the long sorts, used either for forcing or open culture; 6 or 7 inches long. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 25 cts.

Early Scarlet Olive-shaped. One of the early sorts; much used for forcing, and suitable for early sowing in open air. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 25 cts.

Early Scarlet Turnip-rooted, White-tipped. Similar to the last-named sort, except the white tip of the root; a handsome Radish. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 25 cts.

Early White Turnip-rooted. Round; clear white. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 20 cts.

Sakurajima. The largest known. Sow in rich soil. $0.05 $0.20 $0.75

White Giant Stuttgart. Very early and grows to a large size. Fine quality, firm and brittle. 05 10 25

White Box. Good for forcing; pure white and crisp. 05 10 25

Wood's Early Frame. In shape half long; much used for forcing. 05 10 25

In addition to the above, we offer the following well-known sorts at a uniform price of: pkt. 5 cts., oz. 10 cts., 1/4 lb 20 cts.: Gray Summer Turnip, Long White Naples Summer, Long White Winter, Chinese Rose Winter, Yellow Summer Turnip-rooted.

SALSIFY (Saferywurzel)

One ounce will sow 50 feet of drill

A most delicious vegetable. It is used stewed, boiled or fried and sometimes as a salad, sliced raw in vinegar, with salt and pepper. When cooked it has an oyster flavor. It is commonly called vegetable oyster. The cultivation is precisely the same as directed for parsnips; and it will keep over winter, in the ground where grown, in the same way as parsnips.

White French. Roots of medium size, white and smooth. 05 10 20 60

Mammoth Sandwich Island. This variety will average nearly double the size of the White French, and is of excellent quality. 10 20 60
SPINACH (Spinat)

Spinach may be grown on any ordinary soil, and its cultivation is a very simple matter. It is grown both as a spring and summer crop. For early use, sow in August or September, in drills 12 to 14 inches apart. At the approach of cold weather cover tightly with straw, or any handy litter. Uncover when the plants begin to make a new growth in spring. For summer use sow early in spring, in the same way as above, using rather less seed. If the plants stand too thick, thin to 3 or 4 inches apart. A liberal dressing of good manure should be used. The land can hardly be made too rich.

SQUASH (Speise Kürbis)

Squashes, being very tender, should not be planted too early; and as they make a very rapid growth, they will have ample time to mature if planted after the weather has become settled and warm. A warm, mellow soil suits them best; and they require a liberal amount of manure, which is best applied directly to the hills. Plant in May, after all danger of frost is past. The summer varieties should be planted in hills, 3 to 4 feet apart each way, and the later sorts about twice this distance; put 8 or 10 seeds in each hill, as there is much danger of loss from bugs. Protect against these as directed for cucumber culture. When well grown, thin to three or four plants to each hill.

**Packets of any variety at 5 cts. each**

SEA KALE (Meerfohl)

The young shoots, when blanched and boiled, have a flavor somewhat like asparagus. Sow the seed early in spring in hills about 5 by 3 feet. Thin to three or four plants in each hill, and cultivate during summer. Protect during the succeeding winter with about 6 inches of manure or leaves upon each hill. Early in spring remove the covering, and, when the young shoots appear, earth up to blanch, or cover with flower-pots, etc., for same purpose. A strong soil is suitable.

Silver Sea Kale. Pkt. 5 cts., oz. 30 cts., 1/4 lb. $1.
**TOMATO**

One ounce will produce about 2,000 plants

Of Tomatoes the varieties are numerous, some of them being very distinctive. However, there are many sorts of the large red varieties annually introduced and represented as being superior to all others, which, as a rule, do not show variation enough to be classed as distinct varieties. The seed may be sown in hotbeds, with good bottom heat, in February or March; and, when the plants are 2 or 3 inches high, transplant into other frames about 4 or 5 inches apart each way, or in boxes or single pots which are to remain in the frames. Set the plants out in open ground, not earlier than the last week in May or first week in June. Being very tender, they will not bear the least frost. Choose a light, sandy, or gravelly loam, in a well-sheltered situation, and with a southern exposure if possible, as early fruit is desirable. In such a location the plants may be set about 4 feet apart each way, using a large shovelful of well-rotted manure in each hill. On rich soils but little, if any, manure is necessary; and the plants will need to stand about 6 feet apart each way.

**Acme**. Early; medium-sized, red, tinged with purple; very solid. Pkt. 5c., oz. 25c., 1/4lb. 75c.

**Atlantic**. Very early, bright red, solid, smooth, productive and of excellent quality. Valuable for early market. Pkt. 5c., oz. 23 cts., 1/4lb. 75c.

**Tomato Plants**. Ready in June. Belmont Red Cross, Dwarf Champion, Perfection. Per doz. 30 cts.
TURNIP (Rübe)

One ounce will sow 150 feet of drill

A light soil is the best upon which to grow Turnips; and, if it has been well manured the previous year, no further supply is required. A dressing of some good commercial fertilizer may be applied to advantage; but fresh stable manure should not be used, or the crop will be more or less worm-eaten, and rank in flavor. The flat or English varieties are extensively used as a late crop, and may be made to follow almost any other early crop. Fall Turnips may be sown from July 1 till about September 10, or, in favorable seasons, even later. These varieties are also used for early crops, the seed being sown in April. But few soils or locations will produce early Turnips of good quality. Old pasture land recently broken up, and dressed with bone-dust, phosphoric acid, lime, guano, etc., will often produce satisfactory crops; but at best, success is the exception rather than the rule in growing early Turnips. Sow the seed broadcast upon an even surface, using about three-quarters of a pound of seed per acre, and rake it in evenly. The Swedish, or rutabaga varieties, should be sown in drills 15 to 18 inches apart, at any time from June 1 to the middle of July, using about one pound of seed per acre. The plants should be thinned to about 8 or 10 inches apart.

SCHLEGEL & FOTTLER CO.'S SEED CATALOGUE

SWEET, POT AND MEDICINAL HERBS

The cultivation of herbs is very simple, and but little care is needed beyond keeping down the weeds. Sow in April or May, in drills 12 to 15 inches apart, and thin out the young plants where they stand too thick. Gather when just coming into bloom, tie in small bunches and dry in the shade.

Anise (Pimpinella anisum). Annual. Used for flavoring and garnishing ........................................ .......................... $0 05 $0 15 $0 30

Arnica (Arnica montana). Perennial. Used in medicine as a narcotic and stimulant .......................... 10 00

Balm (Melissa officinalis). Perennial. Leaves have a fragrant odor and are used medicinally .............. 05 30

Basil, Sweet (Ocimum basilicum). Annual. Used for flavoring soups, stews, etc., ........................................ 05 20 60

Caraway (Carum Carvi). Perennial. Used for flavoring confectionery, bread, etc., ........................... 05 10 20

Catnip (Nepeta cataria). Perennial. Sometimes used in medicine .......................................................... 10 50

Coriander (Coriandrum sativum) Annual. Used in the manufacture of confectionery and liquors ....... 05 20

Dill (Anethum graveolens). Biennial. The seeds are aromatic and pungent. Used in pickling cucumbers 05 15

Fennel, Sweet (Anethum foeniculum). Perennial. Leaves when boiled are used in sauces ................. 05 15

Fennel, Florence (Foeniculum vulgare). The roots are boiled, also used as salad ................................. 05 20

Horehound (Marrubium vulgare). Perennial. Used medicinally, also for seasoning .............................. 05 25

Hyssop (Hyssopus officinalis). Perennial. Used medicinally. The leaves have a pungent taste ............. 05 25

Lavender (Lavandula cera). Perennial. Yields an oil used in medicine and perfumery ......................... 05 30

Lovage (Levisticum officinale). Perennial. An aromatic stimulant used in medicine ............................ 10 40

Marjoram, Sweet (Origanum Majorana). Annual. Aromatic and fragrant. Much used in flavoring 05 25 75

Pennroyal (Hedeoma pulegioides). Annual. An aromatic medicinal herb .............................................. 10 75

Rosemary (Rosmarinus officinalis). Perennial. Leaves fragrant with warm pungent, bitterish taste .......................... 05 40

Rue (Ruta graveolens). Perennial. Has a strong, heavy odor and bitter taste. Used medicinally .......... 05 20

Saffron (Carthamus tinctorius). Annual. Flowers are used as a dye stuff and in making rouge ............... 05 10 60

Sage (Salvia officinalis). Perennial. More used than any other herb for dressings and seasoning .......... 05 15 45

Sorrel (Rumex crispus). Perennial. Used for salads or cooked and served as spinach ......................... 05 20 60

Summer Savory (Satureja hortensis). Annual. Used for flavoring soups and dressings ....................... 05 20 40

Thyme (Thymus vulgaris). Perennial. Used for seasoning. Also used medicinally ............................... 05 30 1 00

Woodruff (Maitrank) (Asperula odorata). Perennial. When dry imparts an agreeable odor .................... 05 20 00

Wormwood (Artemisia absinthium). Perennial. Used medicinally and is beneficial for poultry 05 20 60

ESCULENT ROOTS AND PLANTS

Asparagus Roots. Conover's Colossal and Palmetto. Strong 2-year-old plants, each, $1 per 100, $7 per 1,000; if by mail, add 40 cts. per 100 for postage.

Chives. Per bunch 15 cts., by mail 10 cts. additional; per doz., $1.25, buyer paying transit.

Horseradish Roots, or Cuttings. Per doz. by mail, 15 cts.; by express, per 100, 75 cts., per 1,000, $5.

Jerusalem Artichokes. Per qt. 20 cts., by mail 10 cts. per qt. additional; per peck, by express, $1.

Mint. Per box, 50 cts., buyer paying transit.

Tarragon Plants (Estragon). We offer strong, well-grown plants of this valuable aromatic plant at, each, 25 cts.; doz., $2.75, buyer paying transit.

VEGETABLE PLANTS. Cabbage, Cauliflower, Lettuce, Tomato. Pepper, etc., in their season.
Farm and Miscellaneous Seeds

The same care that we use in the selection of our vegetable seeds is used in the selection of our farm seeds, and we believe them to be true to their names, and as pure as can be obtained. We do not list a large variety, but confine ourselves to a few, such as we consider the best sorts. We can, however, furnish many others as advertised. We are always pleased to send samples of our farm seeds, and will give special prices when large lots are wanted.

FIELD CORN

If ordered by mail, add 15 cts. per quart to cover cost of postage. Prices subject to change with the market

<tr>
<td>A very hardy forage plant, growing well on soils so poor and sandy that they will produce but little clover. The plants, when mature, are about 40 inches high, and if cut for forage as soon as full grown and before setting seed, they will start up again and furnish even a larger crop than the first. Sow at the rate of 1½ bushels to the acre.</td>

<td>An annual which sows itself about the middle of September, lies dormant all winter, in spring commences to sprout as soon as water gets warm. It grows very rapidly in 1 to 3 feet of water; ripens late in August or early in September. It should be sown broadcast from a boat, in 1 or 2 feet of water and where there is a mud bottom. It succeeds best when planted in the fall, and if this cannot be done, the seed should be kept moist by being packed in moss or damp excelsior until ready to sow. As an attraction for wild fowl it cannot be equaled. In large ponds and lakes it purifies the water, affords a refuge for the small fry from the large fish, as well as furnishing them plenty of food from the animalculae upon its stalks; for planting in fish-ponds it is especially desirable. It also does well along the shores of marshes, and makes a good hay.</td>

LAWNS

To insure a really fine lawn, there are several requisites; a good depth of rich soil, properly drained; a liberal dressing of some good fertilizer; nicety of grading in the levels and slopes; a firm, smooth surface upon which to sow the seed; and a sufficient quantity of the very best lawn grass seed, suited to the situation. The latter item is of prime importance. A rich soil of good depth, and liberally fertilized, will maintain a fine greensward permanently, needing only an occasional top-dressing. Make a smooth surface with harrow and rake, and use a roller to make it firm and even, before sowing the seed. After sowing, cover the seed well by raking it in, and again use the roller to finish the work. Use four bushels, or even more, of our finest English Mixture, or sixty-four pounds of our Franklin Park Mixture per acre. In this latitude there is no more favorable season for sowing than the last of August or the first of September. Sown at this time, the grass will be strong enough to winter over safely. If the seeding cannot be delayed until autumn, it should be done as early in the spring as possible, so that the young grass may be strong enough to withstand the heat of midsummer.

Franklin Park Lawn Seed  Trade Mark Registered
Superior Mixture for Lawns, Terraces, Croquet Grounds, etc.

The mixture of grass seeds we sell under this name is made from the identical formula used by the Park Commissioners of the city of Boston in their work of laying out the beautiful lawns and terraces, which add such a charm to our new parks. For many years the grass seed used on these parks has been supplied by us, which fact should be a strong guarantee of quality. The Franklin Park Mixture gives a fine, smooth, velvet sward within a very few weeks after sowing. Weight, per bushel, 33 pounds. The very large demand for this lawn seed has necessitated our having the name "Franklin Park" registered as a trade mark, in order to protect ourselves from imitators. Lb. 30 cents; 16 lbs., sufficient for ½ acre, $4; 32 lbs., sufficient for ¾ acre, $7.50; 64 lbs., sufficient for 1 acre, $15.

FINEST ENGLISH LAWN MIXTURE. This mixture, made from our own formula, we have sold for years, and it has given very general satisfaction. Weight, per bus. 16 lbs. ¾ lb. (1 qt.) 20c., lb. (2 qts.) 35c., bus. (10 lbs.) $4.

SEEDS FOR GOLF LINKS. We have furnished for several years past many of the largest and most prominent golf clubs in New England with grass seeds.

FAIR GREEN MIXTURE. Specially prepared from such varieties as will prove most permanent and useful. Bus. (30 lbs.) $1.50.

PUTTING GREEN MIXTURE. A combination of grasses designed to produce a dense, close sward. Qt. 30 cents., pk. $1.75, bus. (20 lbs.) $6.

SEED FOR SHADeD LAWNS. Fine grasses, specially selected for locations partially shaded by buildings or trees. Qt. 30 cents., pk. $1.75, bus. (24 lbs.) $6.50.

Add 8 cents per pound to prices of all grasses, if wanted by mail.

We have used your seeds for several years and they have always been satisfactory, and we are glad to recommend them. Yours truly.—(Signed) C. E. Russell, Superintendent of the Country Club, Brookline, Mass., Nov. 30, 1907.
CHOICE GRASS SEEDS
For Lawn and Farm

The Grass Seeds, Clover Seeds, etc., which we offer are of the highest grades only. In addition to the various mixtures offered by us, we make special mixtures for lawns, tennis courts, pastures and mowing lands, and will give quotations on application.

Add 8 cts. per pound to these prices if wanted by mail. Prices subject to the variations of the market.

Awnless Bromegrass (Bromus Inermis). Recommended for dry, arid soils, where other grasses cannot be grown. Grows rapidly and produces abundantly. Lb. 25 cts., 100 lbs. $18.

Beach Grass (Ammophila Arenadinae). Excellent for sowing on railway banks, seashore, etc. Its strong, creeping roots bind the drifting sands, and protect against action of wind and wave. Lb. 45 cts., 100 lbs. $40.

Crested Dog's-Tail (Cynosurus cristatus). An extremely hardy grass, sometimes used in mixtures for sowing pasture land. When mature, the stems are rather too hard and wiry to be relished by cattle; it is more especially adapted to use in sheep pastures. (28 pounds per bushel.) Lb. 40 cts., 100 lbs. $35.

Fowl Meadow (Poa serotina). A valuable grass for wet meadows, where it will produce large crops of excellent hay after it has become well established. Sow two bushels per acre. (10 pounds per bushel.) Lb. 25 cts., 100 lbs. $20.

Hard Fescue (Festuca arundinacea). Not quite so common as the Sheep's Fescue, but much like it in appearance and habit; grows rather coarser; valuable for dry soils. (14 pounds per bushel.) Lb. 25 cts., 100 lbs. $20.

Italian Rye-Grass (Lolium Italicum). One of the imported species, highly esteemed in England, where it is much used for sowing. It is valuable for mixing in with other grasses for permanent pastures, where its earliness recommends it. (18 pounds per bushel.) Lb. 12 cts., 100 lbs. $9.

Creeping Bent (Agrostis Stoehlefer). A variety of English Bent. Valuable in mixture with other grasses for lawns, etc. Suitable also for moist localities. Lb. 30 cts., 100 lbs. $28.

Kentucky Blue (Poa pratensis). "June grass." For pastures and lawns it has no superior, giving that peculiar rich shade of bluish green so much admired in the best lawns; also making a very close, velvety turf. It is usually sown mixed with other fine grasses. (14 pounds per bushel.) Fancy clean seed. Lb. 2 cts. 100 lbs. $16.

Lime Grass (Elymus Arenarius). Useful for sowing on seashore, railway banks, etc. Its wide spreading, thickly matted roots prevent drifting of sands. Lb. 60 cts., 100 lbs. $50.

Meadow Fescue (Festuca pratensis). Several of these grasses are valuable for moist soils, particularly so for permanent grass land or pastures; while others of the genus succeed best in very dry or even sterile soils. Meadow Fescue is one of the principal grasses found in moist portions of old pastures and grass fields. The seed ripens early and sheds readily; and, where this species becomes well established, it remains many years. It is much relished by live-stock, and makes excellent hay. (15 pounds per bushel.) Lb. 25 cts., 100 lbs. $22.

Meadow Foxtail (Alopecurus pratensis). The only species in list of Foxtail grasses that is of any importance. It is not particularly valuable as a hay crop, being light and very bulky; as a pasture grass, it withstands heat and drought well. It is also an early grass, and grows rapidly. The seed is difficult to obtain, and is consequently rather high in price. (8 pounds per bushel.) Lb. 45 cts., 100 lbs. $40.

Orchard (Dactylis glomerata). One of the very best grasses in cultivation. If cut just as it is coming into bloom (as it always should be), a good second crop will follow, and sometimes even a third. It is recommended for sowing with red clover, as they come into flower at the same time. Orchard is one of the earliest grasses, yields immense crops, and makes the best of hay; it endures considerable shade, and is much used for sowing in orchards. Two or three bushels of seed will sow an acre. (14 pounds per bushel.) Lb. 25 cts., 100 lbs. $20.

Pacey's Perennial Rye-Grass (Lolium Perenne). A rapid-growing, early grass; much used for sowing with other grasses in meadows, pastures and mowing lands. As it starts early, it soon shades the ground, affording shelter to the more delicate sorts. Should be cut as soon as it is in blossom. Makes excellent hay. Sow two bushels per acre, if used alone. (24 pounds per bushel.) Lb. 15 cts., 100 lbs. $10.

Perennial Rye-Grass, Selected Dwarf. A short seeded variety dwarf, and useful for lawns, golf links, etc. Lb. 15 cts., 100 lbs. $12.

Red Top (Agrostis vulgaris). A very valuable, permanent grass; scarcely of less importance than Timothy; grows well upon almost any soil, but will pay well for high cultivation; especially valuable for meadows, pastures and lawns, where permanent grasses are desirable. (12 pounds per bushel.) Price variable. Lb. 15 cts., 100 lbs. $12.
Grass Mixtures for Pastures and Mowing Lands

The best results are often attained when a mixture of grasses is used; not only can more grass be produced but these mixtures, being composed of early, medium and late sorts, give a much longer season of growth than when only two or three sorts are sown. Some grasses do better in certain locations, and some seasons are better adapted to their development than others; it is, therefore, desirable to take advantage of these conditions, and this can be done by sowing a number of varieties. With this object in view we have carefully arranged the following formulae for different locations. We always prefer autumn sowing if it can be done in September or early in October. It can also be successfully done in November, when the seed will remain dormant during the winter, germinating and often getting a good start early in the spring. We also recommend spring sowing when it can be done early.

We recommend sowing 8 pounds mixed clover seed to each acre of above mixtures. This should be done early in the spring. $2
MILLETS

Add 8 cents per pound to these prices, if wanted by mail. Prices subject to changes in the market

| Hungarian Grass (Panicum Miliaceum) | One of the very best plants for green fodder, or for ensiling; makes hay of the best quality, and yields immense crops. Sow broadcast about one bushel of seed per acre, at any time from the middle of June till the first of August. (45 lbs. per bushel). | $0.05 | $1.50 |
| Common, or Italian (Panicum miliaceum) | In habit and usefulness, very similar to the preceding. The flower-stem is of more branching, open appearance. This plant requires a better soil than Hungarian; cultivation the same. (50 lbs. per bushel). | $0.05 | $1.75 |
| Golden (German Millet) | Grows much taller, and produces larger crops than either of the preceding species; it also requires more time to grow. Cultivation the same as for other Millets. (50 lbs. per bushel). | $0.05 | $1.75 |
| Japan (Panicum Cris-Galli) | Enormously productive, yielding 10 to 20 tons per acre. Seed should be sown from middle of May to the middle of July, using 15 pounds per acre. It grows to a height of 6 or 7 feet and can be used as ensilage, fed green, or cured for hay. (55 lbs. per bushel). | $10.00 | $3.00 |

FLOWER SEEDS
SOWING, TRANSPLANTING, SOIL, Etc.

Success in the cultivation of flowers from seed depends to a great extent on some of the earlier operations, on which we venture a few suggestions. The first requisite is RELIABLE SEEDS: We spare no pains or expense to procure the VERY BEST. A trial of our seeds will do more to establish this fact than any statement by us would be likely to do. Having obtained the seeds desired for planting, procure suitable boxes or pans, in the bottom of which put pieces of broken pots for drainage, and fill with fine, porous soil, level it carefully and press lightly, so that a comparatively smooth surface may be obtained. Water the surface with a fine rose, and sow the seeds as evenly as possible. Cover with a light, fine soil to a depth twice the diameter of the seed. Very fine seeds require little or no covering at all, a mere pressing into the soil in many cases being sufficient. A pane of glass or piece of paper should be put over them after sowing to retain the moisture, which will generally be sufficient to ensure germination, and will prevent the soil from crust ing over. If they should get dry, however, it will be better to water from the bottom by standing the pan a few minutes in water, as top-watering is very apt to wash up the seeds and leave them uncovered on the surface. All seedlings and young plants should be kept as near the glass as possible, and as soon as they are fit to handle they should be

TRANSPLANTED

Into a light rich soil and from two to three inches apart, according to the size the plants are likely to attain before being again moved. Before planting out, give the plants a thorough wetting, and they can then be taken up with balls of earth and planted without drooping, if a little water is given after planting. The best

SOIL

for seedlings, as well as for most flowering plants, is a rich loam, neither too sandy nor too stiff: in such they grow readily and attain great perfection of bloom with little care. The soil should be well broken up and made fine by a free use of the rake. Seedlings should be thinned out before they become in any way crowded, and most varieties transplant successfully.

ANNUALS

Are all plants which grow from seed, flower, mature their seed and die within the course of a year.

Hardy Annuals are so called because they do not require any artificial heat at any period of their growth, and are capable of enduring any ordinary weather from April to October. The seeds may be sown any time from April to October.

Half-Hardy Annuals are those that require artificial heat to assist their germinating, but in some cases this is not absolutely necessary, as a sowing may be made in a warm border in May. It is advisable, however, to make a sowing in heat during March and April, as a much earlier and longer period of bloom is thus obtained. This class em...aces some of the most beautiful annuals in cultivation. They should be transplanted and grown under glass until the last of May, when they may be hardened and planted out from nine to twelve inches apart in good garden soil.

Tender Annuals are all annuals which require the protection of glass during the whole season of their growth. A good heat is necessary to germinate the seeds, and they should be transplanted into small pots and shifted on as the pots become filled with roots, and when they have received their last shift, occasional waterings with liquid sheep manure will be very beneficial.

BIENNIALS

Are plants that take two years in their development from seed to the maturation of seed, growing one year, flowering, fruiting and dying the next. The hardy sorts may be sown and treated the same as recommended for Hardy Annuals. The tender varieties are sown in frames or cool houses, where they are kept all winter, and transferred to the open border in May or June. Many of the Biennials will bloom the first season if the seed be sown in February or March.

PERENNIALS

Are plants which, as a rule, bloom the second year from seed, and are more or less permanent thereafter. The term is in most general use in referring to hardy border plants, where it is necessary to distinguish between those which are perennial, and others that are of only annual or biennial duration. Like the Biennials there are many Perennials which bloom the first year if sown early. Seed of Hardy Perennials may be sown in the open borders any time from April to October, though we prefer sowing early enough to get strong plants before cold weather, as they are not likely to winter-kill, whereas the plants from late-sown seed, being small, are more liable to suffer from this cause. The soil should be a good, rich loam.

Tender Perennials require the protection of a greenhouse through winter. The seeds of some of the Perennials will remain in the soil for months before germinating.
General List of Select Varieties of FLOWER SEEDS

Containing all those sorts known to be desirable and worthy the attention of professionals and amateurs.

Our seeds are of superior quality. We supply largely florists and market-gardeners, who require and buy only the best.

All Flower Seeds mailed free on receipt of prices quoted. Cultural directions on each packet.

IF THE NUMBER IS USED WHEN ORDERING, IT WILL NOT BE NECESSARY TO WRITE THE NAME

Collections of Asters, Pansies, Poppies, Nasturtiums, etc., will be found under their respective heads.

No. ABRONIA. Pretty trailing annual, with cluster of fragrant verbena-like flowers.
10 Umbellata grandiflora (Sand Verbena). Clusters of rosy pink, sweet-scented flowers .......... 10
15 ABUTILON, Prize Mixed. (Flowering Maple.) Beautiful for house or garden. Rapid growers and profuse bloomers, easily raised, and blooming first season from early sown seed. Half-hardy shrubs .. 10
ACACIA. Finely cut foliage and long, graceful racemes of yellow flowers. Half-hardy shrubs. 6 to 10 ft.
20 Finest Mixed. In great variety .................................................. 10
30 Lophantha magnifica. Finely cut foliage ........................................ 10
35 Molliissima floribunda. One of the best ........................................ 10
45 ACANTHUS mollis. Beautiful ornamental foliage and white flowers. The leaves of this are said to have given rise to the Corinthian style of architecture. Hardy perennial. 3 ft. ........................................ oz., 50c .. 10
50 ACHILLEA, The Pearl. Covered with double pure white flowers from spring till frost; excellent for cutting. Hardy perennial. 1½ ft. ......... oz., 15c .. 15
55 ACHIMENES, Superb Mixed. Profuse blooming greenhouse plants, 1 ft. high, very easily grown, and flowering through the summer, requiring less heat than glxiniias. The flowers vary in size, and are of the richest colors ........................................ 25
ACONITUM (Monk's Hood). Hardy perennials, with long spikes of helmet-shaped flowers. Suitable for shady places. June to September.
60 Finest Mixed. 2 to 4 ft. ........................................ oz., 15c .. 10
65 Napeless. Blue and white. 3 ft. .......... oz., 75c .. 10
70 Pyrenacim. Large yellow. 2 ft. .......... oz., 25c .. 10
ACROCLINUM. One of the handsomest everlastingings, and used extensively in bouquets of dried flowers, for which purpose they should be gathered before being fully open. Hardy annual.
75 Double Mixed. 1 ft. .......... oz., 25c .. 05
80 Single Mixed. 1 ft. .......... oz., 25c .. 05
85 ADENOPHORA Potanini. An extra fine hardy perennial, with large bell-shaped, drooping flowers, ½ inches in diameter, and of a beautiful light blue color. ½ ft. June and July ............. 25
90 ADLUMIA cirsoides (Mountain Fringe, or Alleghany Vine). A beautiful climber, with maiden hair fern-like foliage and pink flowers; a self-sowing hardy biennial, and may be treated as perennial. 10 to 15 ft. .......... oz., 50c .. 10

No. ADONIS. Free-flowering border plants, with showy flowers, of easy culture in any garden soil.
100 Aestivais (Flos Adonis). Deep scarlet annual. 1 ft. July and August .......... oz., 25c .. $0 05
105 Adonis Vernalis. Large yellow flowers early in spring. Hardy perennial. 1 ft. May and June .......... oz., 50c .. 05
110 AETHIONEMA grandiflora. Attractive, free-flowing hardy perennial, covered with spikes of rose-colored flowers from May to Aug. 1 ft. .......... 25

| CROWN, or COCARDEAU. Large, double flowers, with white centers, surrounded with most brilliant colors. Very striking. 1½ ft. |
| 790 | Collection of six colors.                                                                 | 40   |
| 795 | Finest Mixed. $2.50.                                                                  | 10   |

| DAYBREAK. Most beautiful sort: a strong, compact grower with large double flowers on long stems; an exquisite shade of sea-shell pink. 2 ft. oz., $4. 10 |
| 801 | No. 6 Early Snowdrift. One of the earliest, with immense perfectly double snow-white flowers of the ostrich feather type; free bloomer, and is not surpassed in size or beauty by the later sorts. 2 ft. oz., $4. 10 |

| EARLY WONDER. This is certainly the earliest, and there is no doubt of its being the best early Aster yet sent out, of Comet form and on long stems. Valuable for cutting. 1½ to 2 ft. |
| 820 | Pink. oz., $3. 10 |
| 823 | White. oz., 4. 10 |

| GLORY OF THE MARKET. Pyramidal growth, vigorous, and with very large double flowers, 4 to 6 inches in diameter, of a beautiful anemone-like color. 1½ ft. |
| 825 | Collection of six colors.                                                                 | 50   |

No. 1049

SUNSET. Habit of plant same as the well-known daybreak. The flowers are large, double, and globular; shape on long stems, the color is a delicate pink, shading to deep pink in the center 2 ft.............. oz. $4.50 10

1050

SURPRISE, Sunlight. Resembling the Peony Aster in form and habit, with flowers 3 to 4 inches across, of a pure yellow. 2 ft................................. 10

VICTORIA IMPROVED, Special Strain. Our strain of this Aster is unrivalled; it is superior for exhibition purposes and for florists' use. The plants are of pyramidal habit and produce freely beautifully imbricated, large, double flowers on long stems. As the petals curve outward, it makes a splendid contrast to the peony-flowered varieties. 1½ to 2 ft.

1065 Collection of eighteen colors ............................................. 1 00

1070 Collection of twelve colors ............................................. 1 75

1080 Finest Mixed ..................................................................... 4 00

1085 Carmine-Rose ................................................................. oz. $3.50 10

1090 Dark Crimson ................................................................. oz. $4. 10

1095 Dark Blue ....................................................................... oz. 4. 10

1100 Dark Scarlet ................................................................. oz. 4. 10

1105 Light Blue ..................................................................... oz. 4. 10

1110 Peach-Blossom Pink ......................................................... oz. 1. 10

1120 Snow-White ................................................................. oz. 4. 10

1125 Violet ............................................................................. oz. 4. 10

VICTORIA DWARF. Similar to the above, but growing only 8 or 10 inches high. As the flowers are numerous, as well as very large, a bed of this variety is exceedingly showy.

1130 Finest Mixed ..................................................................... oz. $3.50 10

WASHINGTON. Splendid for exhibition purposes; extremely large and double. 2 ft

1140 Collection of six colors .......................................................... 5 00

1145 Finest Mixed ..................................................................... oz. $3.50 10

1146 WHITE FLEECE. The largest and most perfect of the Comet type, the beautiful daisy-like flowers are of a glistening white. 2 to 2½ ft............................. oz. $4. 10

1150 ZIRNGIEBEL'S, or Boston White. Without doubt one of the finest for florists' use; flowers very double, medium to large, imbricated, globular form, pure white. 2 ft. ...................................................... oz. $3. 10

ASTERS, Perennial Sorts (Michaelmas Daisies). We have in this class some of the most showy, beautiful and interesting hardy plants grown; their graceful habit, profusion of bloom and great variety of color make them invaluable for the garden.

1150 ASTERS, Perennial Sorts (Michaelmas Daisies). We have in this class some of the most showy, beautiful and interesting hardy plants grown; their graceful habit, profusion of bloom and great variety of color make them invaluable for the garden.

1155 Finest Mixed. New hybrids. Large ......................... oz. $1.50 10

1170 Parmelinae. White, free-flowering ........................................ 10

1180 Pyramidalis hybrida. Fine blue shades ......................... oz. 10

1185 Townsendi. Large lilac-pink ......................................... oz. 25

AUBRIETIA. Pretty evergreen trailer. One of the brightest and freest flowering plants of early spring; they are adapted to rockwork, border and pot culture. Hardy perennial.

HOLLYHOCK, One of the oldest garden favorites, which rank among the finest of our annual flowers. The beautiful flowers, of almost every shade and color, and tall spikes are very striking. Seed sown in February and potted on will bloom the same season, and July-sown seed, the next season. They require a dry, deep rich soil to successfully stand our winters; wet, heavy soils are sure death to them. Hardy biennial. 6 ft.

4240 Variegated Foliage, Finest Mixed. Brilliant colored flowers. 2 ft. 3 oz. 15c. 

MATHIOLOA bitornis (Evening-scented Stock). Old-fashioned annual; very desirable for the fragrance of the purplish lilac flowers during the evening. 1 ft. 3 oz. 30c. 

4245 Golden Ball. Golden yellow, quilled. 6 oz. 2. 
4250 Grandiflora fi. pi. Double; white. 6 oz. 1.50.
MIGNONETTE (Reseda). The most popular and favorite annual for garden and house culture, producing quantities of delicious, fragrant spikes or flowers. If the plants are thinned out to 6 inches apart, and the tops pinched off when about 2 inches high, stronger plants, with larger spikes of flowers, will be obtained.

420 Grandiflora. The old-fashioned, sweet-scented variety, with large flowers. 05

4300 Fottler's Eclipse. Very fragrant variety, producing in great profusion enormous spikes 10 to 15 inches long; superior to all other sorts for winter growing, exhibition or cutting. Seed grown under glass. 05

4306 Defiance. Large spikes, with individual florets of immense size; very fragrant. 05

4315 Excelsior. Large coppery red spikes. 07

4320 Giant Pyramidal (Crimson Giant). Large reddish spikes. 03

4325 Goliath. Large spikes of bright red flowers: excellent. 07

4330 Machet. Large thick spikes, and very fragrant; one of the best for pots. 07

4335 —Golden. Thick massive spikes of golden yellow; fragrant flowers. 07

4337 —White Pearl. Large white; fragrant. 07

4340 Miles' Spiral. Long spikes; sweet. 07

4345 Parsons' White. Large white; sweet. 03

4350 Prizetaker. Large, fragrant deep red. 07

4360 MIMOSA pudica (Sensitive Plant). Remarkably interesting and curious plant, with finely cut foliage, which closes up if touched or shaken. Tender perennial, usually treated as an annual. 10 ft. 05

4400 MIMULUS. Showy and profuse flowering plants, with handsome flowers, excellent for pots or garden; they thrive best in rather shaded, moist situations. They bloom early from seed, and are treated as annuals. July to October.

NASTURTIUM Liliput, Finest Mixed.

Smaller in every respect than the Tom Thumb, the dainty flowers in the most showy and varied colors produced in the greatest profusion.

NASTURTIUM majus, or Running Varieties. These are the large flowered climbers for verandas, trellises and covering unsightly places. The seed pods picked when green and tender are used for pickling.

4615 Collection of Twelve Colors 40

4620 Fottler’s Special Mixture. In greatest variety. 4 ozs., 50c.; oz., 15c.

NASTURTIUM, Lobbanium Varieties. These differ from the Majus, or Tall Nasturtium, in being more free-flowing, richer and brighter in color, and with darker foliage, and are superior for house or conservatory, also vases, baskets, etc. Are a mass of color from early summer till frost. Do not require good earth or much attention.

4770 Golden Queen. Clear golden yellow. 25c.

4775 Geant des Batallas. Sulphur, with red. 25c.

4780 Ivy-leaved. Blush green, ivy-like foliage, blood-red striped flowers. 40c.

4785 Lucifer. Deep scarlet, dark foliage. 25c.

4790 Margaret. Straw, crimson spots. 25c.

4794 Mercier, Lacombe. Purplish violet. 25c.

4795 Monsieur Colmet. Dark brown. 25c.

4796 Napoleon III. Golden, brown spots. 25c.

4800 Perpetual-flowering. Brilliant crimson. 25c.

4805 Primrose. Cream, brown spots. 25c.

4810 Regina. Beautiful salmon. 25c.

4811 Roi des Noirs. Blackish maroon. 25c.

4815 Rudolf Virchow. Ruby rose. 40c.

4820 Spitfire. Bright scarlet; splendid. 25c.

NASTURTIUM, Madam Gunter Hybrids.

4825 Finest Mixed. A new climbing strain which, for richness and variety of color, has no equal. The foliage is most dark and four varieties striking contrast with the rich colors and shades, many of which are new.

### NIGELLA, MISS JECYLL
PANSIES. Our seeds of this universal favorite are from the most noted European growers. The choice strains being unsurpassed for size and form of flower, beauty of markings, brilliancy and variety of colors and shades. For early spring blooming the seed must be sown in July and transplanted into frames. Spring-sown seed will produce fine blooms in summer and fall. Hottest cow or sheep manure are the best fertilizers for them, the soil cannot be made too rich with either; moisture is necessary, and they should not be allowed to get dry during hot weather; shelter from strong winds and midday sun.

Schlegel's Triumph Exhibition. The size, beauty, brilliancy and richness of color are most striking and very rare and new tones of red and brown are met with in this strain. oz., $1.25 oz., $2.25 50

Fottler's Special Mixture. A superior mixture, selected from choice, large-flowering strains of English, French and German growers. $6. 25

Bugnot's Superb. Very beautiful class; extra large flowers of the handsomest and rarest colors. $2 oz. 25

Belgian Blotched. Beautifully blotched, striped and mottled flowers in finest colors. $2 oz. 25

Cassier's Giant Odor. A very showy and rich strain, saved from very large and beautiful flowers. 6 oz. 25

English Prize Show. A selected strain of the largest flowering sorts, in a great variety of choice colors. $4 oz. 25

French Stained. Very large flowers, beautifully stained in choice colors. $2 oz. 25

Giant Trimardeau. Fine class of vigorous growth and flowers of enormous size. $2 oz. 25

Masterpiece. Frilled edged, giant flowers of choicest colors. $5 oz. 25

PELARGONIUM. See Geranium.

PENTSTEMON. One of the most valuable classes of perennials for producing a mass of bloom during the summer months, and includes almost every shade of color. They bloom the first season from seed, and need protection in winter. June to Oct., 2 ft. to 3 ft.

Hybridus grandiflorus. Newest large-flowered varieties. oz. 3.

Gloxinia-flowered. Large gloxinia-like flowers in great variety of colors. oz. 4.

Atropurpurea. Purple, white throat. oz. 1.

Digitalis. White, violet tint. oz. 75.

Lobeli. Splendid yellow. oz. 4.

Murrayanus. Scarlet; fine oz. 1.

PERENNIAL PEA. See Lathyrus.

PERILLA atropurpurea laciniata. Dark brown purple fringed foliage: very ornamental and handsome. Hardy annual. 2 ft. oz. 25.

PETUNIA. These are unsurpassed as a house plant, or for outdoor growing. Their richness and variety of color, profusion and duration of bloom, together with their easy culture, will always render them popular. Hardy annual. 1 to 1½ ft.

Striped and Blotched. Beautiful strain of finest colors. oz. 1.50.

**SCHLEGEL & FOTTLER Co.**

_Gentlemen—Having used your Flower and Vegetable Seeds for over twenty years, I cannot recommend them too highly. I have purchased seeds from nearly all the large seed merchants in the United States, and can truthfully say that your seeds have given me better satisfaction than any I have ever used. Wishing you many more years of prosperity, I am_

_Respectfully yours,_

DAVID WEIR, Supt. of Faulkner Farm, Brookline.
ORNAMENTAL GRASSES

For borders and ornamental gardening: also, when dried, for winter bouquets and decorations, for which purpose they should be gathered before fully matured.

Mixed Flower Seeds for Wild Gardens

The introduction of "Wild Gardens" has proved a marked success; and we are constantly in receipt of the most satisfactory evidence of the estimation in which they are held wherever they have been tried. Any one who has cultivated flowers knows the constant attention necessary in the care of well-laid-out beds and borders to produce the desired effect. To those who cannot give this care, the "Wild Garden" presents a substitute, which, for its unusual and varied effects, cheapness, and the small amount of labor necessary for its construction, has no rival. "Wild Garden" seeds are a mixture of over one hundred varieties of flower seeds, and, being mixed together, can be offered at a much lower price than when sold in separate packets. No one who has not seen such a bed can form any idea of its possibilities, the different seasons of bloom insuring something new almost every day.

SUTTON'S SPECIALTIES IN FLOWER SEED

LILIUM PHILIPPINENSE

Very large, pure white, trumpet-shaped, gardenia-scented Lily from the Philippines, about 2 feet high, with wiry stalks, long, narrow leaves, and producing one to three flowers in ten to twelve weeks when planted outside. 25 cts. each, $2.50 per doz., $15 per 100.

A special importation for summer blooming to arrive first of March.
Summer-Flowering Bulbs and Tuberous Roots

ACHIMENES

One of the finest summer-blooming plants for house or conservatory, giving handsomely colored flowers of many shades and colors. Named Varieties. 75 cts. per doz., $5 per 100.

ACIDANTHERA BICOLOR

Most valuable of all the Cape Bulbs for beauty and fragrance of the flowers. They grow about two feet high, with graceful flower-stalks, each stalk having from four to eight beautiful creamy white flowers with a purple-maroon blotch at the base of the petals. They may be forced in winter like gladioli, but better results will be had by planting in the open ground about June 1, when they bloom freely during August and September. The bulbs must be kept very warm through the winter. 15 cts. each, $1.50 per doz.

AMARYLLIS

These are the best suited for pot culture, and when established they should bloom every year; after blooming they make their growth and should have occasional waterings with liquid manure till about September, when they should be allowed to rest and given very little water. A soil composed of loam, leaf-mold and sand should be used and good drainage given.

Aulica platypetala. Large, handsome flowers of a glowing crimson, tipped with green. 75c. each, $7.50 per doz.

Belladonna Major. Silvery white, flushed with rose; beautiful and fragrant. 15 cts. each, $1.50 per doz.

Hall (Lycoris Squamigera). Hardy variety with fragrant rosy lilac flowers in August, foliage produced in spring disappears in June. 50 cts. each, $5 per doz.

Formossissima (Jacobean Lily). Brilliant dark crimson. 15 cts. each, $1.50 per doz.

Johnstoni. Fine red, with white stripe through each petal. 40 cts. each, $4 per doz.

Vallota purpurea (Scarborough Lily). Rich, bright scarlet flowers in a cluster, blooming in summer and autumn; this is the variety so much seen growing in tubs on lawns. 30 cts. each, $3 per doz.

Vittata Hybrids. Large-flowered varieties with striped petals. 75 cts. each, $7.50 per doz.

Zephyranthes rosea (Fairy Lily). Beautiful rose-pink. 5 cts. each, 50 cts. per doz., $4 per 100.

ANEMONE, FRENCH

These are also known as the Roman Anemone, and if planted outside in early spring will make a fine display in early summer of large poppy-like flowers in bright and beautiful colors. Plant 2 to 3 inches deep and 6 to 8 inches apart.

Single Mixed Colors. 20 cts. per doz., $1 per 100.

Double Mixed Colors. 25 cts. per doz., $1.50 per 100.

BEGONIA (Tuberous-Rooted)

Our assortment is from one of the most noted continental growers. The distinctive features of this strain are the dwarf, sturdy habit and erect flower stem, circular-shaped flowers of large size and rich colors, which for either private or exhibition purposes are superior to any strain offered.

Single. Deep Red, Orange, Rose, Scarlet, White, Yellow. 5 cts. each, 60 cts. per doz., $4 per 100, $35 per 1,000.

Double. Red, Rose, Yellow, White. 10 cts. each, $1 per doz., $7 per 100, $55 per 1,000.

Fringed, or Frilled. New and improved strain; the giant blooms have beautifully fringed, wavy petals. Single Dark Red, Pink, White, Yellow. Each $1.75 per doz., $12 per 100.

BESSERA ELEGANS

(Mexican Coral Drops)

Wonderfully free-blooming bulb, with long, narrow, grass-like leaves and slender flower-stalks, 1 foot high, carrying a loose umbel of flowers, each a scarlet bell marked with white lines. 5 cts. each, 50 cts. per doz., $3.50 per 100.

CALLA LILY (Richardia)

An old favorite and too well known to need any description. The only requisites for successful culture are rich soil and plenty of water when growing. By allowing them to rest through the summer an abundance of bloom may be had the following winter.

Elliotiana. Clear, deep canary-yellow; the best yellow variety. 75 cts. each, $7.50 per doz.

White Calla, or Lily of the Nile. The old and popular favorite. 25 cts. each, $2.50 per doz.

Spotted Leaf. Excellent for bedding. 10 cts. each, 75 cts. per doz., $5 per 100.

Yellow (Hastata). Light yellow flowers. 25 cts. each, $2.50 per doz.

CANNA DORMANT ROOTS

A class of plants for grand effects. Their rich and variegated-colored leaves, combined with large and beautiful flowers of brilliant color, make them very desirable for planting in groups on the lawn, or singly in beds. Keep the roots in a warm, dry place through the winter.

Robusta. Very dark foliage; robust grower, 6 to 8 feet. 10 cts. each, $1 per doz.

Large-flowering French Mixed. Finest varieties. 10 cts. each, $1 per doz.
GROWING CANNA ROOTS
Selected Large-flowering Varieties
3½ to 5 ft. high, according to season and soil, 15 cts. each, $1.50 per doz. By mail, 5 cts. each extra
Alsace. Sulphur changing to creamy white.
Beaute Poitevine. Large dark crimson.
Chas. Henderson. Fine crimson.
Cinnabar. Cinnabar red, golden edge.
Egerland. Soft currant red, bronze foliage.
J. D. Cabos. Rich apricot, dark foliage.
J. D. Eisele. Vermilion-scarlet, overlaid with orange.

CALADIUM ESCULENTUM
One of the most beautiful of the ornamental-foliaged plants, either for culture in pots, or planting out on the lawn. They will grow in any good garden soil, and are of the easiest culture. The foliage is light green, veined with dark green, and the immense leaves are 3 to 4 feet long by 2½ feet wide.
Extra Large Bulbs. Four inches and over in diameter. 25 cts. each, $2.50 per doz.; postage 10 cts. each extra.
First Size Bulbs. Three to 4 inches in diameter. 15 cts. each, $1.50 per doz.; postage 5 cts. each extra.
Second Size Bulbs. Two to 3 inches in diameter. 10 cts. each, $1 per doz.; postage 4 cts. each extra.
Third Size Bulbs. One and one-half to 2 inches in diameter. 6 cts. each, 60 cts. per doz.; postage 3 cts. each extra.

CINNAMON VINE
(Dioscorea Batatas, or Chinese Yam)
A summer climber, with handsome glossy foliage; flowers possessed of a delicate cinnamon perfume; the root is hardy in deep, light soils. Large and selected roots. 10 cts. each, 75 cts. per doz., $5 per 100.

DAHLIAS
These summer- and autumn-flowering plants are more popular than ever. They should not be planted until the weather has become warm and settled in spring, and should be taken up before severe frosts in autumn. They require a sunny situation and rich soil, to bring out their full beauty. One shoot only should be allowed to each root. Roots should be kept in a warm, dry place during winter.

CACTUS DAHLIAS
The following are the finest sorts in cultivation and of the true Cactus form.
Alpha. White, speckled and striped crimson. 35 cts.
Antelope. Yellow, suffused with salmon. 50 cts.
Corollina. Soft Indian-red, large and distinct. 75 cts.
Dorothy Vernon. Crushed strawberry shades. 30 cts.
Eva. Pure white, neatly incurved. 25 cts.
Goliath. Canary-yellow, suffused salmon; large. 75 cts.

Giant Italian, or ORCHID-FLOWERING
6 to 8 ft. high, with immense flowers, 15 cts. each, $1.50 per doz. By mail, 5 cts. each extra
Allemania (Italia). Orange-scarlet, edged with yellow.
Austria (Burbank). Pure canary yellow, with red dots.
Mrs. Kate Gray. Rich orange-scarlet.
Pennsylvania. Intense vermilion-scarlet.

Madam Crozy. Brilliant scarlet, golden border.
Pres. Cleveland. Large intense scarlet.
Queen Charlotte. Bright scarlet, yellow edge.
Red Indian. Beautiful apricot, dark foliage.
Souv. d’Antoine Crozy. Scarlet, golden border.
CACTUS DAHLIAS, continued

Holsatia. Bright fiery scarlet, very fine. 50 cts.
Iceberg. Ivory and white, narrow petals. 30 cts.
Loyalty. Bright coral red. 25 cts.
Mrs. T. Cherry. Soft carmine-pink. 50 cts.
Mrs. D. B. Crane. Beautiful pure white. 75 cts.
Mrs. J. P. Mace. Large, delicate blush-pink. 65 cts.
Mrs. H. J. Jones. Scarlet, tipped white; large. 25 cts.
Pink Pearl. Soft rose-pink, blush-white. 50 cts.

Other choice varieties from 20 cts. each up. Large Dahlia Catalogue on application.

DOUBLE DECORATIVE DAHLIAS

Esmeralda. White, shading to deep pink. 50 cts.
Josephine. Large, rich, dark crimson. 25 cts.
Jeannie Charmet. Pure white, edged with pink. 60 cts.
Morocco. Rich purple, tipped white. 60 cts.
Mimos. Large, dark velvety maroon. 35 cts.
Mme. A. Luminere. Pure white, tipped violet-red. 60 cts.
Mme. Burel. Silvery lilac, crimson striped. 35 cts.
Mme. Van den Dael. Large, silvery pink. 30 cts.
Monsieur Hoste. Large, bright carmine-rose. 75 cts.
Source de Feu. Orange splashed with vermilion. 50 cts.
Sous Chef. Bright orange-red. 35 cts.

Other choice varieties from 15 cts. each up. Large Dahlia Catalogue on application.

DOUBLE SHOW DAHLIAS

Acquisition. Deep, rich lilac, large. 25 cts.
A. D. Livoni. Soft sea-shell pink. 15 cts.
Champion Rolo. Dark orange, large. 20 cts.
Dr. J. P. Kirkland. Large dark crimson. 15 cts.
Gloire de Mantes. Bright scarlet, extra fine. 25 cts.
Gloire de Lyon. Very large, pure white. 20 cts.
James Service. Dark crimson-maroon. 20 cts.
John Thorp. Light rose-pink. 20 cts.
Penelope. White, blushed with lavender. 15 cts.
Queen Victoria. Pure deep yellow. 15 cts.
Sirdar. Splendid large deep crimson. 30 cts.
Wm. Fawcett. Large, yellow edged purple. 15 cts.

Other choice varieties $1.50 per doz.

DOUBLE POMPON, or BOUQUET DAHLIAS

Catharine. Bright yellow. 15 cts.
Darkness. Dark maroon. 15 cts.
Eleganta. Soft pink, tipped deep pink. 15 cts.
Elf. Primrose-yellow. 15 cts.
Geo. Brinkmann. Pure white. 20 cts.
Hedwig. Reddish golden bronze. 15 cts.
John Lucas. Orange, red and white. 15 cts.
Mercury. Reddish salmon, tipped white. 20 cts.
Nellie Broomhead. Mauve on light ground. 20 cts.
Raphael. Maroon-crimson. 20 cts.
Vivid. Bright orange-scarlet. 15 cts.
Winifred. White, edged and tipped lavender. 15 cts.

Other choice varieties $1.50 per doz.

SINGLE-FLOWEREDED DAHLIAS

Named varieties from 15 cts. up. Large Catalogue of Dahlias mailed on application.

GLOXINIA (Large-Flowered)

Magnificent for house culture, producing in great profusion beautiful flowers of the richest and most beautiful colors. They succeed best in sandy loam and peat, and require a moist heat. After blooming, dry off gradually, let the bulb remain in the pot without water, and keep in a warm place until they show signs of starting again.

GROFF'S HYBRID GLADIOLUS

Of summer-blooming plants for general garden decoration, the Gladioli are deserving of special attention. Requiring but little room for growth, they are exceedingly useful for planting among shrubbery in the border, while for massing in large beds, where a brilliant and effective display is desired, they are invaluable. They succeed best in good loam, enriched with well-rotted manure. Bulbs should be planted about 3 in. deep and 6 in. apart. Our mixtures are made up from fine varieties, and are all selected, first-sized bulbs and sure to give the best results. If wanted by mail, add 10 cts., per doz. for postage.

**Shakespeare.** White, slightly suffused... 8.00

**Snow-White.** Large, white, ea. 20c. 2.00

**HYACINTHUS CANDICANS**

A magnificent species, with flower stems 3 feet high, bearing large, pure white flowers in July and August. It is perfectly hardy. 50 cts. each, 25 cts. per doz., $5 per 100, $15 per 1,000.

**IRIS GERMANICA** (German Iris)

They form a group unparalleled in beauty. Every shade of color may be found among them, and as they will thrive in almost any soil or situation they must be considered necessary in every garden. For the wild garden, shrubbery borders, margins of water, rockwork, etc., they are admirably adapted.

**Choice Varieties.** 15 cts. each, $1.50 per doz.

**Best Named Varieties.** 25 cts. each, $2.50 per doz.

**IRIS KAEMPFERI** (Japan Iris)

One of the most astonishing tribes of plants ever seen, both in its robust, free-blooming habit and in the superb loveliness of its immense flowers. These differ from the other Irises in having the blossoms broad and flat, like a Clematis; growing best in moist, rich soils.

**Choice Named Varieties.** 25 cts. each, $2.50 per doz.

**Choice Mixed Sorts.** 15 cts. each, $1.50 per doz.

**LILIES**

In the flower garden Lilies rank first in importance. They are stately and beautiful, matchless in form and variety of color, while possessing the most agreeable perfume, and for general effect they have no rivals. Bulbs should be planted 6 inches deep in a well-drained, deep, loamy soil made rich with thoroughly rotted manure, and an inch of clean sand placed under and over the bulbs when setting.

MONTBRETIA

One of the best and brightest summer-flowering bulbs, sure of becoming firm favorites wherever grown. Planted in clumps from April to June they produce numerous graceful spikes of brilliant star-shaped flowers. Hardy with protection.

Crocosmiaeflora. Brilliant orange-scarlet. 20 cts. per doz., $1 per 100.
Etoile de Feu. Vermilion, yellow center. 30 cts. per doz., $2 per 100.
Gerbe d'Or. Bright yellow. 20c. per doz., $1.25 per 100.
Germania. New; large flowers, over 3 inches across, of a rich glowing orange-scarlet, with blood-red throat. 60 cts. per doz., $4 per 100.
Potsii grandiflora. Orange and scarlet. 25 cts. per doz., $1.35 per 100.
Rayon d'Or. Yellow, brown spotted. 20 cts. per doz., $1.35 per 100.
Rosea. Salmon-rose. 25 cts. per doz., $1.75 per 100.
Transcendent. Orange and vermillion. 25 cts. per doz., $1.75 per 100.

PAEONIES

These have become indispensable in every garden. They are all hardy and admirably adapted to our northern climate, growing in almost all situations, and even flourishing under shade trees.

50 cts. each, by express

Carnea elegans. Blush, yellowish center.
Comte de Diesbach. Dark red or purplish crimson.
Denis Helye. Dazzling red.
Edulis superba. Clear flesh-pink with carmine tinge.
Eugenie Verdier. Rosy pink, blush center.
Faust. Delicate lilac-pink, yellow center.
Festiva maxima. Snow white, center flaked crimson.
Grandiflora. Bright pink.
Grandiflora alba. Large white.
Humei carnea. Pale rosy flesh.
L'Esperance. Pale rose spotted with carmine.
Louis Van Houtte. Brilliant satiny crimson.
Mad. Chaumy. Large satiny rose.
Marie Lemoin (Achille). Pale pink, almost white.
Officinalis rubra. Deep blood-red.
Queen's Perfection. Yellowish white.
Queen Victoria. Rosy white, center deep rose.

TREE PEONIES. These form in time shrubs 5 or 6 ft. high. $1 to $1.25 each.

MADEIRA VINE

A rapid-climbing plant, with beautiful wax-like, light green leaves and feathery white flowers, with a delicious fragrance resembling mignonette. The culture is simple; the roots need but to be planted, and a trellis or strings given the vine to climb on. 5 cts. each, 40 cts. per doz., $2.50 per 100.
MILLA BIFLORA

One of the loveliest and most desirable bulbs known. The flowers are borne on stems, two to three in number, of pure waxy white, and 2 inches in diameter. It will throw up as many as six flower-stalks from one bulb, and continue in bloom a long time. 5 cts. each, 50 cts. per doz., $3 per 100.

TIGRIDIA (Tiger or Shell Flower)

Extremely handsome, summer-flowering bulbs, growing about 2 feet high and producing freely throughout the summer large, gorgeous flowers exquisitely spotted. They require the same treatment as gladioli before and after blooming.

Conchiflora. Rich yellow, crimson-spotted center. 50 cts. per doz., $3.50 per 100.

Grandiflora alba. Pearly white, with yellow center, spotted with crimson. 50 cts. per doz., $4 per 100.

Pavonia grandiflora. Bright crimson; center spotted yellow. 50 cts. per doz., $3.50 per 100.

AQUATICS

The cultivation of Aquatics is of the simplest; their requirements are sunshine, water and plenty of rich soil. They are divided into two classes, hardy and tender; the former may be planted in ponds, lakes or sluggish streams, early in the spring, and, under the same conditions as our native Water Lily, they will grow luxuriantly and flower profusely the entire season; provide the same conditions in artificial ponds or tanks, and the results will be equally satisfactory. Plant the tender varieties at the approach of warm weather and when the water is warm. The plants can be grown in pots where protection can be afforded them until safe to transfer to summer quarters. The after-treatment is the same as for the hardy varieties. When grown in tubs only the moderate growers should be selected. In storing in tubs through the winter, they should be kept where it is not warm enough to excite growth or so cold as to freeze.

TUBEROSE

A bulbous plant of the easiest culture and most delightful fragrance, suitable for the summer garden or house culture throughout the year. They should be started early in pots, using good, rich, loamy soil, and when the weather is suitable, transplanted into the garden. The variety offered is the one most extensively grown, being much superior to all other sorts.

Excelsior Pearl. A superior strain, with very large double white flowers, produced in great abundance. Extra strong roots. 35 cts. per doz., $2 per 100.

ZEPHYRANTHES (Zephyr Flower)

These are among our most beautiful dwarf bulbous plants. Very effective for planting out in the border in May, flowering freely during the summer; they do best in a warm, sunny situation. They are also suitable for pot culture during the winter.

Rosea. Beautiful rose-pink. 5 cts. each, 50 cts. per doz.

HARDY VARIETIES

Nelumbiums 10 cts. and Nymphees 5 cts. extra, by mail

TENDER VARIETIES

Nymphaea Capensis. Rich sky-blue; 6 to 8 inches across. 75

Coerulea. Light blue. 75

Devoniensis. Brilliant rosy red; often 10 to 12 inches across. 75

Dentata. Large white, with long-pointed buds. 75

Rubra rosea. Rosy carmine; 8 to 10 inches across. 1.00

Zannibarense azurea. Deep, rich azure-blue; delicate fragrance. 75

Zannibarense rosea. Deep rose color. 75

Water Hyacinth (Eichhornia crassipes major). Floats on the surface of the water, and produces fine spikes of light, rosy lilac orchid-like flowers. $1.50 per doz.; each, by mail, 20 cts., 15
TENDER AQUATICS. continued

Water Poppy (*Limnocharis Humboldtii*). Flowers clear yellow; poppy-like. 15 cts. each; by mail, 20 cts.
Water Snowflake (*Limnanthemum Indicum*). In growth the plant resembles a water-lily, with leaves from 3 to 5 inches across; the flowers are about as large as a fifty-cent piece, white; the upper surface of the petals is covered with a delicate fringe. 20 cts. each; by mail, 25 cts.

Parrot's Feather (*Myriophyllum Proserpinacoideae*). Very graceful; its long, trailing stems are clothed with whorls of the most exquisite foliage. 15 cts. each, $1.50 per doz.; by mail, 20 cts. each.

Cyperus Papyrus (Egyptian Paper Plant). Produces a number of slender stems surmounted by dark green shining plumes. 25 cts. and 50 cts. each; by mail, 30 cts. and 60 cts.

### CARNATIONS

**STRONG PLANTS FOR SUMMER FLOWERING**

These are specially grown and selected from those introductions that give best results in producing flowers through the summer and autumn. They can be furnished in any color desired, or in assorted colors. Plants ready for delivery in April or May. 25 cts. each, $2.50 per doz.

### HARDY GARDEN PINKS

20 cts. each, $2 per doz.

- **Albino.** White flowers as large as a winter Carnation; free bloomer.
- **Emperor.** Rich red, clove-scented and finely fringed.
- **Grass, or Border.** Old-fashioned garden sort, with double pink flowers.
- **Homer.** Rich rosy red with darker center; fine.
- **Mrs. Sinkins.** Faint white hardy Carnation, very fragrant.
- **Souv. de Sale.** Large double flowers of a soft beautiful pink.

### CHRYSANTHEMUMS

Our collection of these beautiful fall-blooming plants embraces the best of the old and the newer introductions. 15 cts. each, $1.50 per doz.

**Hardy Chrysanthemums**

These beautiful small-flowered, old-fashioned, hardy varieties are very popular for outdoor planting. Our collection embraces all colors in the finest sorts. 15 cts. each, $1.50 per doz.
Flowering and Ornamental Hardy Shrubs

This class of plants does more for our gardens and grounds, to make them look attractive and homelike, than all other classes combined. It gives us beautiful foliage of many kinds, flowers from April to November, and clothes the lawn with that abundance of branches and leafage which is so necessary to any feeling of seclusion or privacy in our home grounds.

ALMOND, Double Pink. Very double, small pink flowers. May..........................$0.50
Double White. Like preceding, with white flowers. May..........................$0.50

ALTHEA, Double and Single. Handsome holly-bush-like flowers in colors of red, purple and white. September..........................35

Variegated Foliage. Leaves marked with yellow; flowers double, purple. September....50

CEPHALANTHUS occidentalis (Button Bush). Curious balls of blossoms on long stems. July..........................35
CHIONANTHUS Virginicus (White Fringe). Delicate, fringe-like, white flowers. May..........................50
CLETHRA alnifolia (Sweet Pepper Bush). Upright spikes of fragrant white flowers. July to September..........................35
CORCHORUS的日本fl.pl. (Kerria). Brilliant, double, orange-yellow flowers. June and July..........................35
CORNUS Florida. Large, white-flowering Dogwood May..........................50
Florida rubra. Large, deep rose-colored flowers. May..........................1.50

DEUTZIA crenata fl.pl. Double white flowers, tinged with rose. June..........................35
Creata alba fl. pl. Double pure white flowers. June..........................35
Gracilis. Round, dense bush, covered with snow-white flowers. June..........................35
Lemoeinei, New. Erect panicles of large, snow-white flowers. June..........................35

ELAEAGNUS longipes. Ornamental and edible-fruited shrub from Japan. July..........................35
EUONYMUS Americanus (Strawberry Bush). Deep scarlet berries. June..........................35
Atropurpureus (Burning Bush). Purple flowers in clusters, and scarlet fruit. May..........................35

EXOCHORDA grandiflora. Chinese shrub, with numerous clusters of pure white, starry flowers. May..........................50

FORSYTHIA fortunei (Golden Bell). Pendulous, trumpet-shaped, golden yellow flowers. April..........................75
Suspensa (Weeping Golden Bell). Weeping habit and showy yellow flowers. April..........................35
Viridissima. Stiffer and bush-like habit. Blooming in May..........................35

HAWTHORN, Paul's Double Scarlet. Brilliant carmine flowers; best double Thorn. May..........................1.00
Double White. Fine contrast to the preceding. May..........................1.00

HYDRANGEA nivea. Large, flat heads of white flowers, and heart-shaped leaves. July..........................35
Paniculata. Thickly studded with heads of single white flowers. September..........................35
Paniculata grandiflora. Immense, cone-shaped heads of white flowers, turning later to shades of pink and red, July to October..........................55 cts. and

We offer plants of this sort trained in tree form. July to October..........................75

ILEX verticillata (Black Alder). Glossy dark green foliage and bright crimson berries. The berries remain all winter..........................35

LILAC, Common Purple. An old favorite; fragrant, purple flowers. May..........................35
Common White. Like preceding, with fragrant white flowers..........................35
Charles X. Magnificent clusters of dark red flowers in great profusion. April..........................75
Dr. Lindley. Very dense clusters of violet-red; one of the finest. July..........................75
Frau Bertha Dammann. Producing the largest clusters of pure white flowers..........................75
Louis Van Houtte. Huge clusters of fine, bright red flowers..........................75
Ludwig Spath. Very large, and of a splendid dark purple-red..........................75
Leon Simon. Very large, double, bluish crimson; the buds are coral-red..........................75
Mad. Lemone. Grand, double white variety, with large foliage..........................75
HARDY SHRUBS, continued

LILAC, President Grevy. Immense spikes of double cobalt-blue flowers, with rosy edges $0.75
Persian. Light purple; more open habit and branches more slender and drooping than other sorts 50
Persian White. Pure white form of the above. 50
LONICERA Tatarica (Bush Honeysuckle). Profusion of sweet-scented pink flowers 35
Tatarica alba. Pure white-flowered sort of the preceding. May 35
Morrowii. Yellow flowers, followed by rich crimson fruit. All summer. 35

SHEMCE, Norw. 1½ to 2 feet 20 00
Select List of Hardy Perennial Plants

We would recommend those who have never undertaken the culture of Hardy Plants to commence with a few varieties most easily grown, and gradually increase their collections from season to season, and, our word for it, it will lead to a confession that there is nothing in the way of bedding-out or ribbon gardening which can compare in any way to the beauty and refined charm of this class of plants. We can furnish a good selection of Hardy Plants, which may be expected to give successional bloom throughout the spring, summer and fall months, and, if the choice is left to us, will take special care to select such varieties as afford the most satisfactory results.

Any sorts not listed can be furnished at lowest prices

Radicans variegata. Foliage variegated with white, yellow and pink................................ 35
ROSES

HARDY HYBRID PERPETUALS

The Rose is the one plant that needs no praise and little comment. Everybody knows the Rose, and no garden is ever satisfactory without it. The secret of success is simply this: Throw out the soil 2 feet deep, and put in any kind of manure 1 foot deep, incorporate it with earth a little, and then cover it with 4 inches or more of soil, then plant the Rose bushes firmly, and fill up with good soil. Roses should be planted very deep, except in very clayey soils.

The Rose-bed should be in the sun, if possible, and the surface be left little a little hollow, so that water may be put on in summer and settle to the roots. Such beds will be full of healthy bushes and glorious blossoms.

Strong, 2-year-old, dormant plants, 30 cts. each, $3 per doz., by express only

Alfred Colomb. Bright carmine-crimson, large and full.
American Beauty. Very fragrant, deep rose.
Anne de Diesbach. Large, clear bright carmine.
Baroness Rothschild. Rich satiny pink; excellent.
Baron de Bonstettin. Dark red, almost black; large.
Bole de Neige. Pure white, medium size.
Caroline de Sansal. Clear rose, darker in center.
Captain Christy. Deep flesh color, long bloomer.
Charles Leefvre. Brilliant velvety crimson; fine.
Clo. Flesh-color, rich pink center.
Countess of Oxford. Large, carmine-red.
Countess of Roseberry. Reddish salmon, splendid.
Coquette des Blanches. Pure white, very free.
Dr. Andre. Brilliant red, large and imbricated.
Duchess of Bedford. Fiery crimson, perfect form.
Duke of Albany. Velvety crimson, turning black.
HARDY CLIMBING ROSES

Baltimore Belle. Pale blush, nearly white. 50 cts. each.
Crimson Rambler. Immense clusters of double, deepest crimson flowers. 25 and 50 cts. each.
Dawson. Double, deep pink, in clusters. 30 cts. each.
Dorothy Perkins. New variety, with numerous clusters of double, fragrant flowers, a striking shade of shell-pink. 35 cts. each.
Empress of China. Fragrant bright pink flowers produced during the summer. 50 cts. each.
Gem of Prairie. Large, flat, double red. 50 cts. each.
Multiflora. Small, single, white, in clusters. 30c. each.
Paul’s Carmine Pillar. Large, single, brilliant carmine. 50 cts. each.
Setigera. Large, single, rose color. 35 cts. each.
White Rambler. White, double, in clusters. 25c. each.
Yellow Rambler. Double, light yellow, in clusters. 25c.

MISCELLANEOUS HARDY ROSES

Strong plants, 50 cts. each

Austrian, Harrison’s Yellow. Clear yellow.
Austrian, Capucine. Single orange-scarlet.
Austrian, Persian Yellow. Double rich yellow.
Baby Rambler. The dwarf ever-blooming Crimson Rambler; forms a compact bush about 2 feet high, with large trusses of bright crimson flowers from early spring until frost.
Mme. Georges Bruant. Pure white, ever-blooming, and beautiful foliage.
Rugosa. Large, single, deep red flowers all summer, followed by large, brilliant red fruit. The handsome, thick foliage is not troubled by insects.
Rugosa alba. White variety of preceding.
Soleil d’Or. A cross between Persian Yellow and Hybrid Perpetual; flowers are large and full, varying in color from gold and orange to reddish gold shaded with nasturtium red.
Sweetbrier, Hybrids. Single and semi-double flowers in a variety of colors, and fragrant foliage.
Wichuriana. A rapid grower of trailing habit, with single, pure white, fragrant flowers and handsome, glossy green foliage; largely used in Franklin Park.

TEA AND HYBRID TEA ROSES

Strong plants, 60 cts. each, $5 per doz.

We offer the leading well-tested varieties, which have proved most satisfactory for garden and house culture. They can be wintered safely by covering 6 to 8 inches deep with light, dry material.

FRUIT

APPLES

Bright, healthy trees are sent from the nurseries, and no others. If received, they should have one-half of last season’s growth cut back, and they will be sure to thrive. Nothing is so injurious to newly planted fruit trees, especially to those which have made a very vigorous growth the year before, and have long shoots of new wood, as to leave them full length. That is, the very best trees suffer most by leaving all the top on. Don’t be afraid to cut.

75 cts. each, $8 per doz.

SUMMER VARIETIES

Early Harvest. Yellow, medium size.
Early Strawberry. Red striped, small.
Golden Sweet. Greenish yellow, large.
Red Astrachan. Red, large.
Sops of Wine. Red, medium size.
Sweet Bough. Pale yellow, large.

CAPTAIN CHRISTY ROSE

HARDY MOSS ROSES

Strong plants, 50 cts. each

These require close pruning, and strong rich soil for best results.

Blanche Moreau. Pure white, constant bloomer.
Common Moss. Pale rose; a great favorite.
Comtesse Murinais. White, tinged with flesh.
Crested. Very fragrant, deep pink buds.
Gracilis. Deep pink, beautifully mossed.
Lanei. Clear red, free from mildew.
Little Gem. Double crimson, miniature variety.
White Bath. The finest white moss rose.

AUTUMN APPLES

Alexander. Red striped, large.
Fall Pippin. Greenish yellow, large.
Gravenstein. Red striped, large.
Late Strawberry. Yellow and red, medium.
Maiden’s Blush. Red, medium size.
Porter. Yellow, large.
Rome Beauty. Yellow and red, large.

WINTER VARIETIES

Baldwin. Red, large.
Ben Davis. Yellow and red, large.
Fameuse (Snow Apple). Red striped, medium size.
Hubbardston Nonsuch. Yellow and red, large.
King. Crimson, large.
Lady’s Sweet. Yellow and red, large.
Northern Spy. Yellow and red, large.
R. I. Greening. Greenish yellow, large.
WINTER APPLES, continued

Roxbury Russet. Medium to large.
Spitzenburgh. Red, medium, excellent.
Talman Sweet. Yellow, medium size.
Twenty Ounce. Striped, large.
Wealthy. Red, medium size; fine.
Winesap. Yellow and red, medium size.
York Imperial. Yellow and red, large.

CRAB APPLES

75 cts. each, $8 per doz.

Hyslop. Dark crimson; large.
Red Siberian. Red-striped; medium size.
Transcendent. Yellow and red; large.
Yellow Siberian. Yellow; medium size.

CHERRIES

75 cts. each

Belle d'Orleans. Yellow and red, large. June.
Bigarreau Napoleon. Yellow and red, large. July.
Black Tartarian. Purplish black, large. June.
Downer's Late. Lively red, medium. July.
Elton. Yellow and red, large. June.

PEARS

Remember that Pear trees must have rich soil. Never, however, put manure of any kind where it will touch the roots when a tree is first planted. It is sure death to it. Put it in the soil, near them, liberally, for Pear trees.

5 to 7 ft., 75 cts. each

SUMMER VARIETIES

Bartlett. Yellow, large.
Clapp's Favorite. Yellowish green, large.
Doyenne d'Ete. Yellow, red dots, small.
Souvenir de Congress. Yellowish green, large.

AUTUMN VARIETIES

Beurre Bosc. Russet color, large.
Beurre Hardy. Greenish russet, large.
Flemish Beauty. Yellowish green. large.
Howell. Light yellow, large.
Louise Bonne. Yellowish green, small.
Seckel. Yellowish russet, small.
Sheldon. Russet-yellow, medium size.

WINTER VARIETIES

Anjou. Russety yellow, large.
Clairgean. Yellow and red, large.
Dana's Howey. Yellow, russet-netted, small.
Duchesse d'Angouleme. Yellow, large.
Lawrence. Yellow and red, medium.
Vicar. Pale yellow, large.
Winter Nelis. Yellow and red, medium size.

PEACHES

Keep the leading branches well pruned back, and in the spring prune back all shoots of the previous year's growth, thus insuring sound and well-furnished heads with bearing wood. Weak shoots being reduced one-half and stronger ones to one-third up, being careful to retain an adequate supply of fruit-buds. Keep the ground clean and well worked about the trees, and give an occasional dressing of wood ashes.

25 cts. and 50 cts. each

Champion. Creamy white, red cheek; large. August 1.
Crawford's Early. Yellow and red; large. August.
Crawford's Late. Yellow and red; large. September.
Crosby. Yellow; freestone. September.
Early York. Red; medium; August.
Elberta. Large; light yellow. August.
Foster. Yellow and red; large. August.
Hale's Early. White and red; medium. July.
Oldmixon Free. White and red; large. September.
Smock Free. Orange and red; large. October.
Stump the World. White and red; large. Sept.

PLUMS

The growth of the Plum tree is better understood by cultivators, thorough culture and careful attention to the destruction of the black knot and curculio being the most essential points to consider.

5 to 6 ft., 75 cts. each

Coe's Golden Drop. Yellow; large. September.
German Prune. Blue; medium. September.
Lombard. Violet-red; medium. September.
Shropshire Damson. Purple; medium. October.

JAPAN PLUMS

These have quickly found favor among growers on account of their great vigor, freedom from disease, and the fact that they come into bearing two or three years after planting. They are of high quality, beautiful in appearance, and keep for an unusually long period after picking.

75 cts. each

Abundance. The fruit is large; amber in color, turning to a rich, bright cherry, and highly perfumed; flesh tender and of delicious sweetness. It ripens in August, and cannot be too well spoken for its adaptability to general cultivation.

Burbank. Clear cherry-red, with yellow dots; flesh deep yellow, rich and sugary. The tree is low and spreading, and an abundant bearer.

Wickson. A magnificent hybrid. A cross between Burbank and Kelsey, and thought to be the finest yet produced. Fruit large, dark, showy and of the highest quality. Free, most vigorous and prolific.

QUINCES

50 cts. each

Apple, or Orange. Large, roundish; bright golden yellow; very productive. Early to late.
Champion. Large; yellow; very productive, and ripening very late.

Rea's Mammoth. Large; yellow; one of the best. Early,

- Willow, Kilmarnock. $1 each.

**FRUITS**

**BLACKBERRIES**

To keep a Blackberry bed in good productive condition, the old, weak and dead wood should be cut out every season to give strength to the young shoots for the next year's bearing. In spring the weakest suckers should be removed, leaving five or six of the strongest in each hill; the ground should be spaded and a top-dressing of manure given. Rows 5 feet apart and plants 4 feet apart in the rows.

$1 per doz., $5 per 100

- Eldorado. Extra fine and very hardy; large, sweet berry.
- Eric. One of the best; large and productive. Early.
- Kittatinny. Large; one of the best. Medium.
- Lawton. Large, sweet, fine. Late.
- Snyder. Medium size, very fine. Medium.
- Wilson, Jr. Large, excellent. Early.

Rio. A good early sort and large for an early berry, fine flavor, firm and colors evenly.

Sample. (P) Large, bright scarlet; very prolific and fine quality.

Success. Large, round, bright scarlet, flavor always fine. Early.

NEW STRAWBERRY

Barrymore. Awarded silver medal and three first premiums by the Massachusetts Horticultural Society, in 1900. A great berry for all purposes. Large size, rich, dark, glossy crimson color; conical shape; flesh red and quality excellent. Medium. 80 per doz., $20 per 100.

NEW EVERBEARING STRAWBERRIES

Pan-American. A most persistent bloomer from May till November. It is better to nip off the first stems as more will appear, and they will continue to appear all summer and fall. In 25 or 30 days from the time we stop removing the blossoms we will get ripe fruit. The fruit is of good size and nice quality. Some single plants will bear a quart of fruit or more. With a little protection on cold nights, they will continue to bear until almost Thanksgiving time. 25c, ea., $2 per doz., $12 per 100, by express.

The Autumn. A strong, healthy, vigorous plant, which makes a lot of runners. The parent plant produces an enormous crop of medium-sized, handsome fruit, perfect in shape and very dark colored, in August, September and October. As this is a pistillate variety, it should have some Pan-Americans grown with it to fertilize its blossoms. 85c per doz., $8 per 100, by express.
Garden Requisites, Florists’ Supplies, Etc.

Asparagus Buncher. Makes bunches of the size generally sold in the Boston market. $2 each.

Asparagus Ties (Raffia). 20 cts. per lb.

Asparagus Knife. American, 25 cts. each; Granite state, 40 cts.; by mail 50 cts. (Fig. 1.)

Baskets, Marston’s Verbenan. Wire handle attached. 10 in. long, 5 in. wide, 3 in. deep. $2 per 100, $18 per 1,000.

Baskets, Marston’s Verbenan. Adjustable wooden handles, with tin fastenings on the ends. 10 in. long, 5 in. wide, 3 in. deep, 12 per 100, $18 per 1,000. (Fig. 2.)

Baskets, Marston’s Large Size. 12 in. long, 7 in. wide, 4 in. deep. $3 per 100, $25 per 1,000.

Baskets. For holding leaves. 4 bushels. $1.75.

Baskets, Rustic Hanging. Made from natural roots and knots, varnished. 8 in., 75 cts. each; 10 in., $1 each; 12 in., $1.50 each; 14 in., $1.75 each.

Baskets, Wire Hanging. Either flat or round bottom. 6 in., $2 per doz.; 7 in., $2.25 per doz.; 8 in., $2.50 per doz.; 9 in., $2.75 per doz.; 10 in., $3 per doz.; 11 in., $3.50 per doz.; 12 in., $4 per doz.; 14 in., $5 per doz.

Baskets, Orchid. Square; made of best seasoned cherry. 6 in., $3.50 per doz.; 8 in., $4 per doz.; 10 in., $4.75 per doz.; 12 in., $5.50 per doz.

Bellows, French. For applying sulphur, hellocure, insect powder, etc., to plants. No. 1, $1.50; No. 2, $2. (Fig. 3.)

Bellows, American. In three sizes. No. 11, 75 cts.; No. 16, $1; No. 19, $1.25.

Bill Hooks. For heavy pruning. No. 2, $1.50; No. 3, $1.75.

Brushes, Caterpillar. 25 cts. each.

Brushes. For destruction of gipsy moth and brown-tail caterpillars. $1.25 each.

Brushes. For applying creosote to destroy eggs of the gipsy moth. 25 cts. each, $2.50 per doz.

Brooms. For use in stables, greenhouses, etc. Two sizes. 60 cts. and 70 cts. each.

Boxes for Cut-flowers. We keep the following sizes in stock: 100 cts. can be furnished at short notice. (Fig. 4.)

No. | Length | Width | Depth | Price per doz.  
--- | --- | --- | --- | ----
1 | 15 inches | 5 inches | 3 inches | $0.25 $1.80
2 | 2" | 3" | 3" | 40 50
3 | 24" | 5" | 3" | 45 2 75
4 | 15" | 6" | 2 1/2" | 50 3 00
5 | 21" | 7 1/2" | 3 1/2" | 55 3 50
6 | 24" | 8" | 4" | 60 4 50
7 | 28" | 8" | 5" | 85 6 00
8 | 35" | 8" | 5" | 1 00 7 50

Burlap. For putting around trees to trap gipsy moths. 10 in. wide, 5 cts. per yd., 100 yds., $2.50; 40 in. wide, 9 cts. per yd., piece about 100 yds., 8 cts. per yd.

Burning Brands. For marking tools, etc. Six letters or less, $1.75; each additional letter, 25 cts.

Canes, Bamboo. 6 to 8 ft. long. $5 per 100.

Carnation Support, Model Extension. Made of heavy steel wire. $3 per 100, $27.50 per 1,000.

Carnation Support, Excelsior. Made of galvanized wire, strong and durable. In two sizes. 13 in., $1.25 per 100; 20 in., $1.40 per 100. The two lengths make a complete plant support.

Coal Tar. For covering scars made by removing large limbs from trees. 25 cts. per qt., 50 cts. per gal.

Cotton Wadding. For florists’ use. In large sheets. 5 cts. each, 50 cts. per doz.

Cultivator, The Norcross Hand Garden. Does the work easier and faster than any wheel hoe. Made of first-class material. Light and durable. Weights but 3 pounds; 4-ft. handle. $1.25 each.

Dobbies. Steel points, wooden handle. 35c. ea. (Fig. 5.)

Edging Knife. American, 75c.; English, $1.50. (Fig. 7.)

Electric Tape. For mending hose. 25 cts. per coil.

Fern Pans and Saucers. These pans are made thin and strong, and the saucers very shallow. The pans are especially adapted for linings to porcelain and silver fern pans. Dimensions given are outside measurements.

**Forks, Weeding.** Hand-weeding, or strawberry. Small, 35 cts. each; large, 50 cts. each.

**Fruit Picker, Heavy Wire.** Can be attached to pole of any length. 35 cts. each.

**Fumigator, Perfection.** The neatest, most durable and most practical fumigator ever offered. By following the directions this fumigator will last for years. No. 1 holds one peck of stems; $3; No. 2 holds ½-bushel of stems, $3.50; No. 3 holds ¾-bushel of stems, $4; No. 5 holds 1½-bushel of stems, $5.50.

**Garden Rollers.** These are now considered almost a necessity in the making of a good lawn. In the spring, after the freezing and thawing season, the ground becomes uneven and porous, reeding from the grass roots. If allowed to settle of its own accord, the lawn is left rough and the grass is liable to die. If pressed back firmly and evenly with a lawn roller, the changes for a new, velvety lawn are much more favorable. The rollers which we offer are turned perfectly smooth on the outer surface; the edges are bevelled, and they have steel axles with rigid handles. We carry in stock two sizes only but can furnish others.

**Garden Wheelbarrows, Ames.** Best quality; strong, well-braced and attractively painted. No. 2, $3.60; No. 3, $3.80; No. 4, $4; No. 5, $4.70.

**Garden Lines.** Braided and made of best material; will not kink. 100 ft. 75 cts.; 200 ft. $1.35.

**Garden Reels.** For garden lines. Small, 50 cts. each; large, 75 cts. (Fig. 8.)

**Grafting Wax.** A superior article. It is neatly put up in pound, half-pound and quarter-pound packages. 1¼lb. 10 cts., 1b. 30 cts.

**Glass Cutters.** 15 cts. each.

**Gloves.** Garden and pruning. 75 cts. to $1.50 per pair.

**Grass Hooks, or Sickles.** English, 50c. each. (Fig. 41.) Blue Ribbon, 50 cts.

**Glaziers' Points, Peerless.** Made of steel wire and galvanized. 60 cts. per box of 1,000; by mail, 75 cts. Pincers for driving, 40 cts.; by mail, 50 cts.

**Glaziers' Points, Siebert's.** Made of zinc; they will not rust. Made in two sizes, ½ and ¾ in. long. Each size, 40 cts. per lb.

**Glazing Machine.** $1.25 each.

---

**GARDEN WHEELBARROW**

**GARDEN ROLLERS**
Garden Requisites, Florists’ Supplies, Etc., continued

Hose Nozzle, Boston Rose Spray. For the greenhouse, flower garden, bathed lawn, etc. Having a flat face, it throws the water straight ahead and does not spread it too much. Made of brass. 65 cts. each; by mail, 75 cts. each. (Fig. 10.)

Hose Nozzle, The “Deming-Vermorel” Spray. Simple in construction and throws a finer spray than any nozzle in use. ¾-inch pipe, $1; reducer for ¾-inch connection, 25 cts.

Hose Nozzle, Fairy. Will throw either a spray or single stream. 75 cts. each.

Hose Nozzle, Bordeaux Spray. 75 cts. each; with reducer for ¾-inch hose, $1.

Hose Nozzle, Greenhouse Spraying. Made of heavy brass. For ¾-inch hose, 3-inch face; 4-inch face, $1; shut-off connection, 75 cts.

Hose Nozzle, Knox Spray. Adjustable and specially designed for spraying the under side of leaves. Will also throw a straight stream. $1.25 each; by mail, $1.35.

Hose Nozzle, New Boston. Will throw a coarse or fine spray, or a large or small stream, as may be desired. Small, 50 cts. each; by mail, 60 cts. Large, 75 cts.; by mail, 90 cts. (Fig. 11.)

Hose Nozzle, St UPPER S Spraying. Fitted for ¾-inch hose connections. Single, $1 each; double, $1.25 each; by mail, 10 cts. additional.

Hoes, Onion. Round or square top. 45 cts. each.

Hoes, Arlington Scuffle, Handled. 5-in., $1.25; 6-in., $1.25; 7-in., $1.40; 8-in., $1.50; 9-in., $1.65; 10-in., $1.85.

Hoes, Scuffle, Common. Handled. 6-in., 50 cts.; 7-in., 55 cts.; 8-in., 60 cts.; 9-in., 65 cts. (Fig. 20.)

Hoes, Daisy Scuffle. 6-in., 35 cts.; 8-in., 40 cts.

Hoes, Garden or Square. Shank 6- to 8-inch, 45 cts. each. Socket, 6- to 8-inch, 55 cts. each.

Hose Couplings. 25 cts. per set.

Hose Couplings, Snap. More hose is ruined by being left out, exposed to the sun and weather, than by wear. Snap couplings pay for themselves and save hose by making it easy to uncouple the hose and place it under cover. 35 cts. per set; female ends, 20 cts. each; male ends, 15 cts. each; by mail, 3 cts. additional for each part.

Hose Menders, Hudson’s. Boxes containing 6 menders. 20 wires and 1 plier, 75 cts.; by mail, 90 cts. Menders for ¾-inch hose, 35 cts. per doz.; by mail, 40 cts. Menders for ¾-inch hose, 45 cts. per doz.; by mail, 50 cts. Pliers, 25 cts. each; by mail, 35 cts. Wires, 15 cts. per doz.

Hose Menders, Cooper’s. A simple, practical mender made of heavy brass, which will not wear or rust out; requires no wires or pliers to adjust it. 10 cts. each; for 25 cts., 75 cts. per doz.

Hose, Rubber. The hose we offer is of the best manufacture. We keep no second grade. S. & F. Co.’s Samson, ¾-inch, 7-ply, 14 cts. per ft.; ¾-inch, 7-ply, 16 cts. per ft.

Hose Reel, all Iron. Light, strong, durable. No. 10 for 100 ft., $3; No. 20, for 150 ft., $5.50; No. 30, for 400 ft., $5.

Insect Powder Gun, Cyclone. 10 cts. each.

Insect Powder Gun, Jumbo. 20 cts. each.

Ink, Indelible. For marking on zinc labels. Small bottles, 20 cts. each, large, 35 cts.

Knives, Budding and Pruning. Saynor’s and Weston-holm’s; various styles. 75 cts. to $1.50 each. (Figs. 13, 14 and 15.)

Knives, Budding. Twin brand. 75 cts. to $1.25 each.

Knives, Grafting and Chisel. Small. 50 cts. each; large, 75 cts.

Lawn Sprinkler, Fountain. Made of brass. Easily moved over the lawn without turning off the water. $1.25 each; by mail, $1.40. (Fig. 9.)

Lawn Sprinkler, Columbia. One ft. high, 3 arms, $1.

Lawn Sprinkler, Enterprise. A very attractive sprinkler tinned and nickel-plated. Twelve inches high with four curved arms and so constructed that it cannot become clogged. $3.50 each.

Lawn Sprinkler, Evanston. Cannot clog. 50 cts. each.

Lawn Sprinkler, Niagara. Similar to the Fountain but covers a larger space. $1 each; by mail, $1.10.

Lawn Sprinkler, Twin Comet. Very useful on large lawns, thoroughly sprinkling an area of 40 to 60 ft. in diameter. Height, 17 inches. $5. (Fig. 17.)

Little Giant Duster, Improved. For distributing Paris green, London purple, heliobore, sulphur, lime, etc. $5.50 each.

Lawn Mowers

Essex Ball-Bearing. An excellent ball-bearing mower. The 11-inch drive wheels make it one of the easiest running mowers. The bottom, or cutting knife, being of the highest grade crucible steel, carefully hardened and tempered, and sharpened to a razor edge, supplies the other requisite to produce ease in operation. They cut within 1½ inches of an obstruction. 16-inch, $9.50; 18-inch, $10.50; 20-inch, $11.50; 22-inch, $12.50.
GARDEN REQUISITES, FLORISTS' SUPPLIES, ETC., continued

**LAWN MOWERS, continued**

**Chain Roller Mower.** Specially designed for borders and golf greens. Runs easily and will cut close enough to satisfy the most fastidious golfer. 12-in., $11; 14-in., $12; 16-in., $13.

**Philadelphia Lawn Mower, Style K.** Five blades, ten-inch wheel. Geared on both ends, 14-inch, $7; 16-inch, $7.75; 18-inch, $8.50; 20-in., $9.25.

**Philadelphia Lawn Mower, Style C.** Four blades, 8¼-inch wheel. Geared on both ends. 14-in., $10; 16 in., $6.75; 18 in., $7.50; 20 in., $8.25.

**G r a s s C a t c h e r s, The E. Z.** Sides and back are made of very strong canvas, the bottom of galvanized iron. No. 1 fits 12-, 14-, and 16-inch machines, $1.35 each. No. 2 fits 16-, 17- and 18-inch machines, $1.40 each. No. 3 fits 18-, 19-, 20- and 21-inch machines, $1.50 each.

**Townsend Triple Ratchet Horse Lawn Mower**

*Its Special Features*

Triple rolls (15 inches in diameter) with triple paws in each roll, making the most powerful and instantaneous driving mechanism ever put in a lawn mower.

This feature maintains the motion of the blades even in turning sharp corners, and forms a strong contrast with other double-roll mowers whose knives have no motion when turning corners.

A lever beside the driver enables him to cut any height from the ground, and to easily and quickly raise the blades over stones or other obstructions without stopping the horse or leaving his seat.

A slight movement of a small lever near the driver throws the mower in or out of gear without stopping the horse. A very spacious foot-rest prevents cramming of limbs, and accident through the feet slipping into the revolving cutters. It is made very strong and of the best materials, and finished in the most perfect manner. It will cut over rough and uneven ground, and stand rough usage. We consider it superior to any other mower ever built, and will refund the money to any customer dissatisfied after a trial. Furnished with seat, handles and shafts complete. 30-inch cut, $65; 38-inch cut, $80.

**Granite State, Style A.** The lightest, easiest running and longest wearing machine on the market. Constructed on entirely different principles from any other mower; the patented triple gears producing no wearing pressure upon the journals. A favorite for 35 years in cemeteries and parks, where it is frequently used without roll. Furnished with short brackets and without roll when desired. 14-inch, $6.50; 16-inch, $7; 18-inch, $7.50; 20-inch, $8.

**The S. & F.** This machine has for years been a popular one, and is acknowledged as superior to many so-called first-class mowers. They are guaranteed to do good service. We furnish this machine regularly with four blades. 14-inch, $3.50; 16-inch, $3.75; 18-inch, $4.

**Coldwell Power Lawn Mower**

For use on large lawns such as are found on golf links, parks and large estates. These lawn mowers are highly recommended. Besides being great savers of time and expense, the beneficial and beautifying results to the lawn obtained by the constant rolling of the heavy rollers is in itself sufficient to warrant their use.

**Style D.** Represented by illustration on page 95, is in every way the superior machine; simple in construction, powerful and strongly built. It consumes three-fourths of a gallon of gasoline per hour, and cuts a 40-inch swath. $1,500 f. o. b. factory.

**Style C.** Similar in construction to Style D, but lighter. Cuts a swath 40 inches wide, and consumes three-fourths of a gallon of gasoline per hour. This machine is specially adapted for use on grounds comparatively smooth and where the ground is not too heavy. $850 f. o. b. factory.

**Lawn Mowers, Repairing.** We employ only practical men to attend to this work, those who thoroughly understand their business, and we guarantee all machines repaired by us to do satisfactory work.

**Lawn Shoes, or Sandals, Baker's.** Consist of a steel plate turned up at the toe to protect the turf, with two securely riveted prongs that go in front of the horse's shoe and a clamp of Norway iron that sets up firmly to the heel. In ordering, send size of horse's shoe from heel to toe. Per set, with leather taps, $8; without taps, $6.

**Lawn Trimmer and Edger, Capitol.** Does what lawn mowers leave undone. It trims and edges the lawn with remarkable speed and perfection. $6.

**Labels, Wood.** For plants, trees, etc.

GARDEN REQUISITES, FLORISTS' SUPPLIES, ETC., continued

Labels, Zinc Garden. No. 7, 2¼-x¾-in., with hole for wire. 75 cts. per 100. Pointed No. 4, 5-x1-in., $1 per 100. No. 15, 4¾-x¾-in., 75 cts. per 100. No. 2, $1.25 per 100.

Labels, Copper. Made of copper and copper-wired, indestructible and always legible. No. 1, 3¾-x¼-in., $1 per 100. No. 2, 5-x1½-in., $1.50 per 100.

Links Lawn Boots. The toe is rolling, the bottoms waterproofed, hardened and steel riveted inside and out. Quickly and easily adjusted. No. 2, inside width, 5½ inches; No. 4, 6½ inches; No. 6, 7 inches. $10 either size, per set of four.

Machine, Glazing. $1.25 each.

Mole Traps, English. 35 cts. Reddick. 75 cts. (Fig. 16.)

Mats, Hotbed, Straw. Made by hand from the best rye straw, and in the most thorough manner. Size, 6 x 6 ft. $1.50 each. Special prices on large lots, and special sizes made to order.

Mats, Hotbed, Palmer. 76 x 76 inches. No. 1. Made of burlap, wool-filled and quilted. $1.35 each No. 2. Made with burlap on one side, and duck on the other, wool-filled and quilted same as No. 1. $1.60 each.

Mats, Archangel. Useful in protecting from light frosts, etc. 80 cts. each.

Mats, Singapore, Fiber. These are heavier than straw mats, but are said to be more durable. 82 cts. each.

Oil, Lubricating. For lawn mowers, etc. In oilers, ready for use. 20 cts. each; qt., 25 cts.; gal., 75 cts.

Paper, White, Waxed. Sheets, 14 x 18 inches. Lb. 30 cts., ream about 7 lbs. $1.50; sheets, 24 x 36 in., lb. 30c.

Paper, Green, Waxed. Sheets, 12 x 18 inches. Lb. 30 cts., ream about 7 lbs., $1.50.

Paper, Tarred. In rolls of about 20 pounds. Lb. 4 cts.

Pencils, Indelible Label, Wolf's. With point protector. Black or blue. 15 cts. each.

Plant Protector (Arlington). Valuable for use in early spring to protect young plants from insects. They also protect from light frost and wind $1.50 per doz. (Fig. 21.)

Plant Sprinkler, Tyrion. Bulb is made of soft rubber, the top of hard rubber, with detachable screw-cap. Straight and angle neck, each, 2c.; by mail, $1.10. The angle-neck sprinklers admit of sprinkling the under side of the foliage.

Plant Protecting Cloth for Hotbeds. Valuable for covering hotbeds and frames in spring instead of glass, and for throwing over bedding plants at night in fall; for chrysanthemum houses, etc. Medium grade, 10 cts. per yd.; by the piece, about 60 yds., 9 cts. per yd.

Plant Tub, Oak. Natural wood finish, with three strong hoops and good handles, and without feet. Measurements are from outside. Each.

No. 1. 12 in. in diameter by 11 in. deep. $1.25
No. 2. 14 in. in diameter by 12 in. deep. $1.45
No. 3. 16 in. in diameter by 13 in. deep. $1.95
No. 4. 18 in. in diameter by 15 in. deep. $2.25
No. 5. 20 in. in diameter by 17 in. deep. $2.65
No. 6. 24 in. in diameter by 20 in. deep. $3.40

Cedar Plant Tub

Coldwell's Motor Lawn Mower
Style "D"

Plant Stands, Adjustable. Made of cast iron, galvanized. No. 1, 6 inches high, extends to 11 inches, $1; No. 2, 12 inches high, extends to 24 inches, $1.50; No. 3, 24 inches high, extends to 45 inches, $1.75. Copper oxidized, No. 1, $1.50; No. 2, $1.75; No. 3, $2.25.
GARDEN REQUIRMENTS. FLORISTS’ SUPPLIES, ETC., continued

**Pump, Auto Spray.** Convenient, durable and efficient. Useful with Bordeaux and all solutions, also in applying cold water paints or white wash. No continuous pumping, as in the case of the Knapsack Sprayer. A few strokes of plunger compresses enough air to cover a quarter acre of potatoes or similar crop. The operator simply holds the nozzle. A practical machine for potatoes, small fruits, poultry houses, greenhouses, etc. Diameter, 7 inches; height, 2 feet; capacity, 4 gallons; weight empty, 7 lbs.; loaded, 35 lbs. No. 1, brass tank, $6.50. With "Auto-Pop," or automatic valve, $7.50. Extension pipe, brass, 2-3/4 ft. length, 10 ft. extra, $1 each; elbow, extension brass, 45 ft. each. Torch. $1. Copper strainer for No. 1, $1.

**Putty Bulb, Rubber.** For glazing greenhouse sash. $1 each; by mail, $1.

**Pruner, Waters’ Tree.** With 6-ft. pole, 85 cts.; 8-ft. pole, $1; 10-ft. pole, $1.75; 12-ft. pole $1.25; 14-ft. pole, $1.35; 16-ft. pole, $1.45; extra blades, 20 cts. each, $2 per ds.

**Pruner, Telephone, Tree.** Can be used on a pole of any length and operated with a cord. Sold without handles. $1 each; extra blades, 30 cts.; springs, 25 cts.

**Pump, “Success” Garden Spray.** An excellent pump for use in gardens, greenhouses, etc. It is furnished with Bordeaux nozzle, which throws a solid stream, fine or double spray, adjustable. $4 each.

**Pump, Johnson’s Champion Force.** It is made in a very durable manner, and cannot easily get out of order. The pump has a sprinkler, straight-stream nozzle and rubber hose attached. $4.50.

**Pump, Myers’ Spray.** Made of brass. Will throw a fine mist or coarse, as desired. $5. For spraying trees, an 8-ft. extension is furnished for 60 cts. extra.

**Pump, Kinney’s Atomizer.** For use in greenhouses to distribute liquid fertilizer or to mix or temper hot and cold water under water pressure, $1.50 each.

**Putty Twemlow’s Old English, Glazing.** Semi-liquid and elastic. A superior article for bedding glass in sash or for filling cracks or seams in roof joints or frames. It is used in machine or bulb, 1, 2 and 3 gallons, $1.25 per gal.; 5 and 10 lbs. per lb.

**Raffia.** The best material for tying, being very soft, pliable and strong. 20 cts. per lb.

**Rifle, Scythe.** Best quality. 10 cts.

**Rakes, Steel Garden, Long or Short Teeth.** 10 teeth, 45 cts. each; 12 teeth, 50 cts.; 14 teeth, 55 cts.; 16 teeth, 60 cts.; 18 teeth, 65 cts.

**Rakes, Gibb’s Lawn.** All steel; reversible; strong and light. 24 teeth. 50 cts. each.

**Rakes, English Daisy.** For lawns. $3 to $3.50 each.

**Saws, Pruning.** Superior quality. Single edge, 18-inch, 75 cts. each; 20-inch, 85 cts.; 22-inch, $1 Double edge, 18-inch, $1 each; 20-inch, $1.15; 22-inch, $1.25. (Fig. 19.)

**Saws, Pole, pruning.** $1.85 each.

**Sash for Hotbeds.** These are all made from thoroughly seasoned lumber, and glazed with double thick glass. Frame, 1 1/2 in. 3 x 6 ft., $5 each; 1 1/4 in., 3 x 6 ft., $5.25 each.

**Seed Sower, Cahouze’s Broadcast.** The best machine for sowing broadcast grass seed, oats, barley, etc. $3.50 ea.

**Seythes, English Lawn.** Broad blade. $1.40 each.

**Seythes, American.** 22- to 38-inch, 55 cts. each.

**Seythes, Snaaths.** Patent swing socket. 80 cts. each.

**Seed Drill, Eureka.** $1 each.

**Silkalene, or Smilax Thread.** Spools, 25 cts. each.

**Stones, Scythe.** Cycloane, New Red Stone and Gem. 10 cts. each. Talacor. 25 cts. each.

**Scissors, Flower.** For cutting and holding flowers. 4-in., $1 each; 6-in., $1.15; 7-in., $1.50. (Fig. 23.)

**Scissors, Grape, or Vine.** For thinning the bunch. Nickel plated, 6-in., $1 each; 7-in., $1.25. (Fig. 24.)

**Scissors, Pruning, or Rose Pruners.** Nickel-plated, 4-in., 75 cts. each; 5-in., $1; 6-in., $1.25. (Fig. 25.)

**Sieves, Wire.** For sifting loam, gravel, etc. Any size mesh, $1 each.

**Shears, Grass.** Best English, 5 1/2-in., $1.25; 8-in., $1.75; 9-in., $2; 10-in., $2.50. (Fig. 26.)

**Shears, Grass Border.** Long handle, 9-in. blade, $2.75 each; 10-in., $3. (Fig. 27.) Long handle, wheel, 9-in. blade, $3.25; 10-in., $3.50.

**Shears, Lawn.** With long handle. For cutting grass under shrubs, etc. With wheels, 9-in., $3.75; 10-in., $5. Without wheels, 8-in., $2.75; 9-in., $3; 10-in., $3.25.

**Shears, Grass or Sheep.** 35 cts. each. (Fig. 31.) True Vermont. 75 cts.

**Shears, Hedge or Grass.** English, pruning notch. 8-in. blade, $1.75 each; 9-in., $2; 10-in., $2.50.

**Shears, Hedge, Neverslip.** The feature of these shears is the serrated edge, running the entire length of one blade. Will cut without slipping. 9-in., $2.50; 10-in., $3.

**Shears, Pruning, Neverslip.** California pattern. 9-in., $1. With loop-grip, $1.50.

**Shears, French Pruning.** With wheel spring. The best pruner ever offered, polished. 8-in., $1.50 each; 9-in., $2; 10-in., $2.25. Extra springs, 30 cts. each. (Fig. 28.)

**Shears, Branch, or Lopping.** With long handles. No. 1, $3; No. 2, $3.50.

**Shears, Pruning, Taylor No. 7.** A good low-priced pruner. 50 cts. each.

**Shears, Ladies’ Pruning.** No. 17, fine nickel-plated, 6-in., $1.
Shears, Levin Pruning. 50 cts. and 75 cts. each.
Sod Cutter and Lifter. $3 each.

Sprayer, The Banner Compressed Air. This machine is adapted to all kinds of spraying, potatoes, trees, shrubs, etc. It is made of heavy brass with riveted seams, and will stand a heavy pressure. It holds 4 gallons. The pump is made of heavy brass and screwed into the center of the head with heavy brass screw threads. It is fitted with an adjustable shoulder strap, and provided with heavy hose and automatic brass shut-off, with a brass nozzle that will throw a fine, mist-like spray, or a solid, continuous stream 50 feet high. Careful directions for use with each machine. $6.50 each.

Sprayer and Atomizer, Compressed Air. Makes a continuous fog-like spray, which can be delivered at any angle. Brass. $2.25 each. Tin. $1.25 each.

Sprayer, Tennent's. These machines have glass receptacles, therefore will not rust or corrode. Small size for house use, 50 cts. Large size, holds about one quart. 75 cts.

Sprayer, Lightning No. 3. Made of brass. Plunger barrel measures 18 inches in length and reservoir holds about one quart. Adapted for all kinds of spraying purposes. 75c. ea.

**Lighting Sprayer No. 3**

Spraying Outfit, Barrel, Cart and Pump. Complete, including cart, barrel, and double acting perfect barrel spray pump, with 1-inch suction pipe. Strainer, two pieces 1/2-inch discharge hose, each 5 feet long; two graduated Vermorel nozzles and jet agitator. $23.50.

Shovels, Ames' Best. D. H. Square or round point. No. 2, $1.25 each.

Shovels, Merchants'. D. H. Square or round point. No. 2, 95 cts. each. Long handle, square or round point. 90 cts. each.

Spades, Merchants'. No. 2, D. H. 90 cts. each. No. 2, long handle, 90 cts. each.

Spades, Ames’ Best. No. 2, $1.25 each.

Stakes, Cane. 7 to 9 feet. $1.25 per 100. In bundles of 500, 85 per bundle.

Stakes, Bamboo. 6 to 8 feet. $5 per 100.

Stakes, Cane. Japanese Bamboo. Small, 5 to 6 feet. 20 cts. per doz., $1 per 100.

Stakes, Wire Rose. 3 ft., $1.25 per 100; 4 ft., $1.50 per 100; 5 ft., $1.75 per 100; 6 ft., $2 per 100.

**Stakes, Garden, painted green.** For house, greenhouse, conservatory, and light garden work where plants require support.

Stakes, Square. Unpainted, made of hard wood and neatly finished. 100 each, 1.00. 27 inches long. 100 each, 2.50. No. 36, “. . . . . . 40 each, 3.50. No. 48 “. . . . . . 50 each, 4.50.

Sticks, Match. Pine. 5-32 in. thick, 15 cts. per 100, $1 per 1,000.

**Syphics, Thomson's.** For preventing the bleeding of vines. Also used in grafting and budding. $1 per bottle.

**Syringes, Brass, Garden and Greenhouse.** We offer a variety of patterns for horticultural purposes.

No. 2. 1 1/2 in. long, 1 5-16 in. diameter, with one stream and two spray roses. $5 each.

No. 7. 18 in. long, 1 1/4 in. diameter, one stream and two spray roses, with knuckle-joint turning in all directions. $12 each.

No. H. 18 in. long, 1 3/4 in. diameter. $3 each.

No. G. 17 1/2 in. long, 1 1/4 in. diameter, one stream and one spray rose, side attachment and fixed elbow-joint. $5.50 each. (Fig. 30.)

L. Angle. 15 in. long, 1 7-16 in. diameter, one spray rose. $4.50. (Fig. 29.)

**Tape Lines.** 100 feet. $2.50 each.

**Tinfoil.** For bouquets, etc. Price variable. 15 cts. per lb. Violet foil, 60 cts. per lb.

**Thermometers, Wilder's.** Japanned tin case, convex scale. 6-in., 40 cts. each; 8-in., 50 cts.; 10-in., 65 cts.; 12-in., 75 cts. (Fig. 43.)

**Wilder's.** Japanned tin case, heavy. 8-in., 75 cts. each; 10-in., $1; 12-in., $1.25.

**Wilder's Fancy.** Each from $1.25 upward.

**Wilder's Hotbed.** Boxwood, brass-tipped. $2 each. (Fig. 44.)
GARDEN REQUISITES. FLORISTS' SUPPLIES, ETC., continued

Thermometers, Self-Registering. Oxidized metal scale. 8-in., $3 each. (Fig. 42.)
Plate Glass Window. 10-in., $1.50; 12-in., $1.75.
Incubator. 75 cts.
Tree Scrapers. 35 cts. and .55 cts. each. (Fig. 33.)

Truck, Combined Water Barrel. Leaf Rack, Hand Cart, Sprinkler
The barrel can be easily detached from truck either full or empty.
Truck and Barrel. 2½ inch tire, $1.12; 3½ in. tire, $1.2. Truck without barrel, but including one pair of trunnions, deduct $3. Extra attachments can be furnished, at desired, as follows: Hand-cart box, $3.25; leaf-rack, $5.50; sprinkler attachment for barrel, $3.50.

Trellis, Verandah. This is by far the most ornamental and substantial trellis made. We carry in stock the following regular sizes, but can make others to order.
   5 ft., 18 in. wide. Each $0.75
   6' ' 18' ' 95
   7' ' 18' ' 10
   8' ' 18' ' 11
   9 ft., 20 in. wide. 10
   10' ' 20' ' 15
   11' ' 24' ' 1
   12' ' 24' ' 285

Trellis, Fan. Each 1½ ft. high. $0.10; $1.00
   2 ' 15 150
   2½' ' 20 200
   3' ' 40 400
   3½' ' 50 500
   4' ' 60 600
   5' ' 75 750
   6' ' 85 850
   7' ' 100 1100
   8' ' 120 1200

Trellis, Wire Arch. Painted green. ¾-inch rods, 7 ft. high, 1 ft. wide, 4 ft. spread. $6 each.

Tree Guards. Made of steel galvanized wire. Upright wires fastened to horizontal wires securely by clamps. 8 in. diameter, 6 ft. high, $1 each.

Twine. Soft, for tying, very strong. 25 cts. per ball, $2.50 per doz.

Twine, Jute. 6-ply. 20 cts. per ball, $2.25 per doz.

Twine, Yacht Marline. In pound balls, 50 cts. each.

Twine, Green. For smilax. 20 cts. per ball, $2.25 per doz.

Twine, White. For tying. 15 cts. per ball, $1.60 per doz.

Tarred Yarn (Lathyrant). Excellent for tying shrubs, etc. 16 cts. per lb.; coils of 25 lbs., 13 cts. per lb.

Tomato Trellis, Model Extension. Made of heavy galvanized wire. 20 cts. each, $1.75 per doz. (Fig. 33.)

Tomato Trellis. Made in the usual form, of seasoned hard wood, with four smooth planed posts and turned rods. 20 cts. each, $1.75 per doz.

Tomato Trellis. Handy Vine. Made of wood and wire. 20 cts. each, $2 per doz. (Fig. 38.)

Tomato Trellis. Two-hoop. 10 cts. each, $1 per doz.

Trowels, Flat Steel. Best steel, carefully tempered. 6-in., 75 cts. each; 7-in., 85 cts.

Trowels, Garden. Forged steel, strongest and best. 6-in., 40 cts. each; 7-in., 45 cts. (Fig. 32.)

Trowels, Ladies'. Narrow blade, very light. 12 cts.

Weed Grubbers. English. $1.50 each.

Weeder, Brown's Easy. Valuable for working among carnations and roses in greenhouses. 25 cts. each. (Fig. 18.)

Weeder, Cleveland. For extracting deep-rooted weeds. Has long handle and can be used without stooping. 75c.

Weeder, Noyes'. One of the best where hand weeding is required. 25 cts. each; by mail, 30 cts.

Weeder, Lang's. 25 cts. each; by mail, 30c. (Fig. 34.)

Weeder's, Qua's. These consist of a piece of steel ½ in. wide, with one edge saw-toothed and made in three shapes, as shown by illustration. No. 1, triangle; No. 2, square end; No. 3, loop. 25 cts. each; by mail, 30c.

Weeder, Excelsior. Useful for loosening the soil in borders, etc. 15 cts. each; by mail, 20 cts. (Fig. 36.)

Weeder, Hazeltine. Steel blade, similar to Lang's in shape, but larger, and with wooden handle. 30 cts. each; by mail, 40 cts. (Fig. 35.)

Weeder, Eureka. 35 cts. each, not mailable. (Fig. 37.)

Wire. Annealed, galvanized tying. No. 18, 10 cts. per lb., $1 per pound.

Wire, Bouquet. Bright. Cut in lengths of 9 and 12 in., in boxes of 12 lbs. (one stone) each. Nos. 22, 23 and 24, $1.25 each.

Watering Pots. Galvanized. low. 4 qt., $1.50.

Watering Pots. Made extra-strong of double thick tin, carefully brazed and painted. 4-qt., 75 cts. each; 6-qt., 87 cts.; 8-qt., $1; 10-qt., $1.25; 12-qt., $3; 15-qt., $1.75.

Watering Pots, Galvanized Iron. The best florists' Watering Pot made for strength, durability and neatness. Made from best quality iron; the top and back handles riveted on; an iron band on the bottom; the spout riveted, and a brace around it riveted to the body, and galvanized after it is made. A coarse and fine copper-faced rose with each pot. (Fig. 40.)

Each 6 quarts, spout 21 inches long $1.75
8 ' 20 200
10 ' 25 250
12 ' 27 275

Watering Pots. With long spouts, tin. 2-qt., 50 cts. each; 3-qt., 60 cts.; 4-qt., 65 cts.

Watering Pots, French. Made of galvanized iron; oval in shape, with brass handle and long spout; one fine and one coarse copper-faced rose with each. 6-qt., $2.25; 8-qt., $2.50; 10-qt., $2.75.
GARDEN REQUISITES, FLORISTS' SUPPLIES, ETC., continued

Lehman's Carriage and Automobile Heaters and Coal

For heating vehicles of all kinds and for all other purposes where a steady, inexpensive heat is desired this is unquestionably the best device ever invented. It burns a specially prepared carbon known as Lehman coal, without emitting gas, smoke or odor, and will make a vehicle absolutely comfortable in the coldest weather. It will give a continuous heat for 15 hours and cost but one-half cent per hour.

INSECTICIDES AND FUNGICIDES

Ammoniated Solution of Copper. A liquid fungicide, ready for use. Dilute at the rate of 1 quart to 25 gallons of water, and spray lightly. Qt., $1; gal., $2; kegs and barrels, $1.75 and $1.50 per gal.

Ant Exterminator. Q. R. S. For the destruction of ants in lawns and pleasure grounds. In three sizes. 25 cts., 50 cts. and 75 cts. each, postpaid.

Arsenate of Lead. The latest and best known insecticide for all leaf-eating insects. It adheres to the foliage for weeks, thus making frequent spraying unnecessary. Lb. jars, 25 cts.; 5 lbs., 90 cts.; 10 lbs., $1.70; 20 lbs., $3.40; 50 lbs., $8; 100 lbs., $15.

Boxal, Bowker's. Kills potato bugs and destroys blight. Paste, 5 lbs., $1; 10 lbs., $1.75; 25 lbs., $4; 100 lbs., $15.

Bordeaux Mixture, Sterlingworth. A concentrated mixture for use with water. By far the most important fungicide is Bordeaux Mixture, a complex chemical compound prepared by the action of milk of lime on a solution of copper sulphate. The preparation of this valuable compound is best left to the experienced chemist, for, unless fully combined, the copper salt will very likely burn, and possibly destroy completely, the foliage to which it is applied. Properly compounded, the value of Bordeaux Mixture cannot be overestimated. That which we offer has been manufactured from the same formula for years and has given universal satisfaction. One gallon makes from 20 to 50 gallons (depending for what it is to be used) by simply adding water. Explicit directions on every can give instructions how and when to use. Prices: 1-quart cans, 35 cts. each; 1-gallon cans, $1 each; 5-gallon cans, $4.50 each.

Bordeaux Mixture, Lion Brand. One gallon will make 50 gallons by the addition of 49 gallons of water. One gal. patent cans, $1; 1-qt. patent cans, 40 cts.

Bordeaux Mixture with Paris Green, Lion Brand. A combination which, in addition to preventing blight, mildew, etc., will kill potato bugs and all leaf-eating insects. Qt., 50 cts.; gal., $1.25.

Burlap. See page 90.

Fir-Tree Oil. For destroying all insects and parasites that infest fruit trees, plants and animals. Small bottles, 25 cts.; 1/2pt., 50 cts.; pt., 75 cts.; qt., $1.25; 2 qts., $2.25.

Flowers of Sulphur. Prevents mildew on grape-vines, bushes, etc. Lb., 8 cts.; 5 lbs., 25 cts.

Grape Dust. For destroying mildew on grape-vines and trees affected with mold, mildew or rust mites. 5-lb. pkg., 35 cts.

Gipsy Moth Cresoote. For the destruction of the eggs of gipsy moth. Qt., 20 cts.; gal., 50 cts.; in barrels at 40 cts. per gallon.

Gishurst Compound. Box, 60 cts.; by mail, 80 cts.

***Imp” Soap Spray. The base is pure soap. It contains vegetable poisons, harmless to plants, but peculiarly effective against red spider on fruits, etc., the rhododendron fly, rose bug and other insect pests on fruits, flowers and foliage. It sticks, but can be easily washed off before marketing. One gallon (can) makes 12 gallons of spraying fluid. Qt., 50 cts.; gal., $1.50; 5 gallons, 86; 10 gallons, $10.
INSECTICIDES AND FUNGICIDES. continued

**“Imp” Worm and Ant Destroyer.** A poisonous liquid, absolutely harmless to grass. One gallon makes 120 gallons of spraying liquid. Upon spraying the ground, worms and ants immediately rise to the surface. They are rapidly killed off. Astonishingly effective on golf greens, lawns and flower borders. Qt., 75 cts.; gal., $2; 10 gals., $20.

Kerosene Emulsion, Sterlingworth. A valuable reme- dy against scale and all soft-bodied and sucking insects, such as plant lice, leaf aphis, woolly aphis, San José scale, thrip, celery aphis, squash bug, leaf hopper, mealy bug, cabbage worms, etc. Sterlingworth Kerosene Emulsion should not be used with an effective emulsion, but it is a very effective material. Formerly these have been prepared from kerosene, a cheap grade of hard soap and water. Emulsions made from this material cost less but are much less efficient. Our preparation is made from whale-oil soap and water-white oil. While this is more expensive, the resulting emulsion is more stable and far more effective as an insecticide. Prices: 1-pt. cans, 25 cts. each; 1-qt. cans, 40 cts. each; 1-gal. cans, $1 each; 5-gal. jugs, $1.50 each.

Kerosene Emulsion, Concentrated, Lion Brand. Especially valuable for the destruction of the green and black fly, scale, woolly aphis and all sucking insects. Qt., 40 cts.; gal., $1; 5 gals., $4.50.

Lawn Compound, Sterlingworth. Kills the weeds but not the grass, and makes the lawn green and velvety. While it seems incredible that a preparation can be made which will kill the weeds in lawns without injuring the grass, this is exactly what "Sterlingworth Lawn Compound" will do and it will also help the grass to grow green and greatly improve the sward. It absolutely destroys dandelions, plantain, chickweed and all weeds with hairy surfaces or broad leaves. It is a dry, sandy powder to be applied by sprinkling over the grass, and is an achievement in modern chemistry of which the makers are justly proud. Five pounds will dress 500 to 700 square feet, depending on the condition of the lawn. Full directions for use on each package. Prices: 5-lb. cans, 60 cts. each; 10-lb. cans, $1 each; 50-lb. kegs, $4 each; 100-lb. kegs, $7.50 each.

Nicotine Fumigating Compound. For killing all kinds of insects on plants in greenhouses and frames. Sold in cans as follows: Gal., $1.15; No. 1 bbl., sufficient for 32,000 cubic feet of space, $2.50; No. 2, ½ bbl., $1.25; No. 3, 4 ozs., 70 cts. Fumigators, 50 cts. each, consisting of three parts—the pan, wire frame and lamp.

**“Nico-Fume” Tobacco Paper.** (Registered.) For fumigating greenhouses. "Nico-Fume" is positively the strongest Tobacco Paper on the market. Packled in special friction-top tins, and is sold as follows: 24 sheets, 75 cts.; 144 sheets, $3.50; 288 sheets, $6.50.

**“Nico-Fume” Liquid.** A nicotine solution of exceptional purity. Does not stain nor injure blooms nor leave a disagreeable odor. ½ pt., 50 cts.; pt., $1.50; ½ gal., $5.50; gal., $10.50.

Nikoten. A liquid to be used in spraying or vaporizing. Pt. bottles, $1.50 each; 5 for $7.

Pyrox, Bowker's. Serves the double purpose of killing insects and preventing fungus diseases and blemish of fruit. Adheres to the leaf in spite of heavy rains. 5-lb. can, $8; 10 lbs., $17.50; 25 lbs., $4; 100 lbs., $15.

Richard's X L All, Liquid Insecticide. Destroys mealy bug, red spider, etc. Pt., 65 cts.; qt., $1; ½ gal., $1.75.

Richard's X L All, Vaporizing Compound. A safe, cheap, effectual material for the destruction of insects in greenhouses. Costs 25 cents per 1,000 cubic feet. Bottle, sufficient for 20,000 cubic feet, $4.50; sufficient for 40,000 cubic feet, $8. Vaporizing fumigator for same (Richard's), $1.10.

Scaleicide. The best spray for San José scale and all soft- bodied insects. Qt., 40 cts.; gal., $1; 5 gal., $4; 10 gal., $7; 30 gal., $16; 50 gal., $25.

Slug Shot, Hammond's. Destroys insects injurious to house and garden plants, vegetables and fruit of all kinds. Directions for use on each package. 1-lb. cartons, each, 12c.; 5-lb. pks., 25c.; 10-lb. pks., 50c.; 100-lb. pkg., $4.50.

Soap, Sulpho-Tobacco. 3-oz. pkg., 10 cts.; mailed post paid, 13 cts.; per doz., $1; ½ lb. pkg., 20 cts.; mailed postpaid, 28 cts.; per doz., $2.

Soap, Whale Oil and Tobacco, Sterlingworth. Sterlingworth Whale Oil Soap and Tobacco is a most effective, reliable, simple and cheap preparation for ob- taining a san José scale, plant life, and all sucking in- sects on trees, shrubs, plants, vines, rose bushes, etc. The efficiency of this soap is further increased by the addition of tobacco extractive matter and potash. The preparation thus compounded possesses all the virtues of whale oil soap and in addition the valuable insecticidal properties of tobacco and potash, making it doubly valuable. Full directions for use on each package. Prices: 1-lb. box, 15 cts.; 5-lb. box, 60 cts.; 10-lb. box, $1; 100 lbs., $9.

Sulpho-Napthol. Of value as a disinfectant as well as an insecticide. 8-oz. bottle, 33 cts.; pt., $1.

Tobacco Extract. "Rose Leaf." A concentrated extract, for use in greenhouses. Can be used by vaporizing or applying on the pipes with a brush. Diluted with water it can also be applied with a syringe. Qt., 50 cts.; gal., $1.50; 5 gals., $5.

Tobacco Stems. For fumigating. Valuable also when used as a mulch for rose beds. Small quantities, per lb., 5c.; in bbls., per lb., 3c.; large bales or cases, per lb., 2c.

Tree Tanglefoot. A safeguard for trees, shrubs, etc., against the gipsy moth and canker worm. It should be applied before the foliage appears; a continuous band 2 inches in width and 1-16 to ½ inch in thickness being put around the trunk of the trees, 3 or 4 feet from the ground. It is perfectly harmless to the trunk and remains sticky during hot, cold and wet weather. Lb., 30 cts.; 3 lbs., $5; 10 lbs., $2.65; 20 lbs., $4.80.

Weed Killer, Sterlingworth. A most satisfactory and powerful weed-killer, compounded especially for use on walks, drives, tennis courts, etc. It is a powder to be dissolved in water. It completely destroys all kinds of grass, briers, thistles, poison ivy, etc., when ap- plied. One gallon covers three to four square yards, and can be applied with an ordinary watering pot. Lb., (makes 15 gallons) 50 cts.; 3-lb. pkg., $1.25; 5-lb. pkg., $2.

Worm Eradicator, Carter's. For lawns, putting greens, tennis courts, etc. An English preparation which not only destroys all worms in the soil but is a fertili-zer of great merit. It is free from chemicals and harmless to animals. Per 100 lbs., $5; ½ ton, $10; ton, $75.

Bone, Pure Flour of. Ground very fine. An excellent fertilizer for pot-plants or beds where an immediate effect is desired. Excellent for roses. Price, 5 lbs. 25 cts.; 50 lbs., $1.25; 100 lbs., $2; ton, $5.5.

Bone, Inch or Crushed. Very valuable for preparing soil for grape-vines, etc. 100-lb. bags, $2.25; ton, $38.

Bone Black, Dissolved. Contains 16 to 18 per cent soluble and available phosphoric acid. Price, 100 lbs., $1.50; ton, $5.

Cotton Seed Meal. 100 lbs., $2; ton, $36.

Dried Blood. 12 to 14 per cent ammonia. Per 100 lbs., $2.50; per bbl., $5.

Double Sulphate of Potash and Magnesia. 48 to 52 per cent sulphate of potash, 35 to 40 per cent sulphate of magnesia. Price, 10 lbs., 40 cts.; 100 lbs., $2; ton, $35.

High Grade Sulphate of Potash. 90 to 95 per cent sulphate of potash, 48 to 52 per cent actual potash. Price, 10 lbs., 50 cts.; 100 lbs., $3.25; ton, $55.

Hill and Drill Phosphate, Bowker's. A general fertilizer. Price, 50-lb. bag, $1; 100-lb. bag, $1.80.

Humus Fertilizers. These are of value in accelerating the growth of grass, flowering and other plants. They will not only retain moisture longer but will also distribute their fertilizing qualities over a longer period of time and with better results than any other fertilizer on the market. They are very rich in humus, containing from 60 to 65 per cent, which, when mixed with ordinary soils, will increase their water-holding power and add to their supply of nitrogens. As most soils tend to lose their humus content, these Humus Fertilizers are valuable in building them up and maintaining their fertility.

No. 2 is adapted for grass and lawns. Prices: 50 lbs., $2; 100 lbs., $3; 1/2 ton, $12; 1 ton, $23; ton, $42.

No. 3 is adapted for all flowering and non-flowering plants; also for greenhouses and forcing houses. Prices: pkg., 15 cts.; by mail, 33 cts.; 50 lbs., $2; 100 lbs., $3; 1/4 ton, $13; 1/2 ton, $25; ton, $45.

Imperial Plant-Food Chemicals. Rich in phosphates, nitrogen and potash, the well-known essentials of plant life, combined in the best proportion as ascertained from years of careful experimenting. Odorless. We offer the "Chemicals" in dry form as follows:

When diluted and ready for use

| Packages containing 9 oz. (biscuits) | 50 gallons | by mail, 35 cts. | $0.25
| 3 lbs. | 200 | $2
| 7 lbs. | 500 | $2.25
| 15 lbs. | 1,000 | $5

Directions with 100-lb. package

This material is over three times as strong in actual plant-food as any other commercial fertilizer. A similar mixture is designed for lawn and golf greens, and used by all the best golf clubs, is sold in the same sized packages, and at prices as above.

Kainit. 23 to 25 per cent sulphate and muriate of potash; 12 to 13 per cent actual potash. 100 lbs., $1.25; ton, $10.

Lawn and Garden Dressing, S. & F. Co.'s. An odorless fertilizer, especially prepared for us, entirely from chemicals, and designed for top-dressing lawns. It is quick and lasting in its effects, and produces a thick, velvety, hard. Trial bags for 1,000 square feet, 50 cts.; trial bags for 2,500 square feet, $1; 50-lb. bags, for 5,000 square feet, $1.75; 100-lb. bags for 10,000 square feet, $3; ton, $50.

Land Plaster, or Ground Gypsum. Valuable as an absorbent, disinfectant and insecticide. 5 lbs., 15 cts.; 25 lbs., 50 cts.; bbl., $1.75; ton, $10.

Muriate of Potash. 80 to 85 per cent. Price, 10 lbs., 50 cts.; 100 lbs., $2.75; ton, $46.

Nitrate of Soda. 95 to 98 per cent purity. Price, 10 lbs., 50 cts.; 100 lbs., $3.25; ton, $55.

Phosphate of Ammonia "Imp." Granulated crystals, water-soluble. A pure, crystallized chemical, entirely soluble in cold water. Analysis: Nitrogen, 11.9 per cent; ammonium, 15 per cent; available phosphoric acid, 65.5 per cent. Price, 10 lbs., $3.25; 25 lbs., $5; 50 lbs., $11.

Plant Blood. A plant food and tonic for house plants and domestic garden, clean, odorless and safe. Pkg., 15 cts., by mail, 25 cts.; 12 lbs., $1; 100 lbs., $5; 1/4 ton, $20; 1/2 ton, $37.50; ton, $72.

Sheep Manure. A pure, natural manure and the most nutritious food for plants. Its effect is immediate, much more lasting and healthful than guano or any other manure. It is the best of all manures for mixing with the soil for greenhouse plants. It makes the richest, safest and quickest liquid manure, rivaling guano, without any deleterious effects. For flower or vegetable gardens, and as top-dressing for lawns, it is unequalled. We offer two brands, Crushed and Champion (pulverized), both at the following prices: 1-lb. pkg., 10 cts.; 6-lb. pkg., 25 cts.; 25-lb. bag, 75c.; 50-lb. bag, $1.25; 100-lb. bag, $2; ton, $35.

Salt. Used as a top-dressing for lawns and asparagus beds. Price, 100 lbs., 75 cts.; ton, $10.

Soot, Imported Scotch. Prevents mildew when mixed with sulphur at the rate of one-third sulphur and two-thirds soot; also a good fertilizer. Per 100-lb. bag, $2.50.

 sulphate of Ammonia. (Best.) White or Gray, 24/4 to 25/4 per cent ammonium. Price, 10 lbs., 60 cts.; 100 lbs., $4; ton, $75.

Stockbridge Special Manure. The Stockbridge special complete manures were the original special fertilizers sold in this country. They are each especially adapted for the crop designated. The following are the leading brands: Corn and Grain, Grass Top-Dressing, Seeding Down, Lettuce and Spinach, Celery, Asparagus, Potatoes, Onion, Roots, Pea and Bean, Vegetable, Fruits, Trees and Strawberry and Small Fruits. Per 100 lbs., $2; per ton, ask for special price.

Swift's Lowell Animal Fertilizer. A Complete Manure for all Crops. This brand is an unsurpassed all-round fertilizer, and we confidently recommend it as an unequaled crop-producer for general crops. 50-lb. bag, $1; 100-lb. bag, $1.75; ton, $32.
FERTILIZERS, continued

Shay's Grass and Lawn Fertilizer. Guaranteed analysis:—Nitrogen, 4 to 5 per cent; phosphoric acid, 10 to 12 per cent; potash, 6 to 7 per cent. This fertilizer will produce a rich, dark green growth on the lawn, and unlike stable manure it contains no weed seeds, and there is no unsightly straw and other filth to be raked off after application. The best time to apply is on a damp or foggy morning, or even better during a light rain. This allows the plant food to become available. Price, 100 lbs., $2.75; ton, $48.

Shay's Potato Manure. Guaranteed analysis:—Nitrogen, 4 per cent; phosphoric acid, 8 to 9 per cent; potash, 6 to 7 per cent. This brand is a leader and has stood for the past three years ahead of all special fertilizers. There are over 150 different brands and this is ahead of them all. It is unequaled for potatoes, gardening or truck farming. We make special prices for cash orders. Price, 100 lbs., $2; ton, $37.

Thomson's Special Chrysanthemum Manure. Entirely soluble and very powerful, especially suitable for top-dressing chrysanthemums and similar plants. It is meant to be used as an additional stimulant during the growing season. A heaped dessert-spoonful will be sufficient for a 10-inch pot, sprinkled over the surface of the soil, and watered in with tepid water. This may be given three times during the growing season. Price, lb., 25 cents; 7 lbs., $1.25; 14 lbs., $2.55; 28 lbs., $4; 56 lbs., $7.

Thomson's Vine, Plant and Vegetable Manure. A safe and reliable food and stimulant for every fruit-bearing plant, also for foliage flowering plants and vegetables. Prices: ¼ cwt. (14 lbs.), $1.25; ½ cwt. (28 lbs.), $2.25; 1 cwt. (56 lbs.), $4; 2 cwt. (112 lbs.), $7.

Unleached Hardwoodashes. One of the best fertilizers for lawns; also excellent for all kinds of garden or farm crops. 100-lb. bag, $1.25; ton in bags, $16; bbl. (200 lbs.), $2; ton in bbls., $18. In carload lots (in bulk), prices on application.

Peat, Leaf-Mold, Etc.

Rotted Fibrous Peat. Very fine and light. For use in potting plants this is invaluable. Price, ½ pk., 20 cts.; pk. 30 cts.; bus., $1; bbl., $2.

Moss, Sphagnum. For florists’ use. Best quality. Price, bus., $1; bbl., $1.50.

Orchid Peat, or Fern Root. Bus., $1.50; bbl., $2.75.

MUSHROOM SPAWN, LAMBERT’S PURE CULTURE

(See page 22)

Another year’s experience with this admirable spawn only confirms our opinion that it is the best spawn obtainable. Mr. Orpet, whose letter is printed below, informs us that his later plantings have been remarkably productive and satisfactory.

The New Culture Spawn obtained from you this season has produced results very rapidly. The bed was spawned October 10, and we were gathering therefrom on the first week in November and the crop now is very satisfactory.—E. O. Orpet, Gardener to E. V. R. Thayer, Esq., So. Lancaster, Mass., November 22, 1907.

The American Mushroom Spawn I had from you last autumn produced the best crop and the Mushrooms were the finest I have ever seen; they were large, solid and of the best flavor.—JACKSON DAWSON, Arnold Arboretum, Jamaica Plain, Mass., March 1, 1907.

We deliver free, in any part of the United States, all seeds wanted at packet, ounce, ¼ lb., ½ lb., or one-pound rates, when payment is sent with the order. Orders for peas, beans, corn, grains, grass seeds, etc., require remittance of 8 cents per pound or 15 cents per quart to cover cost of postage.

READ WHAT SOME OF OUR CUSTOMERS SAY

I cannot recommend your firm too highly. The flower and vegetable seeds ordered from you have given me the most satisfactory results. The roses shipped me last spring, for our new rose-garden, could not have done better, every plant growing and true to name as ordered.—ROBT. F. CROSS, Superintendent Higgo Co., Osterville, Mass., December 22, 1908.

It may prove of interest to you to get our opinion relative to the Townsend Horse Mowing Machine which we purchased from you. Up to the time we received this machine we had experienced considerable difficulty in having the grass properly cut. The Townsend machine has worked beautifully ever since we commenced to operate it. It cuts the grass neatly and closely and we are as highly pleased with it as anything we have on our links.—ARTHUR O. KNIGHT, Chairman Greens Committee, Worcester Golf Club, Worcester, Mass.

Please find check enclosed to balance account and again allow me to thank you for courteous attention shown and good quality of seed furnished.—JOHN W. SHIRLEY, Lawrence, Mass., December 3, 1907.

James Salter, gardener for P. Dexter, Esq., Boulderwood Farm, Manchester-by-the-Sea, Mass., writes under date of November 3: “Your seeds the past year have maintained the same high standard as heretofore with us.”
FARMOGERM

(High-bred Nitrogen-gathering Bacteria)

MAKES POOR SOIL GOOD SOIL

It is well known that nitrogen is the most expensive of fertilizing elements. It is also known that it is the plant food in which most soils are deficient. We are pleased, therefore, to be able to offer our patrons an improved and most reliable method of inoculating soil with nitrogen-gathering bacteria. By moistening the seed of any leguminous crop to be planted with Farmogerm, not only is the immediate crop benefited by this pure culture of high-bred nitrogen-gathering bacteria, but the soil is enriched in nitrogen which will be available for future crops of any kind for two or three seasons. One of the important advantages which Farmogerm has over other and earlier preparations of this kind is the fact that it needs no treatment or development before using. It comes in sealed bottles ready for use, with a little water, according to directions on the package.

Soil inoculation is a big subject and the possibilities of it are only partly appreciated by many. We have no space for details here, but we hope our customers will write us for a free pamphlet on the subject which we will be pleased to send. Investigate before planting any of the following crops:

Alfalfa, alsike, berseem, crimson clover, red clover, white clover, Canadian field peas, cow peas, soy beans, velvet beans, vetch, lupins, peanuts, garden beans, garden peas, sweet peas and other legumes.

When ordering, be sure and state for what crop Farmogerm is wanted.

We are prepared to supply Farmogerm for any one or all of these crops at the laboratory price of $2 per acre, 10 per cent discount on 25 acres, 15 per cent discount on 50 acres, 20 per cent discount on 100-acre orders.

Garden size, mixed culture, good for peas, beans and sweet peas, at 50 cents a bottle.

The U. S. Department of Agriculture says:

"The Pure Culture Method Has Come to Stay."
